

EMERGENCY EVENT TRACKING

Data collection: 11 April 2023

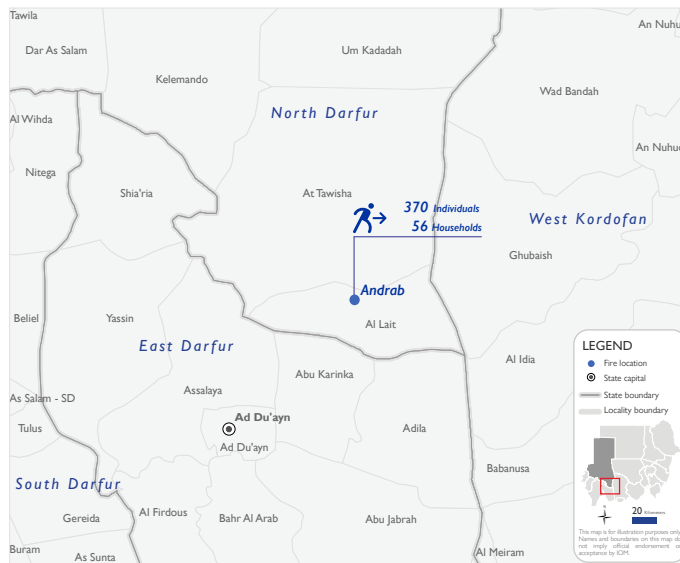

As a subcomponent of the Mobility Tracking methodology (Round Five), the Emergency Event Tracking (EET) tool is deployed to track sudden displacement, provide more frequent updates on the scale of displacement, and quantify the affected population when needed.

Event Overview

On 7 April 2023, a fire broke out in Andrab village of Al Lait locality, North Darfur. Field teams reported that 56 houses were completely destroyed during the incident. The First EET update estimates a total number of 370 individuals (56 households) currently seeking shelter with relatives or neighbours across Andrab village in Al Lait locality, North Darfur.

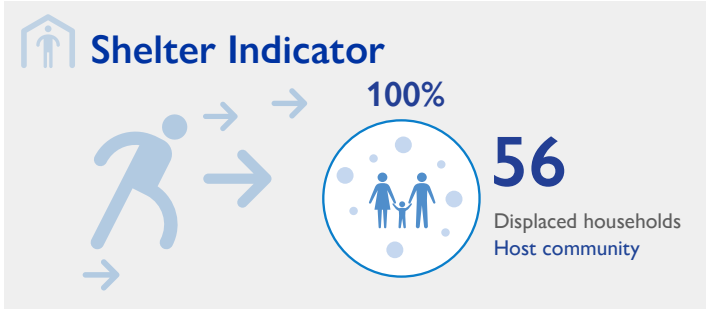

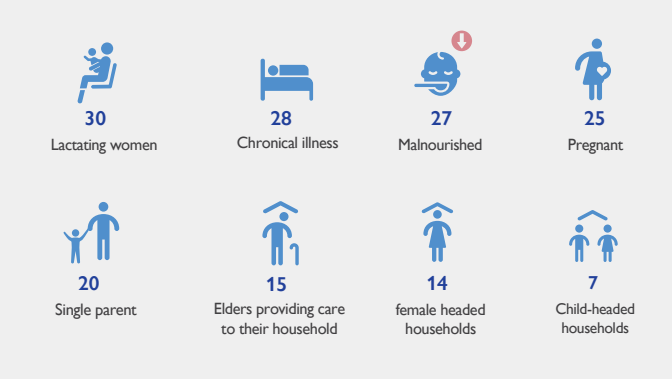

Field teams indicated that there were no deaths and that five individuals were injured. The personal belongings of all affected households were destroyed during the fire incident. Field teams estimate that the entire IDP caseload are Sudanese nationals (100%). There are 27 cases of individuals reporting losses in goods, cattle, and/or livestock. At least 166 cases of additional vulnerabilities in need of assistance and support were identified by key informants through DTM's Protection Indicator. Additionally, DTM Sudan estimates that there are approximately 56 persons with disabilities among the IDP caseload.* Based on a ranking scale, the three priority needs across the caseload are Emergency Shelter, Food, and Health (Medical Needs).
