

Current IDP locations in El Geneina

The DTM Emergency Event Tracking (EET) is deployed to track sudden displacement and population movements, and provide more frequent updates on the scale of displacement and quantify the affected population when needed. As a subcomponent of the new Mobility Tracking methodology in Sudan ([Round Zero](#)), and activated on a needs basis, EET utilises a broad network of key informants to capture best estimates of the affected population presence per location – a useful tool for humanitarian response planning and design.

Event Overview

Since 22 December 2019, inter-communal tensions between Massalit and Arab tribesmen in and around El Geneina, West Darfur, has fueled conflict - resulting in the death of 54 and injury of 60 people. Violent clashes led to the further displacement of persons from three internally displaced persons (IDP) camps, namely Al Sultan, Krinding 1 and Krinding 2.

DTM teams activated EET across 29 locations/gathering points (predominantly schools) for IDPs in El Geneina – estimating 46,377 displaced individuals (9,463 households) affected by the violence. Out of this total caseload, 40 family members are known to be missing, as well as 70 children remaining separated from their parents. Due to the conflict that erupted in Al Sultan, Krinding 1 and Krinding 2 camps, at least two blocks and 2,303 homes have been burnt down – a further 801 houses looted.

801
HOUSES LOOTED

2,303
HOUSES BURNT DOWN

Through DTM registration activities, IOM will be verifying these figures over the upcoming weeks to provide partners with beneficiary lists for their direct assistance.

Protection Indicator

40 missing family members

70 vulnerable children separated from their parents
