

WEEKLY DISPLACEMENT SNAPSHOT (27)

16 April 2024

Displacement Data Reporting Date: 12 April 2024

Mixed Cross-Border Movement Reporting Date: 14 April 2024

(367) DAYS
From the start of the conflict

- 23,300** ↑ Displaced Individuals
- 5,067** ↑ IDP households
- 6,143** ↑ Mixed Cross-Border Movement

Overview

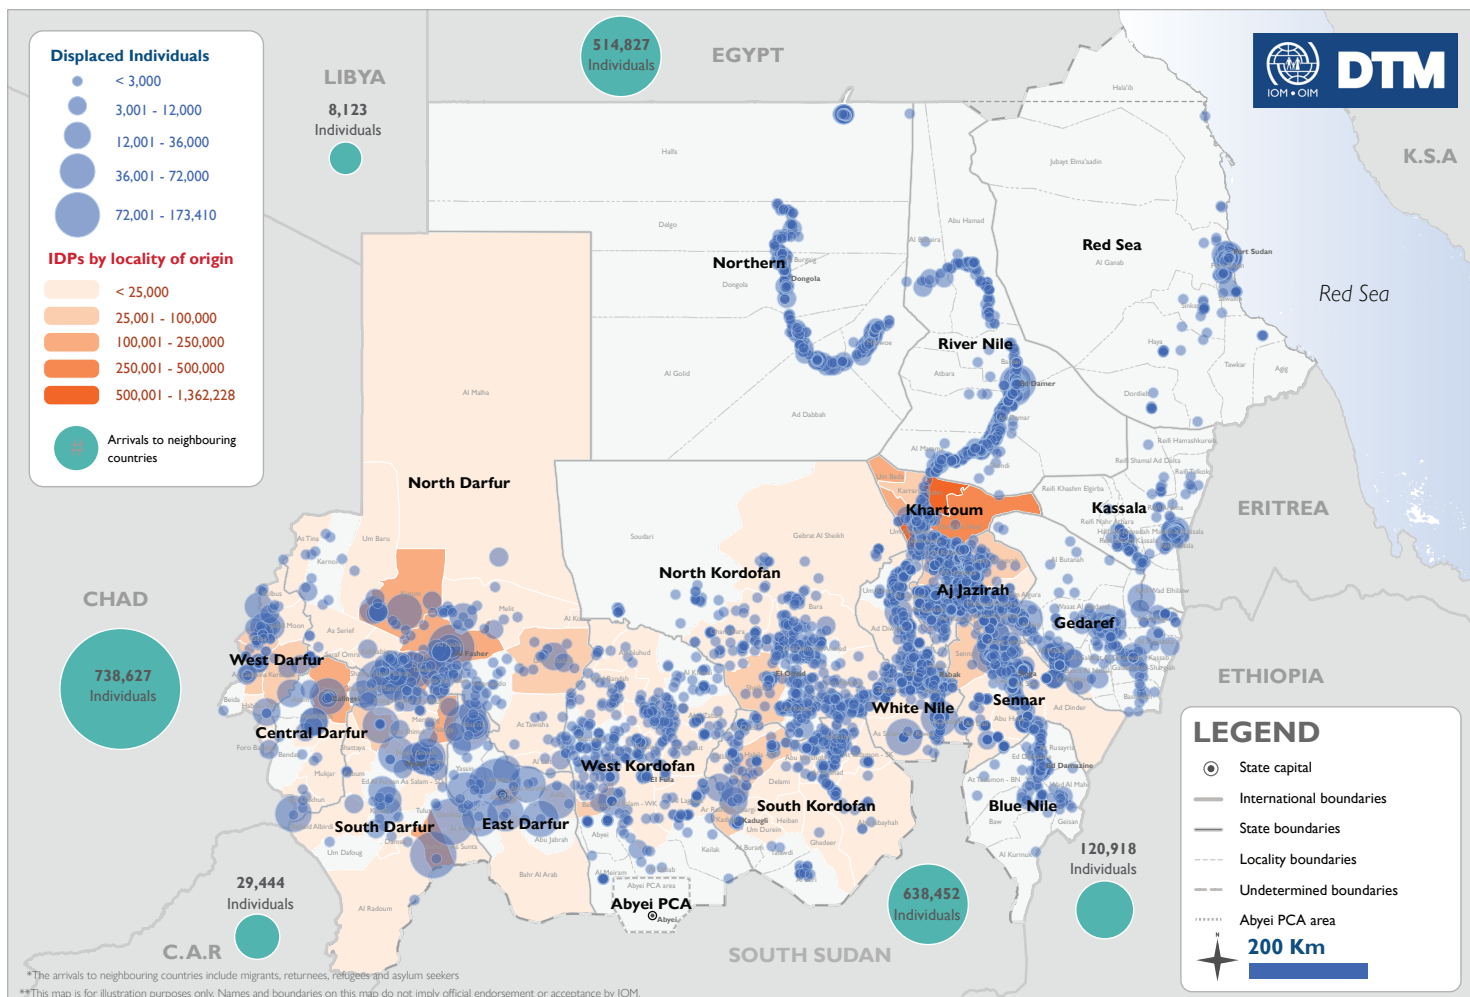

Since 15 April 2023, on-going armed clashes between the Sudanese Armed Forces (SAF) and the Rapid Support Forces (RSF) have led to widespread displacement. As a result of these clashes, DTM Sudan estimated that 6,680,850 individuals (1,330,933 households) were internally displaced, representing a weekly increase of 23,300 individuals (5,067 households) since the preceding week.¹

The internally displaced persons (IDP) caseload was observed in 7,143 locations across all of Sudan's 18 states.² The highest proportions of IDPs were observed across South Darfur (11%), River Nile (11%), and East Darfur (10%) states. Field teams reported that the IDPs were originally displaced from twelve states. As reported, 53 per cent of IDPs were displaced from Khartoum state (3,560,858 IDPs), followed by South Darfur (15%), Aj Jazirah (10%), North Darfur (9%), Central Darfur (4%), West Darfur (4%), South Kordofan (2%), East Darfur (1%), West Kordofan (1%), North Kordofan (1%), Sennar (1%), and White Nile (<1%).

DTM Sudan also estimated that approximately 2 per cent of the IDP caseload were non-Sudanese nationals.³

In addition to the internal displacement, the conflict in Sudan has caused the Mixed Cross-Border Movements of 2,050,391 individuals into neighbouring countries namely Egypt, Libya, Chad, Central African Republic, South Sudan and Ethiopia. Sixty-Three per cent of arrivals tracked in those countries were Sudanese nationals and 37 per cent estimated foreign nationals and returnees. The majority of arrivals were reported in Chad (36%), South Sudan (31%), and Egypt (25%).

This product provides a brief snapshot of the ongoing displacement across Sudan, post-15 April 2023. For more granular information on the humanitarian and displacement context, please see [One Year of Conflict in Sudan: Visualizing the World's Largest Displacement Crisis](#).

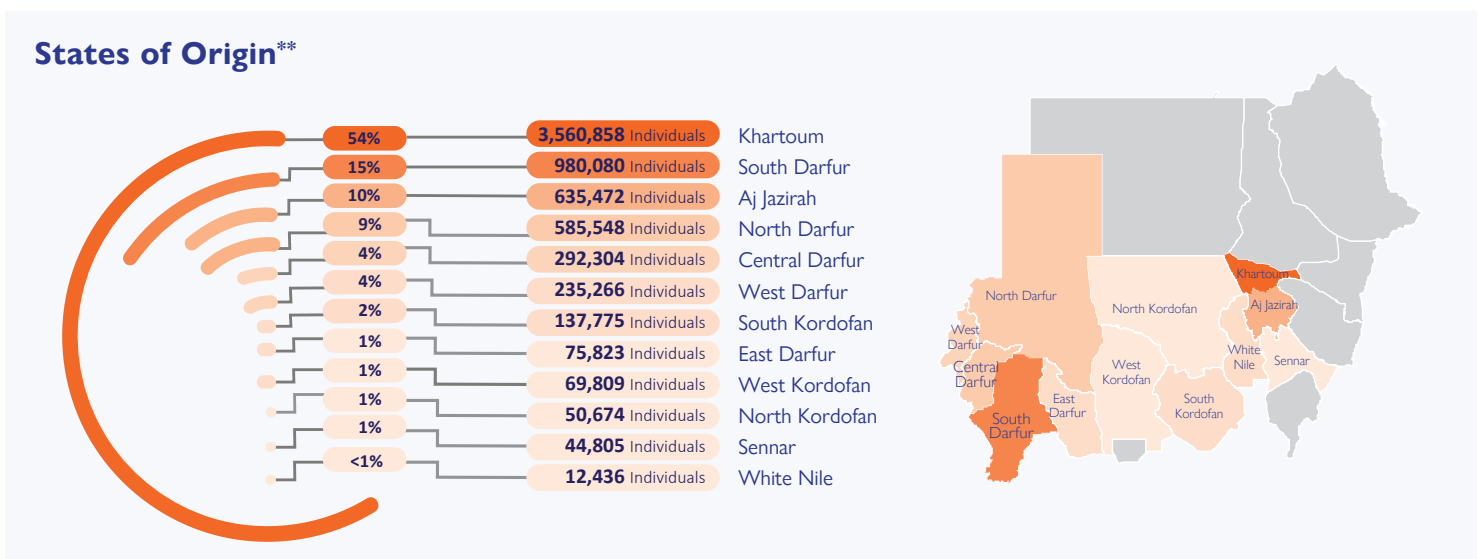

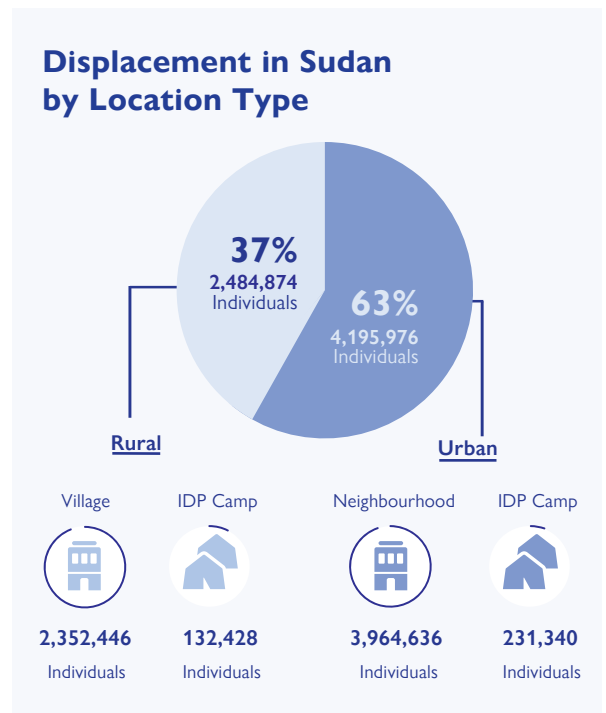

Map 1: Displacement across Sudan and into neighbouring countries as of 14 April 2024.

1. In lieu of Weekly Displacement Snapshot 26, DTM Sudan published a report to mark one year of conflict in Sudan. Please see: [One Year of Conflict in Sudan: Visualizing the World's Largest Displacement Crisis](#). The report reflects data corresponding to Weekly Displacement Snapshot 26, valid as of 04 April 2024.
 2. The data from many locations has been gathered with the co-ordination of the Humanitarian Aid Commission.
 3. Field teams collect information on the displacement of foreign nationals in Sudan regardless of whether those individuals have sought international protection or not. Due to the ongoing operational limitations, DTM is currently unable to distinguish between those who have sought asylum and are registered as a refugee and those who are not.

States of Displacement	Snapshot 26* 4 April 2024	Snapshot 27 12 April 2024	Difference	% Total **	Number of locations
Aj Jazirah	364,158	364,412	254 ↑	5%	1,518
Blue Nile	142,936	144,576	1,640 ↑	2%	145

Table 1: Overview of displacement by state

Disclaimer: DTM Sudan is a suite of methodological tools which aims to track and monitor displacement. DTM collects primary data, with a focus on providing best estimates for support to the wider humanitarian community. DTM Sudan notes that armed clashes remain continuous in many areas across Sudan. As such, DTM is currently collecting data through a dual combination of face-to-face and remote interviews with key informants across its network. Data on flows into neighbouring countries is based on available information from DTM flow monitoring networks and secondary sources. Figures should be treated as preliminary findings only and are subject to change via future verification exercises. Percentages across the report may not equal 100 per cent due to rounding.

* In lieu of publishing Weekly Displacement Snapshot 26, DTM Sudan published a report to mark one year of conflict in Sudan. Data corresponding to Weekly Displacement Snapshot 26 is available on the DTM-IOM website and reflected in the following report: One Year of Conflict in Sudan: Visualizing the World's Largest Displacement Crisis.

** Total may not be 100 per cent due to rounding.

*Total may not be 100 per cent due to rounding.

Displacement of Foreign Nationals within Sudan

119,228 ⁴ **2%**
individuals

From the total IDP caseload reported, field teams indicated that 119,228 individuals were foreign nationals (approximately 2% of total IDPs across Sudan). Most foreign nationals (89,694 IDPs) were located in White Nile, constituting 17 per cent of the IDP caseload in that state. By comparison,

foreign nationals constituted smaller proportions of the observed caseload in other states: Red Sea (6%), Gedaref (2%), Kassala (2%), South Kordofan (<1%), Khartoum (<1%), Blue Nile (<1%), North Kordofan (<1%), Northern (<1%), and North Darfur (<1%).

Mixed Cross-Border Movement

2,050,391
Mixed Cross-Border Movement

Since the onset of the conflict on 15 April 2023, DTM has noted substantial mixed cross-border movements involving both Sudanese and foreign nationals (including returnees). Field teams reported that these movements have proved challenging for communities. Security concerns, such as military clashes, or the breakdown in law and order in many areas, as well as steep fuel and transportation costs, and environmental events (such as flooding during the rainy season) have all impacted options for both domestic and cross-border travel.
