

EMERGENCY EVENT TRACKING

Data collection: 27 December 2021

CONFLICT

The DTM Emergency Event Tracking (EET) is deployed to track sudden displacement and population movements, provide more frequent updates on the scale of displacement, and quantify the affected population when needed. As a subcomponent of the new Mobility Tracking methodology in Sudan (Round Two), and activated on a need basis, EET utilises a broad network of key informants to capture best estimates of the affected population presence per location – a useful tool for humanitarian response planning and design.

Event Overview

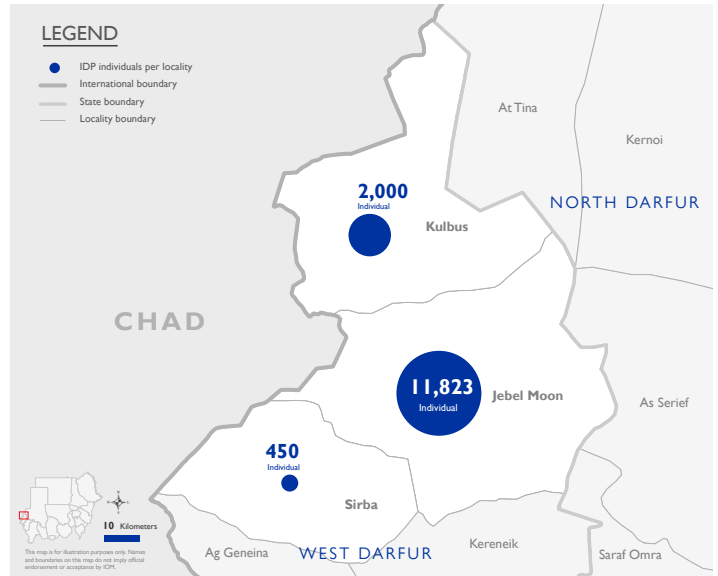

DTM teams activated EET to monitor the displacement of individuals affected by inter-communal clashes between Arab nomads and farmers from the Misseriya tribe in Jebel Moon locality, West Darfur on 9 October 2021 over an issue of land accessibility. Field teams report that all individuals displaced from the first update later returned to their locations of origin. On 20 November 2021, inter-communal clashes escalated further between the two groups in and around Khazan Kajo village, Jebel Moon locality. For more information, please see [EET Jebel Moon, West Darfur \(Update 004\)](#).

The fifth EET update estimates that a total number of 14,273 individuals (2,778 households) are currently seeking refuge in Jebel Moon (64%), Selea (11%), and Hajlejah (8%) in Jebel Moon locality, Werywery (14%) in Kulbus locality, and Jorof (3%) in Sirba locality, West Darfur.

The IDP caseload was originally displaced from Haskenita (15%), Faclo (10%), Gozmino (8%), Umsayala (7%), Hajlija (5%), Umketer (5%), Jiljilk (5%), Gradaiya (4%), Krokaro (4%), Haraiya (3%), Arja (3%), Anara (2%), Kafagani (2%), Bada North (2%), Semeima (2%), Dar mara (2%), Nasnkal (2%), Otash (2%), Helat Awen (2%), Ammar Jadeed West (1%), Hashaba (1%), Wadareib (1%), Gebash (1%), Bada Ganokora (1%), Ammar Jadeed (1%), Kishkisk (1%), Goziegi (1%) among other villages (3%) in Jebel Moon locality, West Darfur. Additionally, 50 individuals were displaced from Kafani village in Sirba locality, West Darfur.

All displaced individuals are Sudanese nationals. At least 5,320 cases of additional vulnerabilities in need of further support and assistance were identified through DTM's protection indicator. DTM teams report that 35 individuals were killed, and seventeen individuals have sustained injuries, whilst 1,006 families report lost personal belongings, crops, and livestock. Based on a ranking scale, the three main priority needs for the displaced caseload are Emergency Shelter, Non-Food Items, and Food.
