

SITUATION UPDATE

Displacement towards Eastern Libya continues to be reported by field observers since the last update of IOM Libya’s Displacement Tracking Matrix (DTM) on 07 June 2020. Furthermore, armed conflict in Wadi Al Jareef (Sirt region) on 10 June reportedly heavily affected local communities, leading to new displacement to Sirt city (at least 1,900 IDPs). Overall, DTM identified an additional 1,095 internally displaced families (approximately 5,475 individuals) since the last update, bringing the total number of internally displaced persons to at least 4,790 families (approximately 23,950 individuals) who have been forced to leave their homes since 04 June.

23,950 IDPs
(4,790 FAMILIES)

DISPLACEMENT LOCATIONS

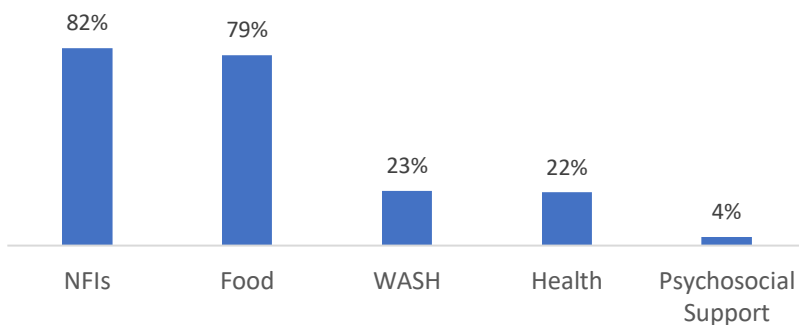

New arrivals of IDPs were reported in urban areas in Eastern Libya, particularly in Benghazi and Ejdabia, but also other locations such as Al Bayda, Shahat, Tobruk, Abyar and Qaminis. Some of the new IDPs had reportedly previously stayed in Sirt and Shwayrif, but moved further East. Please refer to the map on page two for more details on the current displacement locations.

HUMANITARIAN SITUATION

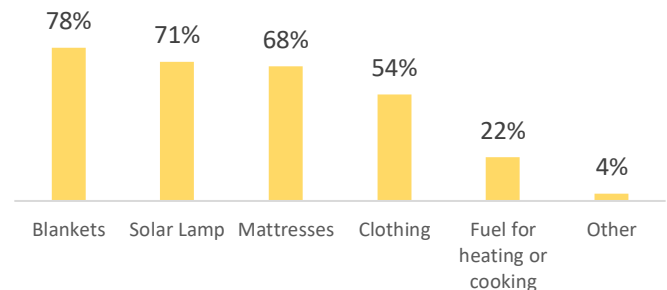

The majority of newly displaced families are staying with relatives, friends and host families. Collective shelters have also been set up by local authorities, currently hosting 3,180 IDPs in Ejdabia, Tobruk, Shahat, Bayda, Bani Waleed and Benghazi.

On 09 June, DTM conducted a rapid displacement survey with 168 newly displaced households in Benghazi, Ejdabia and Shahat. The most commonly reported humanitarian priority needs in displacement locations were Non-Food Items (82%), Food (79%), WASH (23%) and Health assistance (22%). The vast majority of respondents (85%) indicated they had not received any humanitarian assistance. Most surveyed IDP families in the three locations were staying in private accommodation (90%) while 10% reported temporarily staying in collective shelters.

Reported Humanitarian Priority Needs by IDP Families
(168 interviews in Benghazi, Ejdabia and Shahat)

Non-Food Item Needs
(of families reporting NFI as priority need in Benghazi, Ejdabia and Shahat)

85% reported not having received any assistance

13% reported having family members suffering from chronic diseases
