

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements as well as security and climatic emergencies. Information is collected through phone interviews with key informants and direct observation. This dashboard presents information on **population displacement which occurred on 26 April 2023 in the neighborhood of Savanne Pistaches in the municipality of Port-au-Prince (West district), following armed attacks.**

Methodology

	Assessment conducted in affected areas	
	Assessment conducted through phone interviews with key informants	

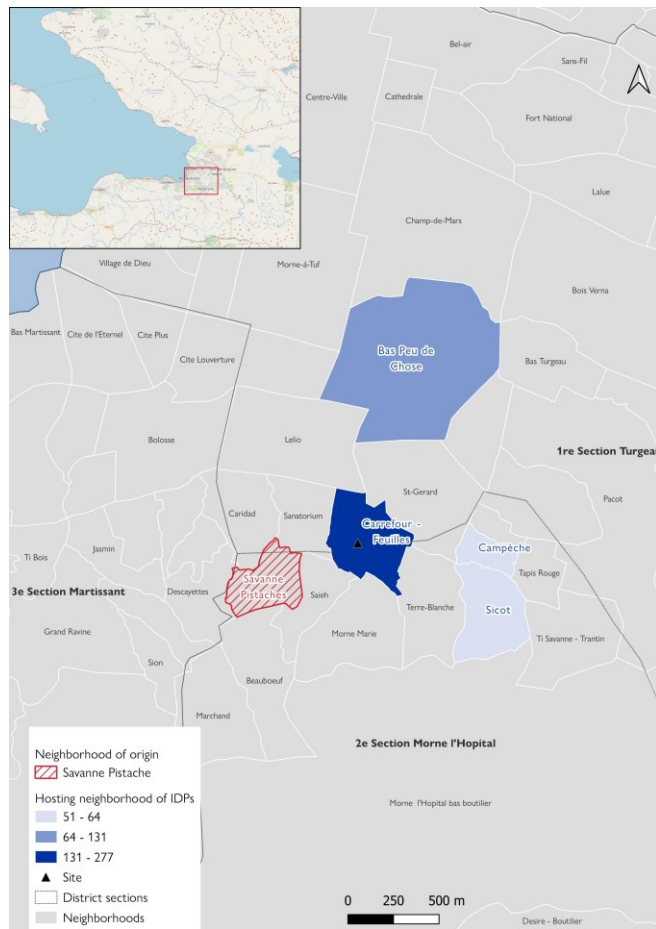

Limits

The information presented in this report may not represent all displacements caused by this incident. Indeed, it is possible that some displacements were not detected by key informants. In the case new displacement information caused by this incident is reported, updates can be made accordingly.

Furthermore, it is important to consider that figures are estimates and not data from a counting or registration of displaced households.

This map is for illustration purposes only. The depiction and use of boundaries, geographic names and related data shown on maps and included in this report are not warranted to be error free nor do they imply judgment on the legal status of any territory, or any endorsement or acceptance of such boundaries by IOM.

Origins and host locations of displaced persons

Event Summary

The neighborhood of Savanne Pistaches (located in the 2nd municipality section of Morne L'Hopital, in the Port-au-Prince Municipality) (West District) have faced attacks of armed individuals as of 26 April 2023. In addition to loss of life, burning and looting of houses, these attacks have also caused the displacement of approximately **123 individuals (523 households)** who took refuge in other neighborhoods of Port-au-Prince, especially in the neighborhood of Carrefour-Feuilles (47%) and Bas Peu de chose (25%). Most of IDPs (94%) took refuge in host communities in while 6 per cent have taken refuge in a spontaneous site in which other IDPs had already taken refuge for several weeks (Site College des Sciences Pédagogiques Essentiel).
