

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements as well as security and climactic emergencies. Information is collected through phone interviews with key informants and direct observation (three minimum). This dashboard presents information **on population displacements that occurred on 20 January 2023, in the neighborhoods of Metivier, Pernier 24, Fatima, Petit Moulin de Pernier and Frères, located in the municipality of Pétion-Ville (West district), following armed attacks.**

Context

An attack by armed persons took place on 20 January 2023 in the municipality of Pétion-Ville (West district), mainly in the Metivier neighborhood. This event caused the displacement of approximately 261 households (1,088 individuals). These people left five neighborhoods (see graph and map) to seek refuge with families of their relatives living mainly in other neighborhoods of the same municipality of Pétion-Ville: Girardeau, Nerette, Jalousie, Puits Blain, Vivy Mtelch, Bois Moquette and Malik. Some people fled to areas located in other districts (Jérémie in the district of Grande Anse and Mirebalais in the Center district).

IOM teams are collecting more information on displaced persons in their host locations and will share related reports when available.

This map is for illustration purposes only. The depiction and use of boundaries, geographic names and related data shown on maps and included in this report are not warranted to be error free nor do they imply judgment on the legal status of any territory, or any endorsement or acceptance of such boundaries by IOM.
