ESTIMATED NUMBER OF RETURNEES (individuals)²

2 - IOM projections and estimates on returnees are evaluated every six months.

HIGHLIGHTS

Over 780,000 people have crossed into Chad since the onset of the crisis in Sudan. As of end of June, IOM estimates that 201,379 among them are Chadian returnees and expects this number to rise to 240,000 through to December 2024. This is due to ongoing conflict and food insecurity in Darfur, owing to the current suspension of the humanitarian corridor between Chad and Darfur.

BACKGROUND

Returnees are Chadian nationals who were living in Sudan and have been displaced back to their home country where they lack the resources to rebuild their lives. Returnees are living either in displacement sites or within host communities. They are in urgent need of food, water, sanitation and hygiene, shelter, household items, health, and protection. IOM is the lead agency for the returnee response, in close coordination with the Government of Chad, local authorities, UN agencies, and local and international NGOs.

PRIORITY NEEDS

SINCE THE BEGINNING OF THE CRISIS THE IOM SUPPORTED:

disclaimer: assistance is distributed on a household level, where number of individuals reached may be subject to change and refined once a distribution has been completed.

EMERGENCY ASSISTANCE PROVIDED TO DATE

IOM is leading life-saving assistance for Chadian returnsees from Sudan via multisectoral interventions.

IOM HAS SUPPORTED:

- 115,555 returnsees with multisectoral assistance in 30 sites across Ouaddaï and Sila provinces since the beginning of the crisis.
- 3,788 transitional shelters benefitting over 21,000 of the most vulnerable returnsees and is constructing an additional 1,200 shelters in the returnee sites of Deguesssa in Sila and Tongori in Ouaddaï.
- The construction of 500 brick homes in a continuous effort to strengthen protection and social cohesion efforts as well as supporting resilience by assisting returnsees in replacing their transitional shelters.
- 91,075 returnsees by creating 10 new boreholes (thermic, solar-powered, and manual), 639 latrines, and distributing 8,489 essential WASH kits.
- 7,879 households (41,624 individuals) to meet their most essential needs through multipurpose cash assistance.
- 6,171 households (47,221 individuals) to carry out essential household tasks through non-food items distributions.
- In collaboration with WFP, 105,850 returnsees with food distribution across the provinces of Ouaddaï and Sila.

REPORTING PERIOD UPDATES

HUMANITARIAN COORDINATION

As the lead agency for the humanitarian response for returnsees, IOM continues to coordinate with national, international, and government partners (CNARR, local authorities) to deliver vital services to vulnerable returnsees in the east of Chad. IOM continues to support and coordinate the delivery of WASH, food, protection, health, shelter, NFI, and education assistance in returnee sites by national and international partners including UNICEF, UNFPA, WFP, Concern Worldwide, INTERSOS, COOPI, ACTED, Help Tchad, and the Chadian Red Cross.

- IOM is also managing the first Humanitarian Hub in Farchana, where it hosts UN agencies, INGOs, and NGOs operating in Chad and Sudan.
- IOM supports the monthly distribution of food assistance, both in-kind and cash-based, by WFP to 105,680 returnsees in Ouaddaï and Sila. During this reporting period, IOM and WFP has supported 12,605 returnsees with cash for this purpose.
- In partnership with Concern Worldwide, 1,200 WASH kits and another 1,200 dignity kits were provided in Awirrado and Goz-Safrah.
- With the impending rainy season ahead, a distribution of 11,500 tarps is underway in the provinces of Ouaddaï and Sila to adequately protect returnsees and their shelters.

DISPLACEMENT DATA & KNOWLEDGE SHARING

IOM's Displacement Tracking Matrix (DTM) is a leading tool to monitor and analyse displacement flows. IOM DTM teams, including CNARR agents, locally recruited and trained enumerators, are deployed across Sila and Ouaddaï provinces on an ongoing basis to identify and register vulnerable returnee households, including newly arrived households as well as households in remote locations not previously identified. IOM's data on displacement and needs feeds knowledge sharing within the humanitarian community to coordinate and target lifesaving assistance to those in need. Biometric registration is ongoing in Sila in Deguesssa, in order to update and better identify the returnsees currently living in the Deguesssa.

- Through the newly installed registration centre at the Adre High School located adjacent to the UNHCR registration centre, IOM registered nearly 5,000, returnsees during this reporting period. Over 2,000 returnsees were identified across three sites in the department of Mabrone, which thereafter served as the basis for the distribution of 387 WASH kits.
- IOM is currently undergoing its second round of biometric registration at the Deguesssa returnee site.

RESILIENCE AND POST-EMERGENCY

IOM is developing its intervention in support of the longer-term resilience and recovery of Chadian returnsees and the communities hosting them.

- IOM has preidentified community-based projects in collaboration with local authorities, host communities and returnsees in Deguesssa. The projects were identified through focus group discussions with the stakeholders and beneficiaries and aim to improve the livelihoods and economic opportunities of the communities by building a market, stores, a community garden and construction of community mills.
- In a similar effort, IOM engaged in focus-group discussions with relevant parties in Toumtouma in the province of Ouaddaï, to prioritise durable solutions, notably in terms of infrastructure, the development of boreholes, and strengthening of medical clinics and schools.

TOTAL REGISTERED RETURNEES AS OF 9 JULY 2024 I

Total number of households: 24 946

Total number of individuals: 133 670
