

OVERVIEW¹

Cyclone Gombe made landfall as a Category 3 Tropical Cyclone on Friday, March 11 at 00:00 GMT on the coast between Mossuril and Mogincual districts (Nampula Province). The most hit provinces are Nampula (districts: Angoche, Moma, Mogovolas, Mucuburi, Monapo, Ilha, Lalaua, Mossuril, Nacala Porto and Meconta) and Zambezia (districts: Namacurra, Gile, Nicoadala, Maganja, Pebane, Molocue, Mocubela, Mopeia, Mocuba and Ile), leaving many houses and power lines destroyed with an estimated affected population of 116,454 individuals. Initial assessments have recorded 4,929 households hosted in 12 temporary accomadations in Nampula. Where accessible, data collection teams support continued assessments across 3 identified Accommodation Centers hosting families displaced across Nicoadala district (Zambezia).

KEY FIGURES²

¹ Please note that the extent of damages and affected population are still being assessed by INDG, IOM-DTM team on ground and other humanitarian response partners.

² Figures are based on estimates from population census projections.

³ Displaced people is not necessarily associated with Tropical Cyclone Gombe. The affected districts already hosted displaced persons before the landfall of Gombe, due to conflict or other previous natural disasters.
