OVERVIEW

On 04 December, armed bandits reportedly attacked the community Karare in Karare ward of Batsari LGA in Katsina State. The attack affected 398 individuals, who remained in the community. As a result of the attack, one fatality and 43 injuries were reported.

Following these events, rapid assessments were conducted by DTM (Displacement Tracking Matrix) field staff to inform the humanitarian community and government/partners, and to enable targeted response. Flash reports utilise direct observation and a broad network of key informants to gather representative data and collect information on the number, profile, and immediate needs of affected populations.

Nigeria's north-central and north-west zones are afflicted with a multi-dimensional crisis. Long-standing tensions between ethnic and religious groups often result in attacks and banditry or hirabah. These attacks involve kidnapping and grand larceny along major highways by criminal groups. During the past years, the crisis accelerated and has resulted in widespread displacement across the north-central and north-western regions.
