Movement Trigger:
Relocation

OVERVIEW

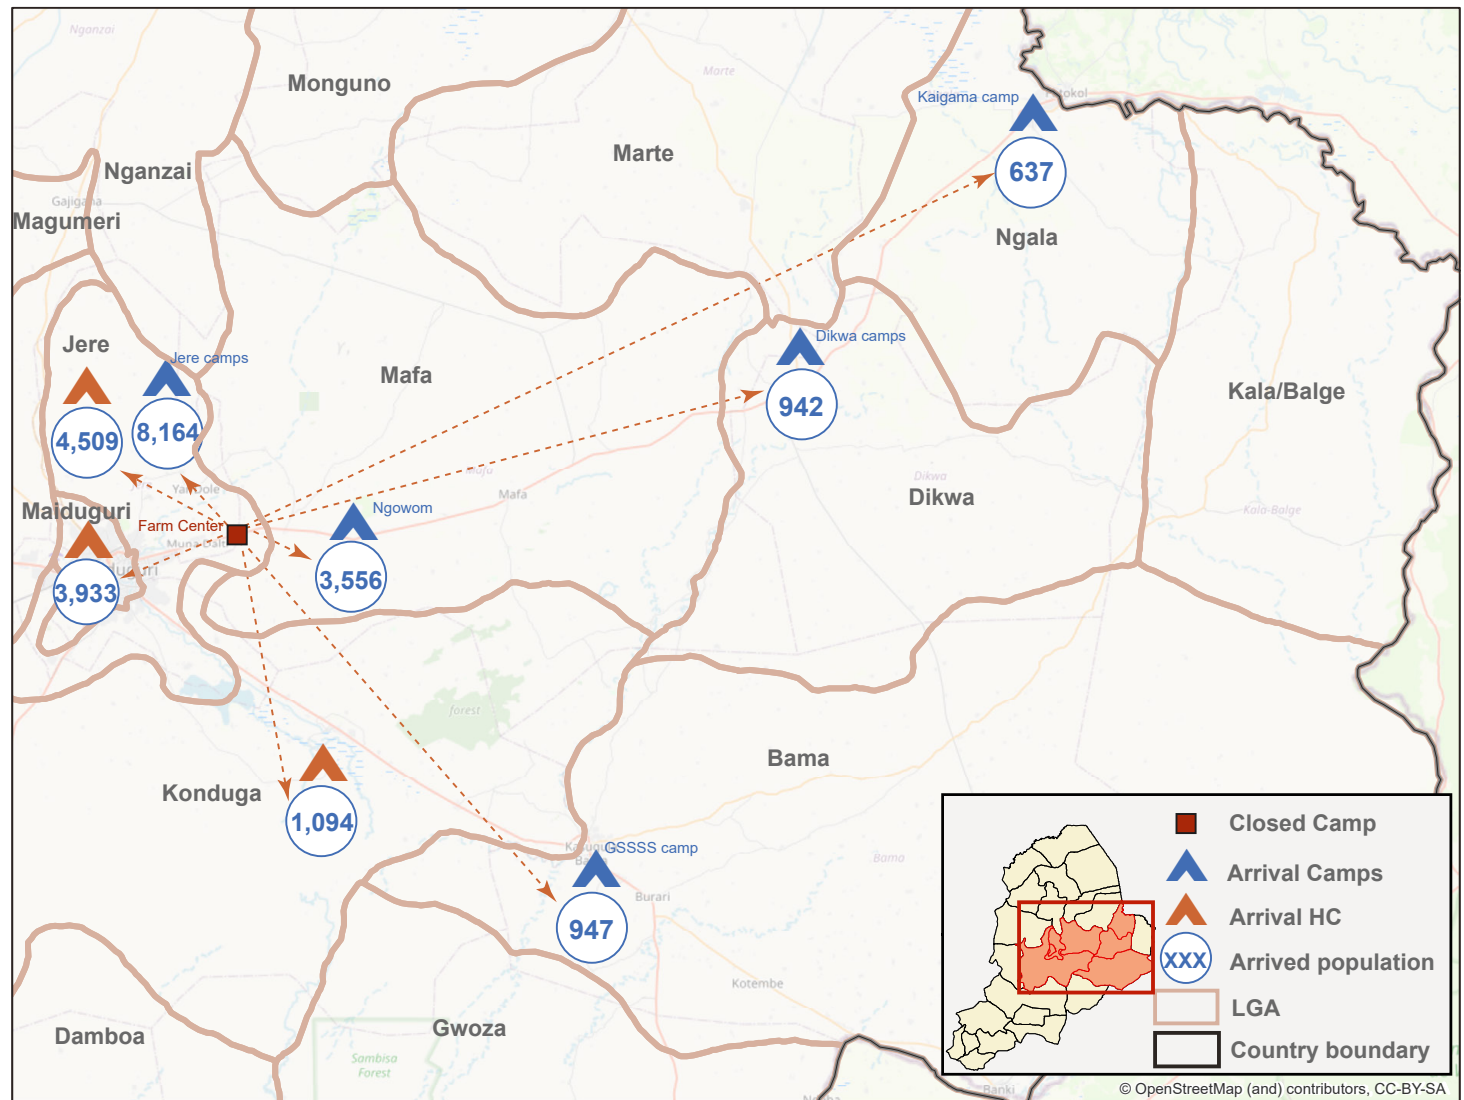

As part of the IDP relocation programme issued by the Borno State Government (BSG), the IDPs residing in Farm Center Camp were relocated to their LGAs of origin.

On 02 September 2021, the Borno State Government (BSG) commenced the relocation of the IDPs residing in Farm Center Camp, located in Dusuman ward in the Jere LGA of Borno state. Following this event, a rapid assessment was conducted by DTM field staff in order to capture these IDP movements, inform the humanitarian community and enable targeted assistance to the BSG. Flash reports utilise direct observation and a broad network of key informants to gather representative data and collect information on the number, profile and immediate needs of the repatriated population.

An estimated number of 23,782 individuals or 4,323 households were relocated from Farm Center Camp to various locations in the state. Parts of the IDP population organised the relocation themselves, others were assisted by the Borno State Government. Of the total IDP movement, 9,536 individuals or 1,656 households relocated to locations in the LGAs Jere, Konduga and Maiduguri M.C. The great majority are currently residing within host communities in Maiduguri Town. IDPs originating from the LGA Konduga have relocated to their locations of origin. The remaining 14,246 individuals or 2,667 households were relocated to camps and camp-like settings in the LGAs Bama, Dikwa, Jere, Mafa and Ngala as shown in the table below. The relocation towards Ngala LGA is still ongoing as there has been a delay on the transit.

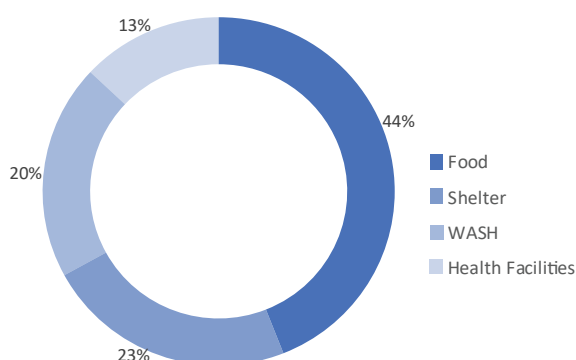

Above are pictures taken at departure and at arrival in Shuwari Kalari.

The map is for illustration purposes only. The depiction and use of boundaries, geographic names and related data shown are not warranted to be error free nor do they imply judgment on the legal status of any territory, or any endorsement or acceptance of such boundaries by IOM.

NEEDS

There is need for food, health facilities, shelter and WASH facilities in the camps and camp-like settings where the IDPs have been relocated. This is a result of the congestion of some of the camps cause by the new influx of IDPs. There is a need for additional boreholes in the Shuwari Kalari settlement in Jere LGA, and in the new settlement in Ngowom, a village in Loskuri ward in Mafa LGA. Additionally, in the Shuwari Kalari settlement, an estimated 300 households are still in need of shelter.

ARRIVAL LOCATION

LGA	Ward	Locations	Site Type	Households	Individuals
Bama	Mairi	GSSSS Camp Bama	Camp	180	947
Dikwa	Dikwa	Dikwa Camps	Camps	119	942
