

### SUMMARY

213 Households

1,025 Individuals

8 sites

213 Damaged/Flooded shelters

4 Damaged toilets

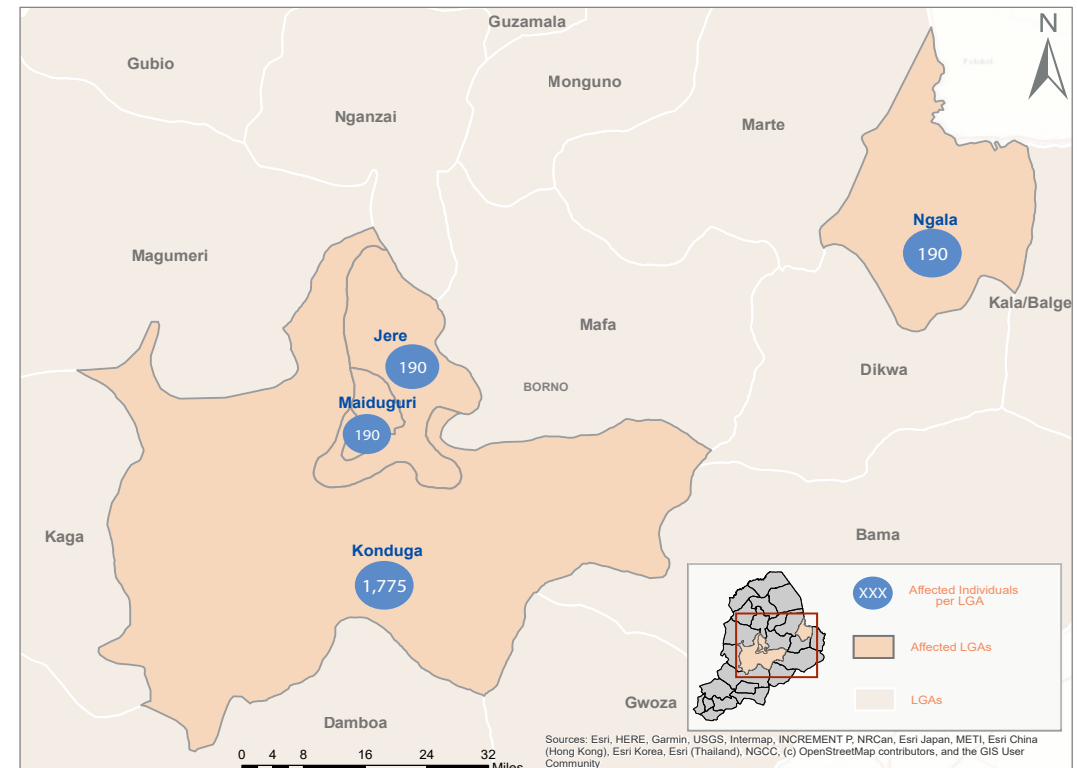

6 Damaged shower points

With the onset of the rainy season in Nigeria's conflict-affected northeastern state of Borno, varying degrees of damages are expected to infrastructures (self-made and constructed) in camps and camp-like settings. Usually, heavy rainfalls are accompanied by strong winds causing serious damage to shelters of IDPs.

Between 15 and 21 July 2021, IOM's DTM programme carried out assessments to ascertain the level of damage sustained in camps and camp-like settings due to heavy windstorms and rainfall. Overall, 4 collective settlement and 4 camps in Maiduguri LGA were assessed. The worst-hit of the collective settlements assessed was El-miskin camp i, in Old maiduguri Ward of Jere LGA where a heavy rainfall damaged 70 shelters, affecting an estimated 356 individuals.

In total, 213 shelters were either damaged or flooded by storms, leaving a total of 213 households with immediate need for shelter. There was no casualty as a result of the storms.

The maps in this report are for illustration purposes only. The depiction and use of boundaries, geographic names, and related data shown on maps and included in this report are not warranted to be error free nor do they imply judgment on the legal status of any territory, or any endorsement or acceptance of such boundaries by IOM

There is a major need of WASH, Shelter repair kits and shelter. As a preventive measure against flooding, most IDP sites need good drainage systems and the use of sand bags to channel the water flow.

Above is a Picture taken at the site showing the flooded areas in Yajiwa Camp.

Most Needed Assistance. FIG 1.1

### Response

IOM assisted 10 households out of the 36 households affected by the storm with shelter repair kits in International School Camp in Ngala Ward of Ngala LGA. Other camps and camp like settlements are in need of WASH assistance in the provision of drainages and sand bags to mitigate flooding when there is heavy rainfall.

### Damages at IDP Sites

LGA	Ward	Site Type	Site Name	Number of Affected Households	Number of Affected Individuals	Male	Female	Number of Damaged Shelters	Number of Damaged Toilets	Number of Damaged Showers
