

# BASELINE MOBILITY ASSESSMENT

**PARWAN  
SUMMARY RESULTS  
ROUND 7 • OCT – DEC 2018**

Like many IDPs and returnees in Afghanistan, these returnees in Charikar district, Parwan province, live in makeshift tents in informal settlements. © IOM 2018

## ABOUT DTM

The Displacement Tracking Matrix (DTM) is a system that tracks and monitors displacement and population mobility. It is designed to regularly and systematically capture, process and disseminate information to provide a better understanding of the movements and evolving needs of displaced populations, whether on site or en route. For more information about DTM in Afghanistan, please visit [www.displacement.iom.int/afghanistan](http://www.displacement.iom.int/afghanistan).

In Afghanistan, DTM employs the Baseline Mobility Assessment tool, designed to track mobility, determine the population sizes and locations of forcibly displaced people, reasons for displacement, places of origin, displacement locations and times of displacement, including basic demographics, as well as vulnerabilities and priority needs. Data is collected at the settlement level, through key informant interviews, focus group discussions, and direct observations.

DTM enables IOM and its partners to deliver evidence-based, better targeted, mobility-sensitive and sustainable humanitarian assistance, reintegration, community stabilization and development programming.

## 5 TARGET POPULATIONS

Through the Baseline Mobility Assessments, DTM tracks the locations, population sizes, and cross-sectoral needs of five core target population categories:

- 1. Returnees from Abroad**  
*Afghans who had fled abroad for at least 6 months and have now returned to Afghanistan*
- 2. Out-Migrants**  
*Afghans who moved or fled abroad*
- 3. Fled IDPs**  
*Afghans from an assessed village who fled as IDPs to reside elsewhere in Afghanistan*
- 4. Arrival IDPs**  
*IDPs from other locations currently residing in an assessed village*
- 5. Returned IDPs**  
*Afghans from an assessed village who had fled as IDPs in the past and have now returned home*

Data on population sizes for the 5 target population categories is collected by time of displacement, using each of the following time frames: 2012-2015 • 2016 • 2017 • 2018.

## HIGHLIGHTS

-  **9** districts assessed
-  **385** settlements assessed
-  **2,010** key informants interviewed
-  **60,492** returnees from abroad [2012-2018]
-  **17,312** IDPs [2012–2018] currently in host communities
-  **53,571** former IDPs have returned to their homes [2012–2018]
-  **58,372** out-migrants fled abroad [2012–2018]
-  **4,424** out-migrants fled to Europe (8% of out-migrants)
-  **2,973** returnees and IDPs live in tents or in the open air
-  **2 in 5** 39% of all returnees and IDPs reside in Bagram district
-  **1 in 3** persons (31%) in Koh-e-Safi District is a returnee
-  **3 in 5** persons in Surkh-e-Parsa District has fled their home as an IDP (63%)
-  **14,515** individuals in Koh-e-Safi District have no access to markets
-  **2 in 5** 42% of families in Shinwari District have no access to schools
-  **8,442** individuals (54%) in Koh-e-Safi District have no access to potable water

Displaced Individuals in all 5 Target Populations | Summary Overview by District

District	*Base Population	Total Inflow (Returnees + Arrival IDPs)	% of Pop.	Returnees	% of Pop.	Fled IDPs	% of Pop.	Arrival IDPs	% of Pop.	Returned IDPs	% of Pop.	Out Migrants	% of Pop.

\* Base Population source: OCHA, CSO Population Estimates for 2016 to 2017, 15-AUG-2016

Symbology: > 25% of population

\*\* Of the 10 districts in Parwan, only 9 were accessible and assessed, therefore the sum population of the 9 listed districts does not equal the total population of Parwan reflected in the above table.

2,724 IDPs and returnees in Parwan do not have access to any form of shelter, including tents, like this IDP family living in the open air. © IOM 2018

## METHODOLOGY

The overall objective of DTM's Baseline Mobility Assessment in Afghanistan is to track mobility and displacement, provide population estimates, locations and geographic distribution of displaced, return and migrant populations, as well as refugees, nomads, cross-border tribal groups, and both domestic and international labour migrants. DTM captures additional mobility information, including reasons for displacement and return, places of origin and destination, times of displacement and return, secondary displacements, and population demographics, vulnerabilities and multi-sectoral needs.

DTM predominantly employs enumerators who originate from the areas of assessment. Enumerators collect quantitative data at the settlement level, through focus group discussions with key informants (KIs). Through direct observations, enumerators also collect qualitative data on living conditions, basic services, and security and socio-economic situation.

Due to security risks, enumerators cannot carry smart-phones or tablets in the field, therefore they collect data, daily, using a paper-based form, which is pre-filled with data from the previous round for verification of existing data and to expedite the assessment process. Completed forms are submitted weekly to the provincial DTM office and verified for accuracy by the team leader and data entry clerk. Once verified, the data is entered electronically via mobile devices, using KoBo forms, and submitted directly into DTM's central SQL server in Kabul, where it is systematically cleaned and verified daily, through automated and manual systems. This stringent review process ensures that DTM data is of the highest quality, accuracy and integrity.

When DTM assesses a province for the first time, enumerators collect data through two rounds of two-layered assessments:

1. District-level assessment (B1): this assessment aims to identify settlements with high inflows and outflows of Afghan nationals and provide estimated numbers of each target population category.
2. Settlement-level assessment (B2): based on the results of B1, this assessment collects information on inflows and outflows of each target population category at each settlement (village), identified through B1. Additional villages are also identified and assessed, based on referrals from KIs.

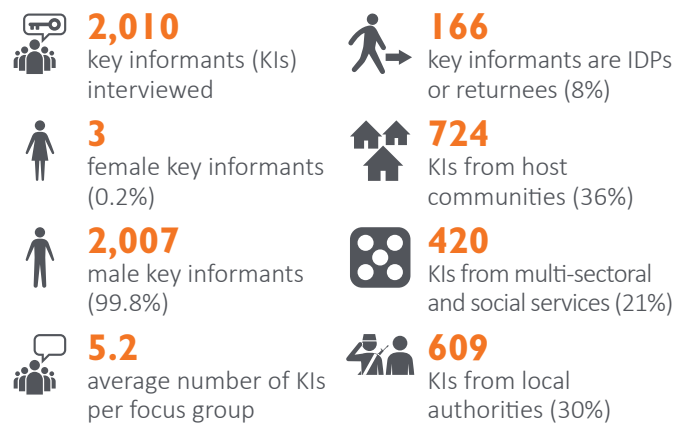

Since DTM has now assessed all 34 provinces, only settlement-level assessments will be conducted in the future. Pending continued funding, DTM aims to conduct baseline mobility assessments, nationwide, twice per year.

## KEY INFORMANTS

DTM's field enumerators collect data at the settlement level, predominantly through focus group discussions with key informants. While assessing communities, enumerators also observe the living conditions and availability of multi-sectoral services. In the rare case that DTM's District Focal Points cannot physically reach a community, due to insecurity, conflict, or risk of retaliation, DFPs meet the focus groups at safe locations outside their communities or conduct the assessments by phone.

By actively recruiting more female enumerators, though challenging, DTM has made significant strides to improve gender inclusion in focus group discussions, although there is much room for improvement. In Parwan, however, female informants only make up 0.2% of the total.

Key Informants by Type | Parwan

Key Informants by Type and Sex | Parwan

## RETURNNEES

Returnees are Afghan nationals who have returned to Afghanistan in the assessed location after having spent at least six months abroad. This group includes both documented returnees (Afghans who were registered refugees in host countries and then requested voluntary return with UNHCR and relevant national authorities) and undocumented returnees (Afghans who did not request voluntary return with UNHCR, but rather returned spontaneously from host countries, irrespective of whether or not they were registered refugees with UNHCR and relevant national authorities).

There was a negligible change in the number of returnees from abroad to Parwan in 2016 compared to the period from 2012 to 2015. In 2017, however, there was a more significant decrease of 30% and another decrease of 30% in 2018 compared to the previous years.

**60,492**  
returnees from abroad

**34,932**  
returned from Pakistan (58%)

**31,740**  
undocumented returnees from Pakistan + Iran (53.5%)

**24,348**  
returned from Iran (40%)

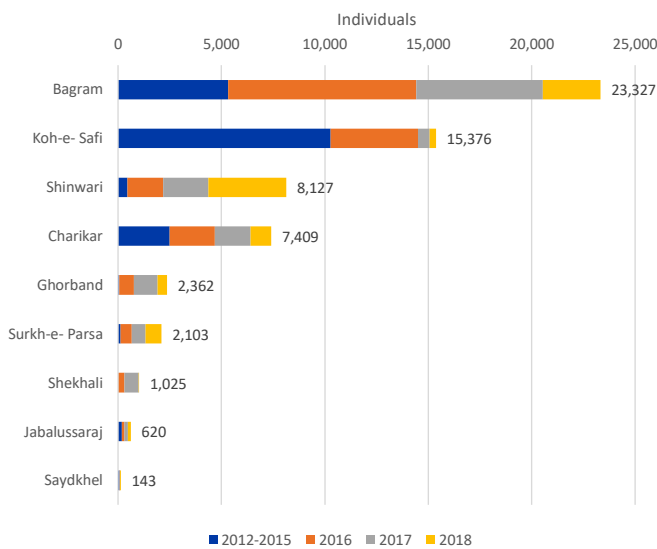

**27,540**  
documented returnees from Pakistan + Iran (46.5%)

**1,212**  
returnees from non-neighbouring countries (2%)

Returnees from Abroad by District | Parwan

## ARRIVAL IDPs

Arrival IDPs (IDPs) are Afghans who fled from other settlements in Afghanistan and have arrived and presently reside at the assessed location / host community, as a result of, or in order to avoid, the effects of armed conflict, generalized violence, human rights violations, protection concerns, or natural and human-made disasters.

**17,312**  
IDPs currently reside in host communities

**74%**  
displaced due to conflict

**6,832**  
IDPs in Bagram, which hosts the most IDPs

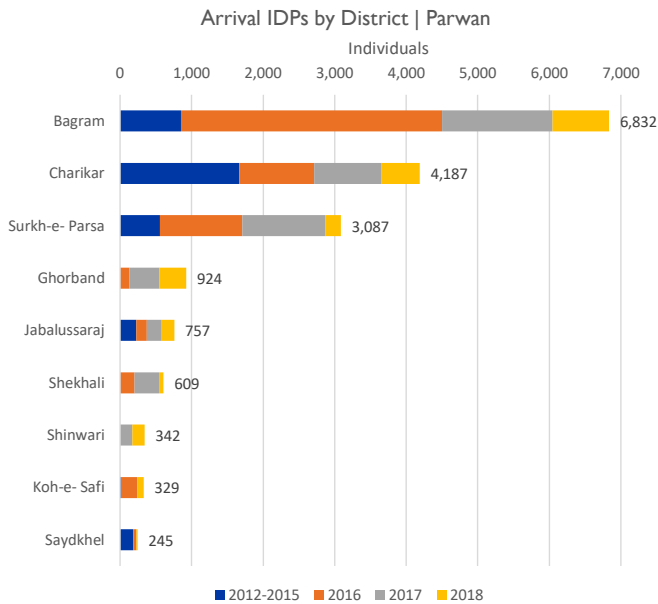

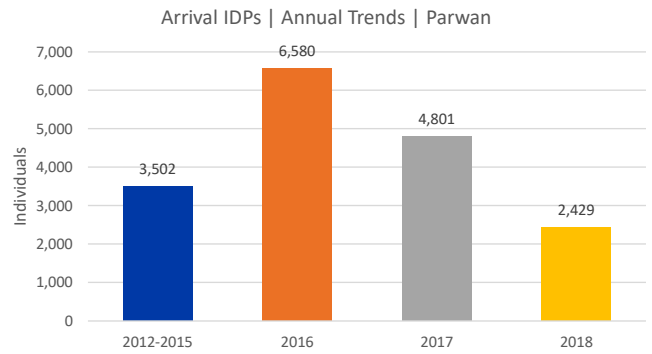

**26%**  
displaced by natural disaster

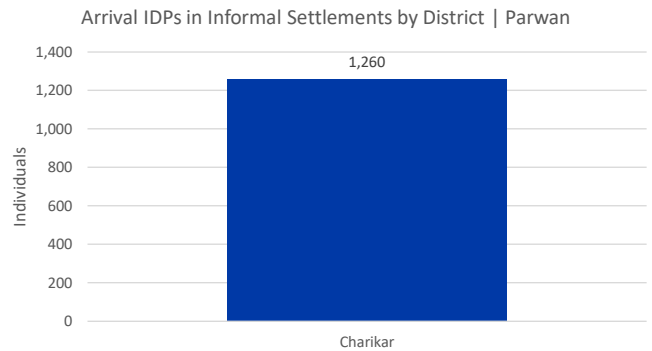

**1,260**  
IDPs reside in informal settlements (7%)

**26%**  
IDPs displaced within their home province

Arrival IDPs by Province of Origin | Parwan

Arrival IDPs | Shelter | Parwan

+ ➡ **TOTAL INFLOW** [RETURNEES + ARRIVAL IDPs]

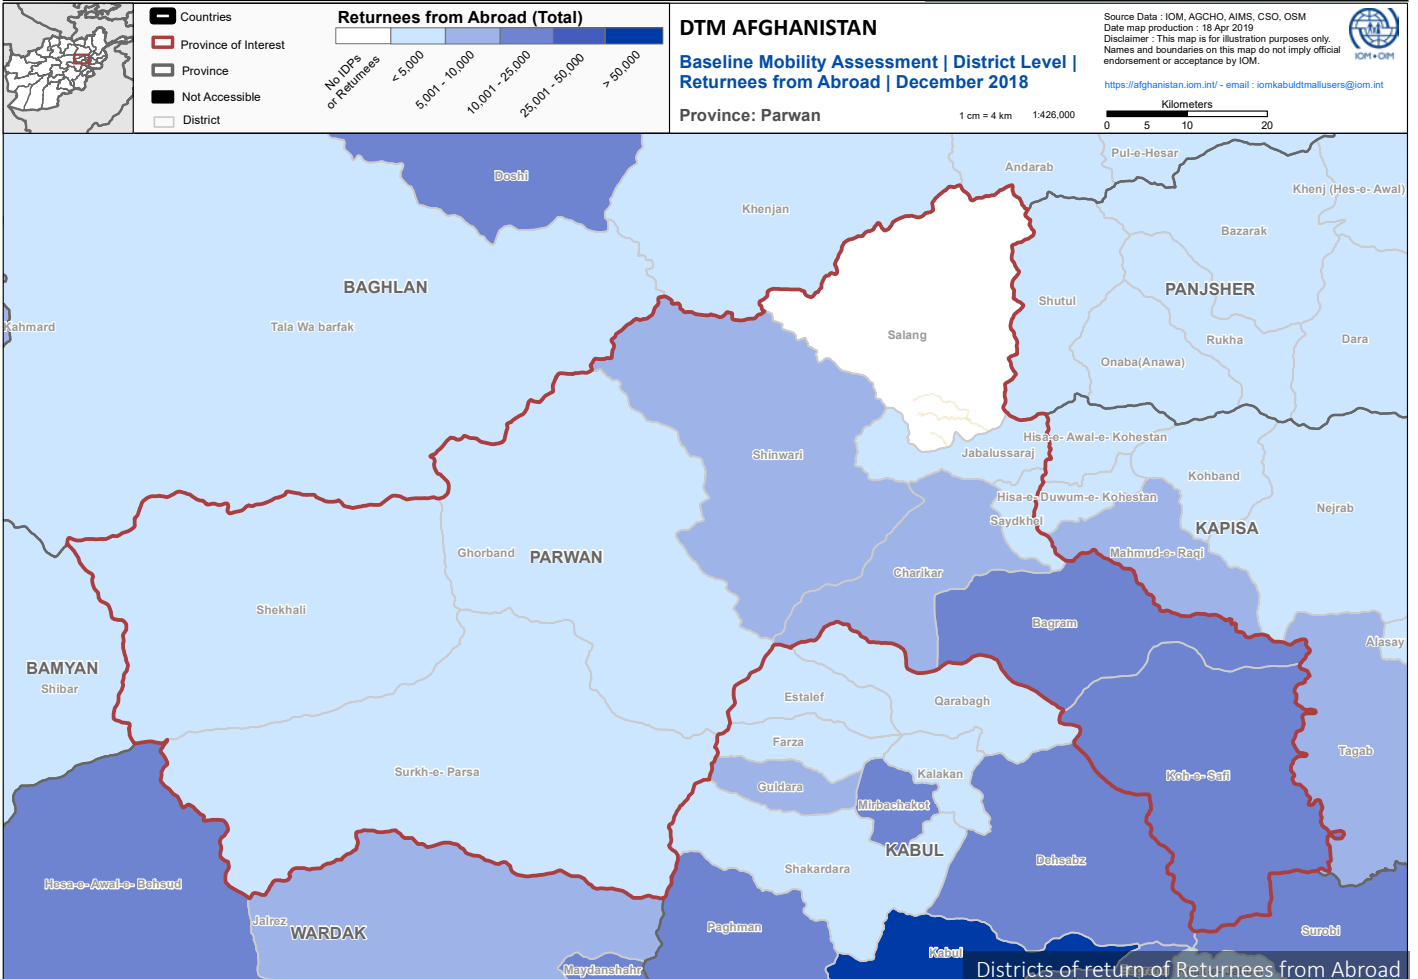

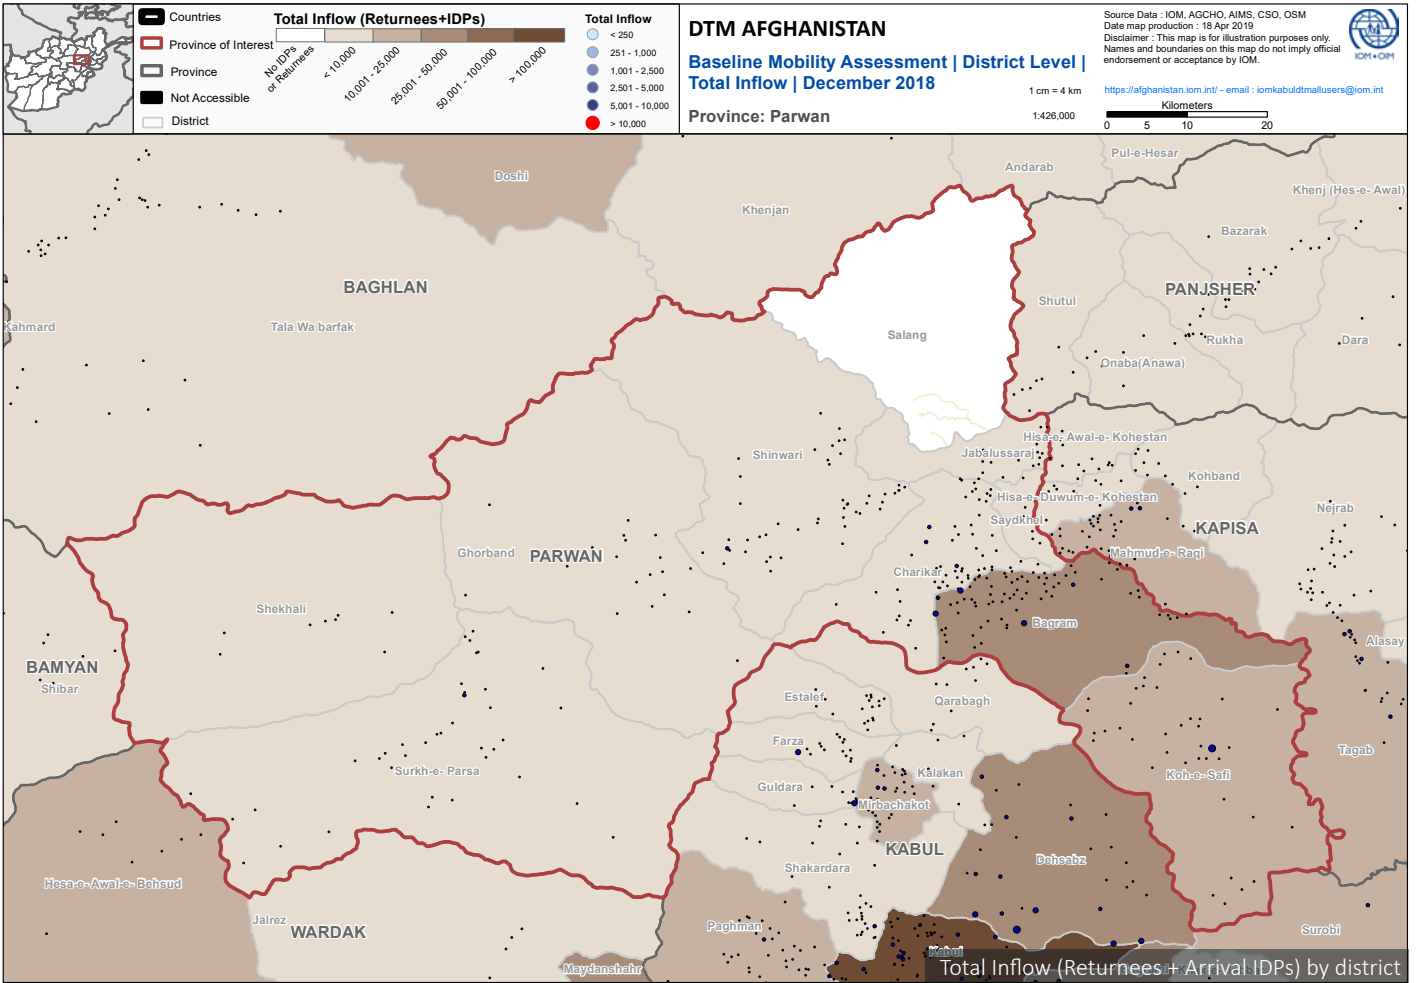

Overall, Parwan province hosts a total inflow of 77,804 returnees and IDPs, of which 78% (60,492) are returnees and 22% (17,312) are IDPs. The table below shows the 20 settlements in Parwan that are most affected by this influx. These 20 settlements (5% of the 385 settlements assessed in Parwan) host 44% of the province’s returnees and IDPs. These communities are especially fragile and susceptible to social instability induced by this large influx and the subsequent competition for limited, already overstretched resources and job opportunities. 9 of the 20 most affected settlements are in Bagram district, which have 51% (17,528) of the returnees and IDPs from this group.

**Total Inflow (Returnees + IDPs) | Summary by District**

District	Returnees	Arrival IDPs	Total Inflow
Bagram	23,327	6,832	30,159
Koh-e-Safi	15,376	329	15,705
Charikar	7,409	4,187	11,596
Shinwari	8,127	342	8,469
Surkh-e-Parsa	2,103	3,087	5,190

	<b>Total</b>		<b>34,407</b>

**FLED IDPS**

Fled IDPs are Afghans who have fled from an assessed location or settlement within which they previously resided and now currently reside in a different settlement in Afghanistan, as a result of, or in order to avoid, the effects of armed conflict, generalized violence, human rights violations, protection concerns, or natural and human-made disasters.

**92,953**  
Fled IDPs

**20%**  
fled IDPs displaced within Parwan

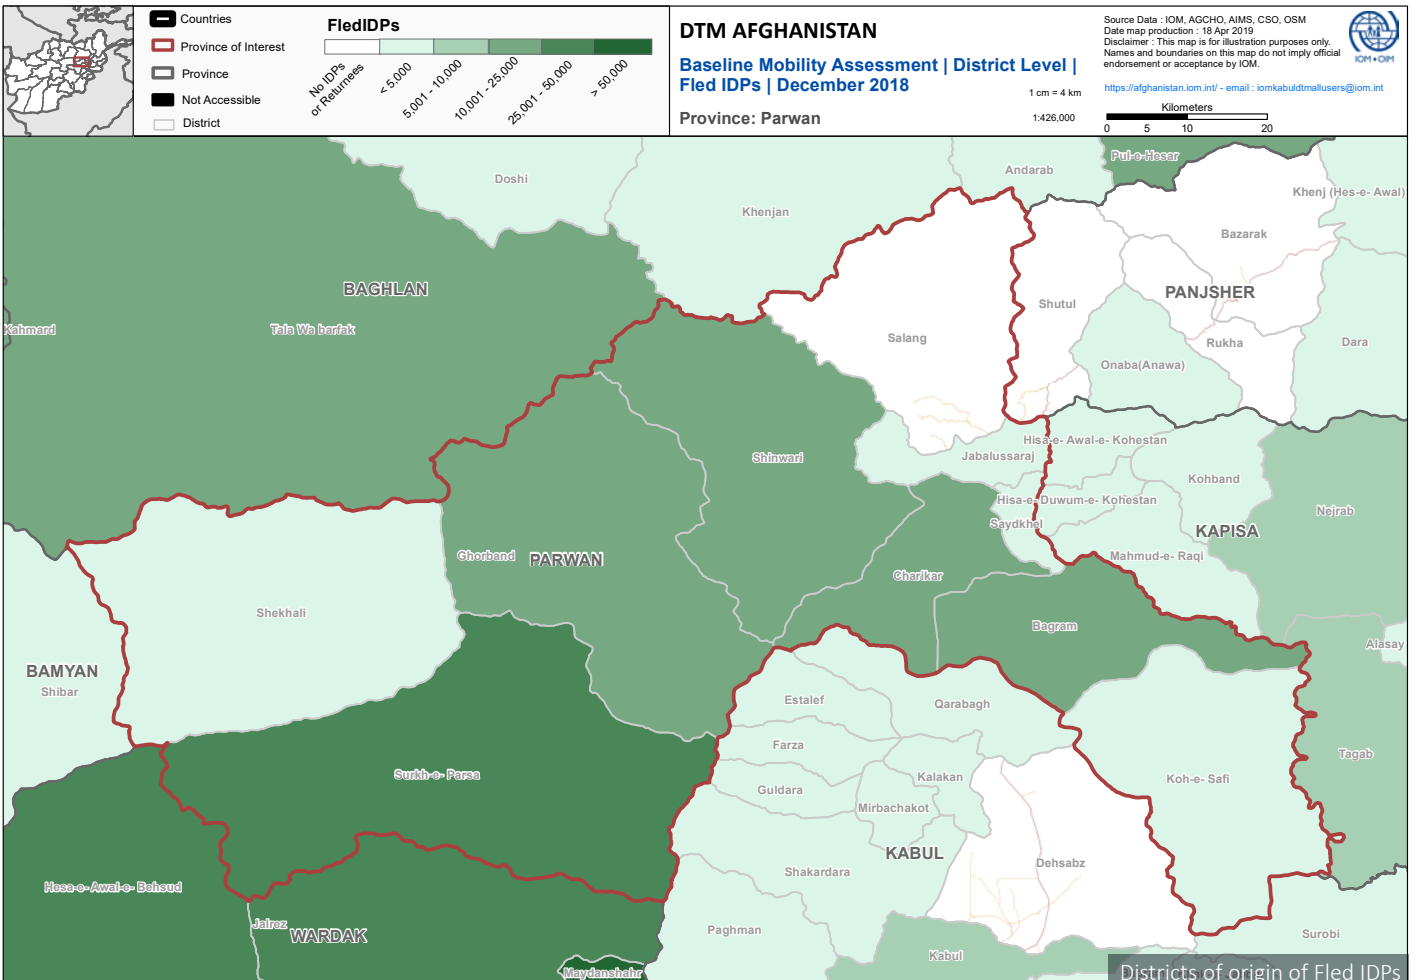

**84%**  
displaced due to conflict

**16%**  
displaced by natural disaster

Fled IDPs by District | Parwan

Fled IDPs | Annual Trends | Parwan

# RETURNED IDPS

Returned IDPs are Afghans who have returned to their home place of origin in the assessed location or settlement from which they had fled as IDPs in the past, as a result of, or in order to avoid, the effects of armed conflict, generalized violence, human rights violations, protection concerns, or natural and human-made disasters.

**53,571**  
Returned IDPs

**55%**  
Returned IDPs returned from other locations within Parwan

**5 in 6**  
former IDPs returned to just 2 districts: Ghorband and Bagram (90%)

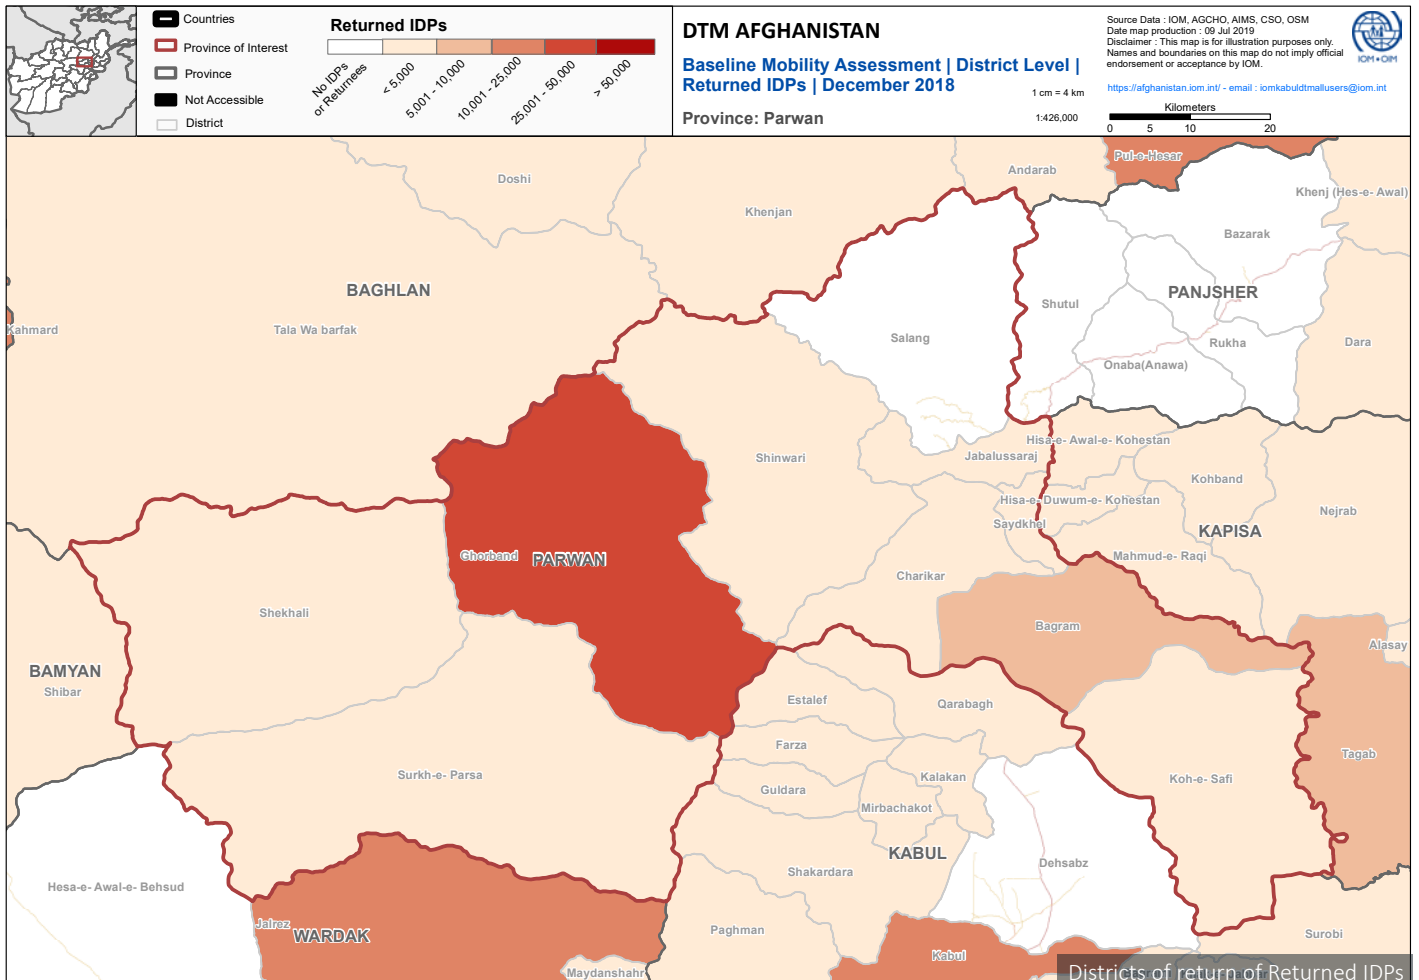

**3 in 4**  
73% of all returned IDPs in Parwan returned to Ghorband district

Returned IDPs by District | Parwan

Returned IDPs | Annual Trends | Parwan

## OUT-MIGRANTS

Out-Migrants are Afghans who have moved or fled abroad from the assessed location, whatever the cause, reason or duration of expatriation. This category includes refugees, displaced and uprooted people, and economic migrants who have left Afghanistan.

**58,372**  
fled abroad

**4,424**  
fled to Europe (8%)

**42,778**  
fled to Iran (73%)

**10,365**  
fled to Pakistan (18%)

## SECTORAL NEEDS

### TOP 5 DISTRICTS

Evidence-based prioritization is essential to the delivery of better targeted assistance and basic services. DTM provides partners with lists of priority areas in most need of assistance, based on a variety of sectoral indicators, at Province, District and Settlement levels.

(NOTE: The number of individuals reported below is based on the Total Inflow: IDPs + Returnees)

#### TOP 5 Districts with the most Returnees and IDPs (Returnees + IDPs)

Rank	District	Individuals
1	Bagram	30,159
2	Koh-e- Safi	15,705
3	Charikar	11,596
4	Shinwari	8,469
5	Surkh-e- Parsa	5,190
<b>Grand Total</b>		<b>71,119</b>

#### TOP 5 in need of Shelter (IDPs + Returnees living in Tents or in the Open Air)

Rank	District	Individuals
1	Bagram	2,724
2	Charikar	233
3	Koh-e- Safi	17
4	NA	NA
5	NA	NA
<b>Grand Total</b>		<b>2,973</b>

#### TOP 5 in need of Water (potable water > 3 km away)

Rank	District	Individuals
1	Koh-e- Safi	8,442
2	Ghorband	1,465
3	Bagram	1,173
4	Charikar	1,150
5	Jabalussaraj	883
<b>Grand Total</b>		<b>13,113</b>

#### TOP 5 in need of Clinics (nearest clinic > 5 km away)

Rank	District	Individuals
1	Bagram	6,330
2	Koh-e- Safi	4,298
3	Shinwari	3,244
4	Surkh-e- Parsa	2,363
5	Ghorband	1,469
<b>Grand Total</b>		<b>17,704</b>

#### TOP 5 in need of Schools (nearest school > 3 km away)

Rank	District	Individuals
1	Shinwari	3,539
2	Bagram	3,039
3	Koh-e- Safi	1,536
4	Surkh-e- Parsa	991
5	Jabalussaraj	298
<b>Grand Total</b>		<b>9,403</b>

#### TOP 5 in need of Markets (nearest market > 10 km away)

Rank	District	Individuals
1	Koh-e- Safi	14,515
2	Bagram	7,504
3	Shinwari	4,366
4	Charikar	2,373
5	Ghorband	918
<b>Grand Total</b>		<b>29,676</b>

Total Inflow (Returnees+IDPs) | Shelter | Parwan

## STORIES FROM THE DISPLACED

### A Family Fleeing the Insurgents' Grip

45-year-old Mohammad Noor is originally from Nuristan province, where he lived with his wife and two children, one of whom has a disability.

In 2017, insurgent groups started threatening him multiple times asking for money, his daughter, and property. He rejected their demands, however, over and over. One day, the insurgents attacked his home, forcing Mohammad Noor and his family to flee with nothing but the clothes they were wearing.

On their way to Parwan province by car, they faced another unit belonging to the same insurgent group that had forced them to flee their village. The insurgents recognized him and his family, thus Mohammad asked their driver to accelerate and speed past the checkpoint. The insurgents fired at the car, injuring him and his daughter.

They are now displaced, living in Sayedkhel district in Parwan province. Since 2012, Parwan province has hosted 17,312 arrival IDPs, including Mohammad Noor and his family. The people in the village gave them a place to live, a house which belonged to someone who is currently living abroad. He lives with disabilities as a result of the attack, and the family has no other choice but to rely on their neighbours for food.

*\*Please note that the names have changed and village locations have been kept anonymous to protect the identity of the interviewee.*

Following the checkpoint incident, Mohammad Noor was left disabled and unable to support his family. Now, the family relies on their neighbours' charity for survival. © IOM 2018
