

**560**  
Individuals  
arriving at different locations within the reporting period (14 - 20 Sept. 2023)

**112**  
Households

Trigger:  
Fear of Attacks

Means of transportation:  
Walking

Fear of attacks and confirmed attacks in Magaia and Xitaxi villages (Chitunda Posto), between 17 and 19 September by Non-State Armed Groups, triggered the movements of 560 individuals. All recorded families have arrived in Muidumbe sede. New arrivals recorded within the reporting period map 225 individuals predominantly moving into displacement sites across Muidumbe district.

IOM teams observed an average of 280 individuals arriving at different locations within the reporting period (17-21 September, please see below charts for further information). Movements in the region remain dynamic between host communities.

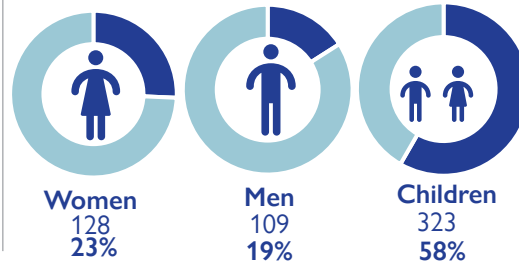

The objective of the Emergency Tracking Tool (ETT) - Movement Alert is to collect information on large and sudden population movements, and to provide support to humanitarian response partners by disseminating data on IDPs to support effective humanitarian response to the affected population. Information is collected through key informant interviews or direct observation. The dashboard provides basic information on displacements, and additional information can be shared upon request.

## URGENT NEEDS

Urgent needs are calculated by weighting the total number of IDP arrivals in each group against the stated priority

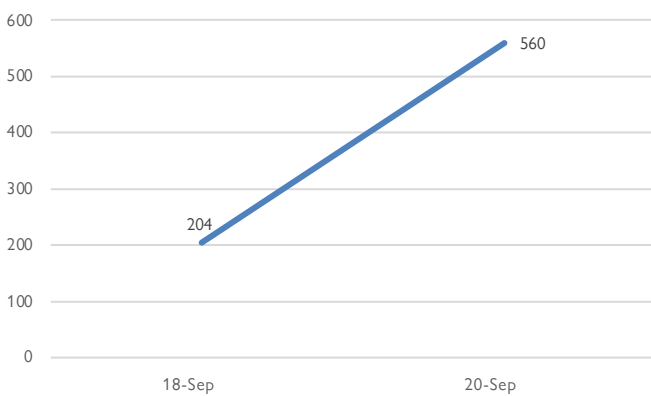

## DEMOGRAPHIC PROFILE

## VULNERABILITIES

No disaggregation available at this point.

## NUMBER OF INDIVIDUALS (18th - 20th September, 2023)

## MOVEMENT FLOWS (DEPARTURES AT LOCALITY LEVEL)
