

The objective of the Emergency Tracking Tool (ETT) - Movement Alert is to collect information on large and sudden population movements, and to provide support to the Government and the humanitarian community by disseminating data on IDPs for ensuring effective humanitarian response to the affected population. Information is collected through key informant interviews or direct observation. The dashboard provides basic information on displacements, and additional information can be shared upon request.

MOVEMENT ALERT

SUMMARY OF THE EVENT

Recent movements of Non-State Armed Groups (NSAGs) have been reported in Mueda district. As of 23 March, observed presence of NSAGs in Mocimboa do rovuma and Naida areas triggered four large IDP arrival movements recorded in Namaua, Natsenge and Ngapa. An estimated 634 individuals have arrived in host communities and displacement sites of Imbuo and N'gapa posto. From the total individuals reported 33 have been identified with vulnerabilities: 24 elderly individuals and 9 pregnant women.
