DTM Emergency Tracking Tool (ETT) is deployed to track and provide up-to-date

During the reporting period ( 07 to 13 July 2021), a total of 187 movements were recorded - 179 arrivals ( 6,047 individuals), 5 departures ( 102 individuals), and 3 transits ( 140 individuals). The largest arrivals were recorded in Montepuez ( 1,298 individuals), Mueda ( 1,177 individuals), Cidade de Pemba ( 1,125 individuals), Nangade ( 1,025 individuals), Metuge ( 392 individuals), Balama ( 371 individuals), Ibo ( 262 individuals) and Namuno ( 151 individuals). Five departures were recorded in Chiure, Ibo, Metuge and Nangade ( 102 individuals). Three transits were recorded in Montepuez and Namuno ( 140 individuals). 2,601 of the total number of individuals originated from Palma district. Half of the population ( $50 \%$ ) were displaced for the first time, while $50 \%$ had been displaced prior to this latest movement.

## ABOUT THE EMERGENCY TRACKING TOOL (ETT)

Due to the volume and fluidity of population movements in Cabo Delgado, IOM's Displacement Tracking Matrix (DTM) rolled out its Emergency Tracking Tool (ETT) methodology in key areas presenting rapid and important movements of populations, in order to ensure the tracking of population on the move and to identify areas of displacement and settlements, and support the identification of critical needs. Mapping displacement trends on a weekly basis complements the information obtained through other activities of the DTM data collection in the country.

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements. Findings from the Emergency Tracking tool aim to provide support to the Government and the humanitarian community by disseminating data on IDPs for effective humanitarian response planning amongst affected populations.

Emergency tracking teams and enumerators are deployed to Ancuabe, Namuno, Balama, Chiure, Ibo, Mueda, Nangade, Montepuez, Mecufi, and Cidade de Pemba districts to collect data on displacement movements on a daily basis. Due to recent attacks, the DTM team has temporarily stopped assessments in Macomia, Muidumbe, Palma and Mocimboa da Praia districts.

## VULNERABILITIES BY LOCALITY

| District | Total Individuals | Unaccompanied/Separated Children | Pregnant Women | Ederly | Person with disability | District | Total Individuals | Unaccompanied/Separated Children | Pregnant Women | Ederly | Person with disability |
