# DISPLACEMENT TRACKING MATRIX (DTM) AFAR, ETHIOPIA ROUND 13: SEPTEMBER/OCTOBER 2018

## OVERVIEW OF DISPLACEMENT AFAR REGION DTM Round 13 FROM SEPTEMBER 1 - 30, 2018

**Sites by causes of displacement**

- Conflict (Red star symbol)
- Climate induced (Purple house symbol)
- Others (Green circle symbol)

**IDPs in assessed woredas**

Lightest orange	148 - 1,000
Light orange	1,001 - 2,500
Orange	2,501 - 5,000
Dark orange	5,001 - 6,080
Yellow	No IDPS
Grey	Not assessed

**Boundaries**

- International Boundary (Dashed line)
- Regional Boundary (Solid line)
- Zonal Boundary (Thin solid line)
- Woreda Boundary (Thin solid line)

Scale: 0 to 120 Kilometers

## ROUND 13: SEPTEMBER - OCTOBER 2018

### AFAR REGION - KEY FINDINGS

**LOCATION AND CAUSE OF DISPLACEMENT:** 48,337 displaced individuals comprising 8,816 households in 54 displacement sites were identified in AFAR region. These figures represent a decrease of 5,243 in the total individuals (-9.79%) a decrease of 98 households (-1.10%) and no increase in sites since round 12 July/August 2018. 20.37% sites opened in 2017 and 1.85% opened in 2018. Climate factors were the primary cause of displacement for an estimated 33.92% of the displaced population.

**DEMOGRAPHICS:** 48.91% of displaced individuals were female and 51.09% were male. 56.67% were younger than 18 years old. 6.52% were over 60 years old.

**SHELTER:** 21 sites reported that over 25% of households were living in shelters that were below regional and cultural standards.

**WASH:** Only 2 sites meet SPHERE standards of access to over 15 liters of water per person per day. 42 (77.78%) displacement sites reported having no latrines.

**FOOD, NUTRITION AND LIVELIHOODS:** 3 (5.56%) sites, representing 2,428 individuals, reported no access to food. 87.04% of sites reported that IDPs did not have access to income generating activities

**HEALTH:** Malaria was the primary health concern in this round of data collection with 18 sites reporting this.

**EDUCATION:** In 3.70% of sites 50% or less of the children on site are attending formal primary school. Formal primary school education is available at 90.74% sites. Alternative basic education (ABE) is available at 2 sites.

**COMMUNICATION:** 57.41% of sites reported that Families/Friends were IDPs primary source of information followed by Site Management at 22.22% of sites.

Figure 1 illustrates trends in stock totals of displacement in the region over time compared to recent displacement. Figure 2 shows IDP numbers disaggregated by cause over time.

Figure 1: Trends in stock totals of displacement and new displacements from 2017 and 2018

Figure 2: IDPs by cause of displacement by round

## DISPLACEMENT TRACKING MATRIX (DTM) AFAR REGION ETHIOPIA ROUND 13: SEPTEMBER - OCTOBER 2018

### MOBILITY TRENDS AND CAUSE OF DISPLACEMENT

Climate factors have consistently been reported as the primary cause of displacement in the region (as indicated by figure 4). IDPs displaced in 2018, in 2017 and before 2017 reported being displaced by climate factors. None of the IDP population reported being displaced previously. IDPs from no sites were leaving the current place of displacement.

Regarding the duration of sites: 1.85% of all sites identified opened in 2018 while 20.37% opened between January and December 2017 and 77.78% of sites opened before 2017.

The majority of IDPs identified in the region were displaced to locations near their areas of origin. 96.19% of IDPs in the region are internally displaced from the region, within the region. Of the IDPs displaced within the region, 95.15% were displaced within their zone of origin.

Figure 3 shows the number of IDPs displaced by zone and cause of displacement. Figure 4 shows the distribution of IDPs by driver of displacement and time of displacement.

Figure 3: IDPs displaced by zone and cause of displacement

Duration	Conflict Induced	Climate Induced	Other	Grand Total
Before 2017	2,061	35,931	2,070	40,062
During 2017	1,680	3,032	3,026	7,738
In 2018	-	537	-	537
Grand Total	3,741	39,500	5,096	48,337

Figure 4: Distribution of IDPs by cause of displacement and time of displacement

# DISPLACEMENT TRACKING MATRIX (DTM) AFAR REGION ETHIOPIA

## ROUND 13: SEPTEMBER - OCTOBER 2018

### DURABLE SOLUTIONS, VULNERABILITIES AND DEMOGRAPHICS

IDPs did not foresee a resolution to their displacement.

At 98.15% of sites IDPs prefer reintegration as a durable solution to their displacement while at 1.85% of sites reported that IDPs prefer relocation.

Figure 5 shows the percentage of sites reporting various obstacles to returns, while figure 6 shows support IDPs need to return or reintegrate.

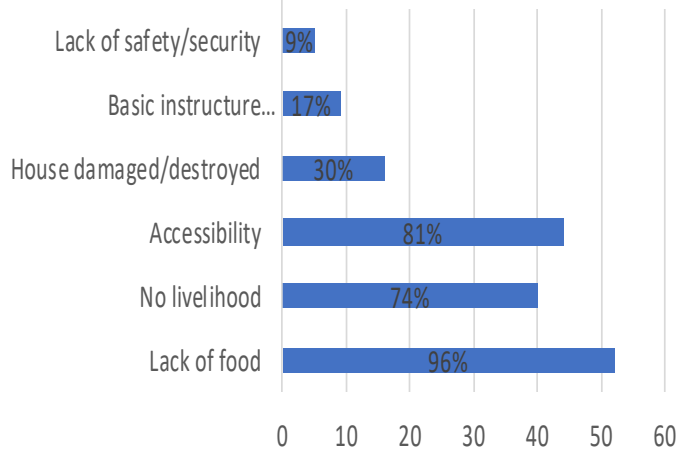

Figure 5: % Sites reporting obstacles to return

The demographic breakdown is shown in figure 7. Individuals with specific vulnerabilities were also reported at displacement sites and are represented in figure 8.

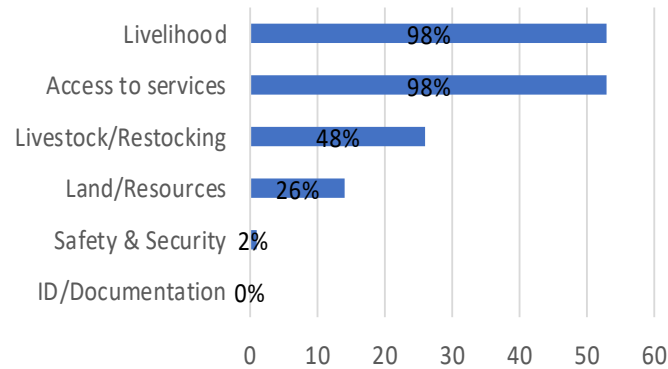

Figure 6: % Sites by support needed to return or reintegrate

Figure 7: Demographic breakdown

Vulnerabilities	Individuals
Breastfeeding Mothers #	962
Elderly headed Households	246
Elderly Persons without care givers	48
Members of ethnic minorities #	0
Members of religious minorities #	0
Orphaned Children	110
Persons w/ Chronic Diseases/ Serious Medical Conditions	52
Persons w/ Disabilities # over 18	80
Persons w/ Disabilities # under 18	53
Pregnant girls # under 18	0
Pregnant Women # over 18	682
Separated Children	144
Single-female headed Households	134
Single-male headed Households	87
Unaccompanied Children	13
Single-child headed Households	0
<b>Grand Total</b>	<b>2,611</b>

## DISPLACEMENT TRACKING MATRIX (DTM) AFAR REGION ETHIOPIA ROUND 13: SEPTEMBER - OCTOBER 2018

### ABOUT DTM

#### DTM GLOBAL

The Displacement Tracking Matrix (DTM) is a system to track and monitor displacement and population mobility. It is designed to regularly and systematically capture, process and disseminate information to provide a better understanding of the movements and evolving needs of displaced populations, whether on site or en route. More information is available at [www.globaldtm.info](http://www.globaldtm.info).

#### DTM IN ETHIOPIA

In Ethiopia, data is collected at zone, woreda and site level. Since September 2016, thirteen rounds of assessments have been completed. The DTM programme is implemented in close collaboration with the National Disaster Risk Management Commission, regional, zonal and woreda counterparts and DTMs implementing partner, the Danish Refugee Council (DRC).

#### METHODOLOGY

IOM's DTM team composed of enumerators from IOM and DRC were deployed across the country to collect the data. The process involved the following steps:

Zone level: Interviews with key informants from

the Disaster Prevention and Preparedness Office (DPPO), community representatives, and the education and health offices collect information including (among others) estimated caseload of displaced population, identification of woredas within the zone that host displaced populations, reason for displacement, time of arrival of IDPs and location of origin.

Woreda level: Information is collected from key woreda informants and includes (among others) estimated length of stay, number of displaced households and individuals at woreda level, displaced population by type of temporary settlements and approximate locations of identifiable displacement sites. The information is used to plan site assessments.

Site assessments: In-depth IDP site assessments capture detailed information through key informant interviews, direct observation and focus group discussions with male, female, elderly, children and IDP representatives. Data on available services by sector, accessibility constraints, exact type, location and name of the site, place of origin of IDPs, estimated size and type of the site and most common type of shelter are captured. Age and gender disaggregation for the site is extrapolated using a demographic calculator

tool based on the age range and sex of the household members of 20 randomly selected households from the site.

# Annex II - Afar region displacement causes and IDPs in assessed woredas

DTM round thirteen (01/09 - 30/09, 2018)

**Boundaries**

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

**Sites by causes of displacement**

- Conflict
- Climate induced
- Others

**IDPs in assessed woredas**

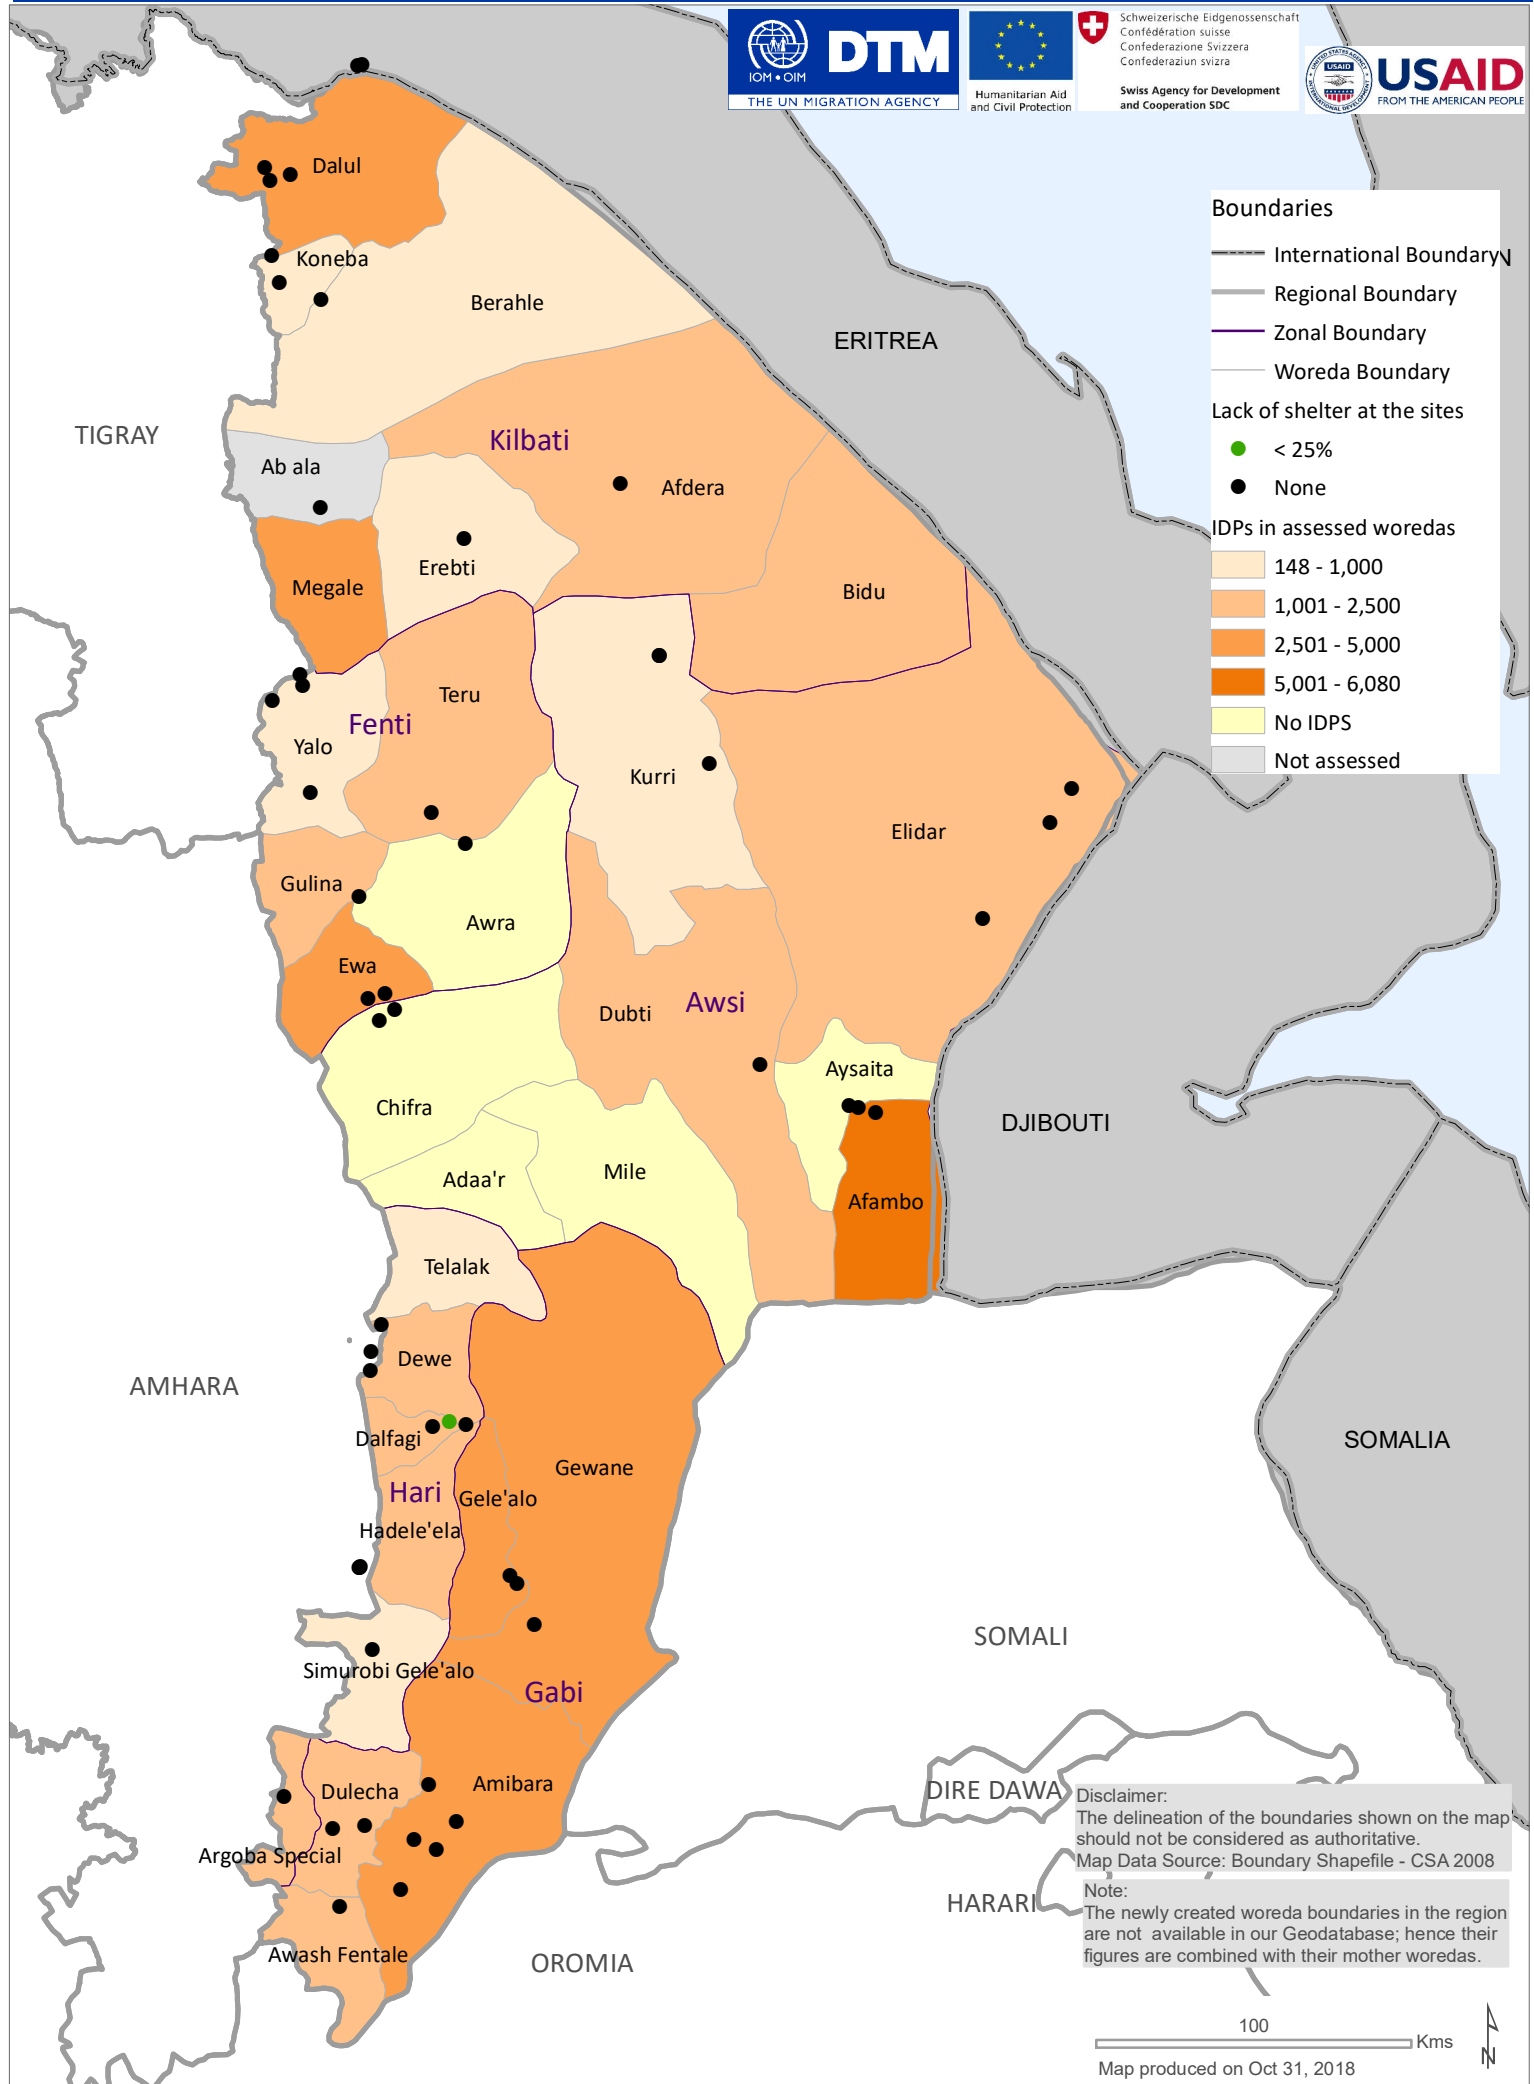

- 148 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 6,080
- No IDPS
- Not assessed

**Disclaimer:**  
The delineation of the boundaries shown on the map should not be considered as authoritative.  
Map Data Source: Boundary Shapefile - CSA 2008

**Note:**  
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

# Annex III - Afar region households reporting lack of shelter at the sites and IDPs in assessed woredas

DTM round thirteen (01/09 - 30/09, 2018)

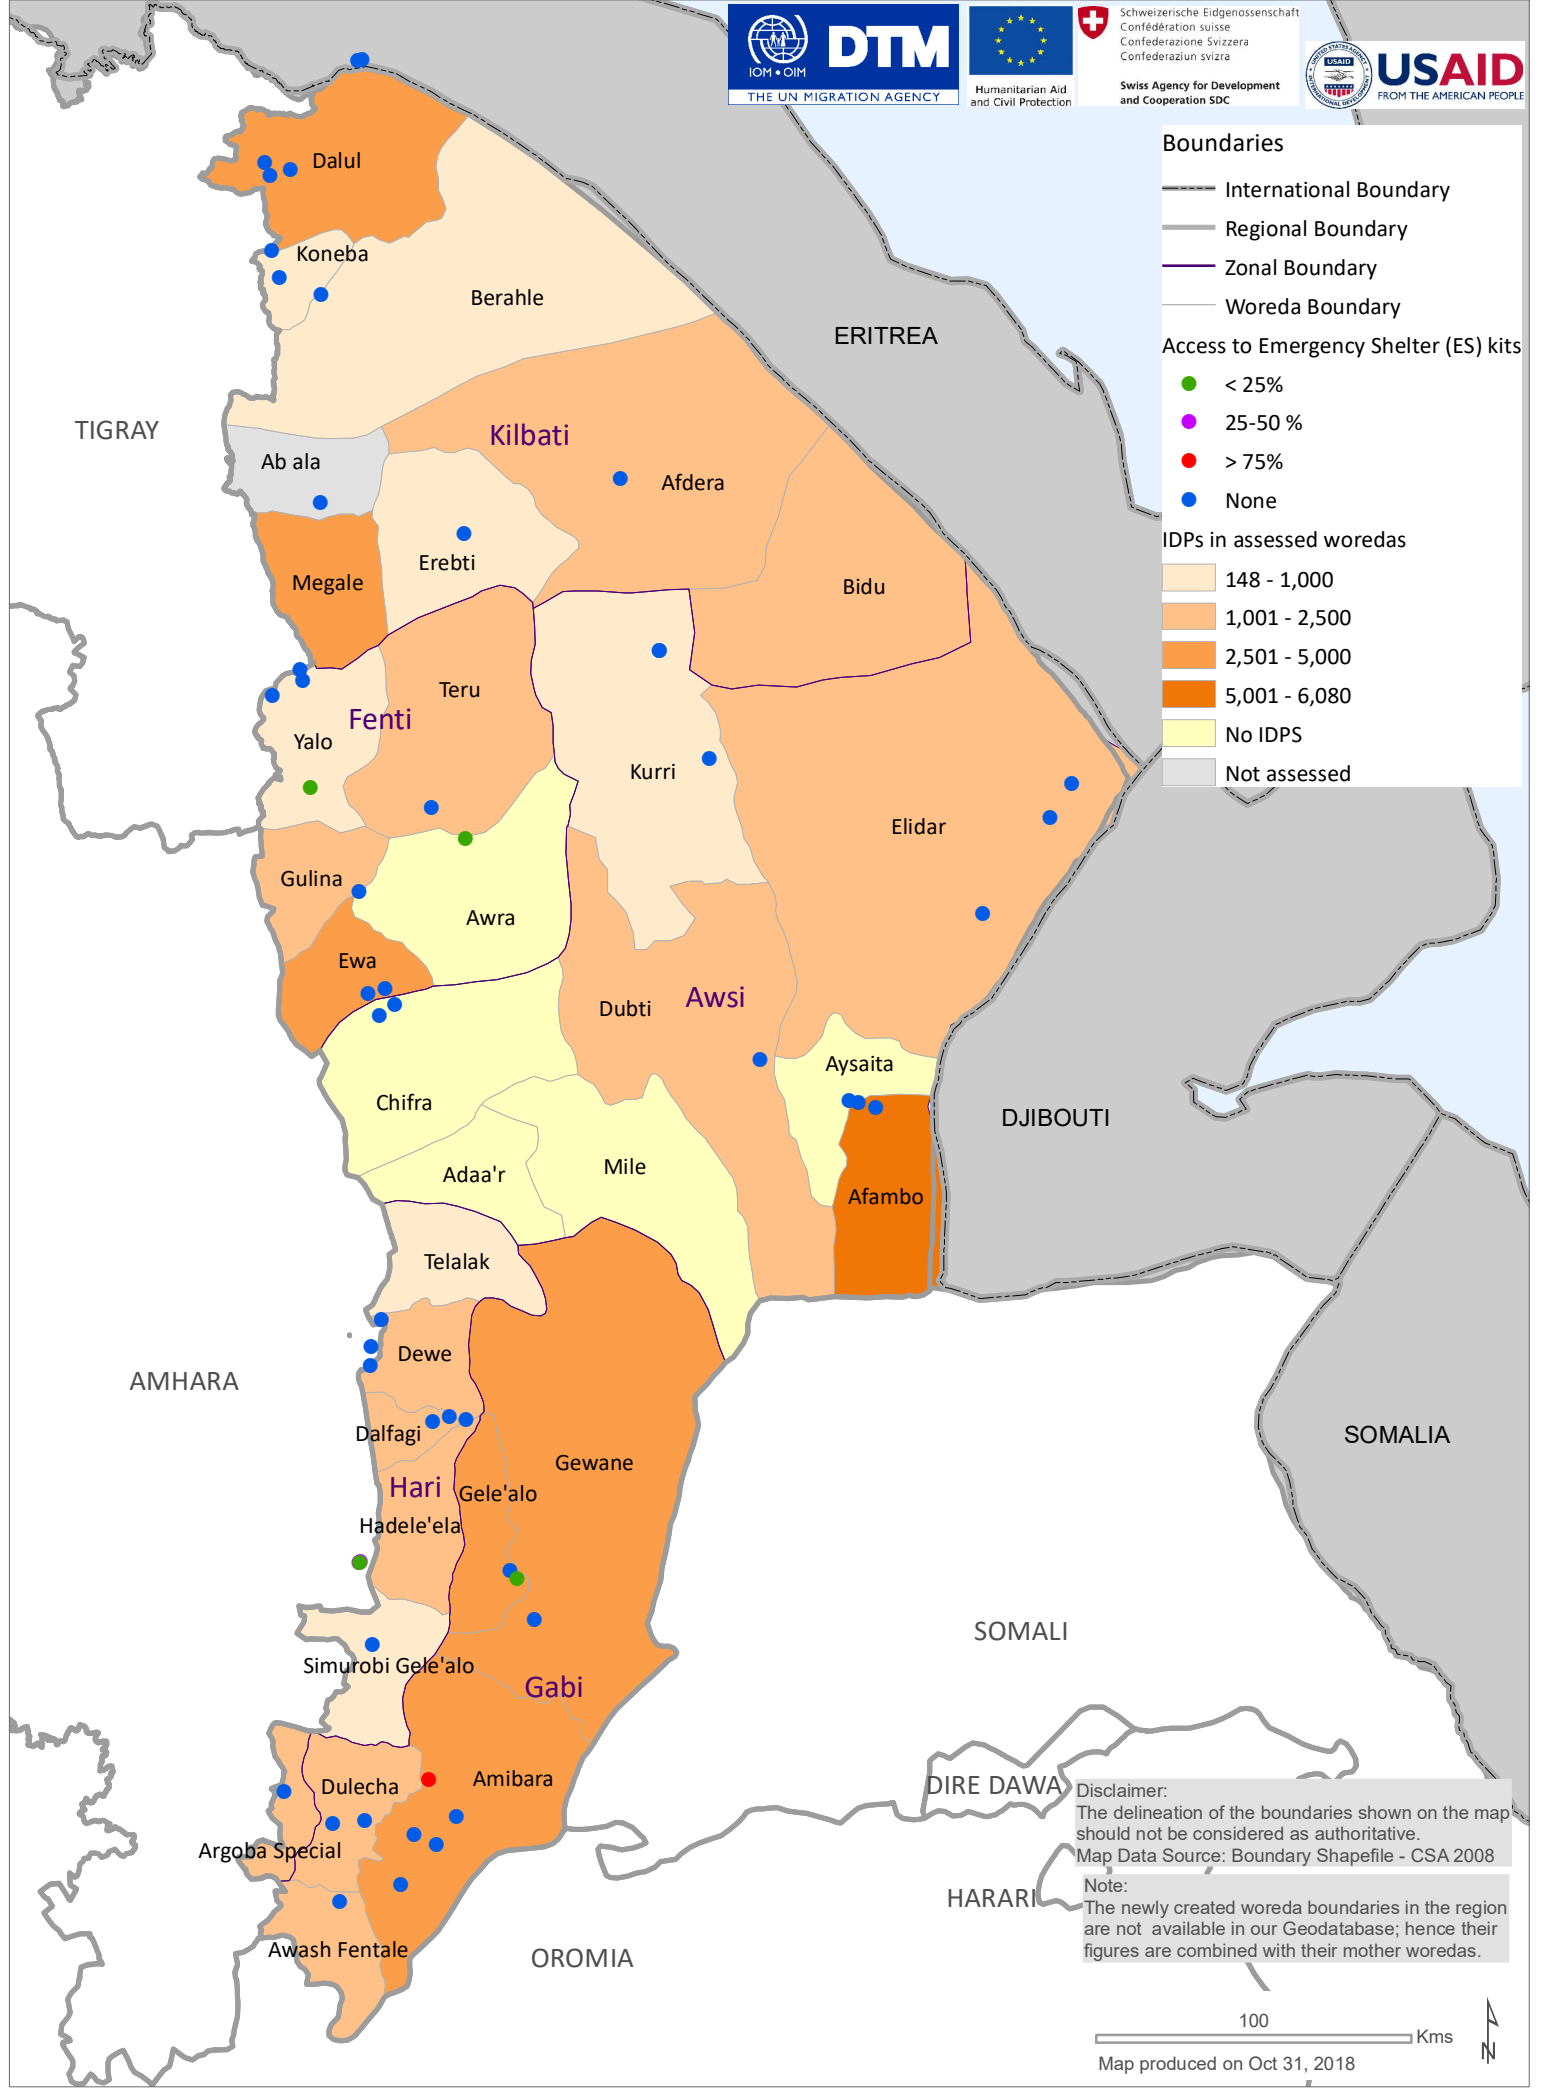

**Disclaimer:**  
The delineation of the boundaries shown on the map should not be considered as authoritative.  
Map Data Source: Boundary Shapefile - CSA 2008

**Note:**  
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

# Annex IV - Afar region households reporting access to ES kits and IDPs in assessed woredas

DTM round thirteen (01/09 - 30/09, 2018)

**Boundaries**

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

**Access to Emergency Shelter (ES) kits**

- < 25%
- 25-50 %
- > 75%
- None

**IDPs in assessed woredas**

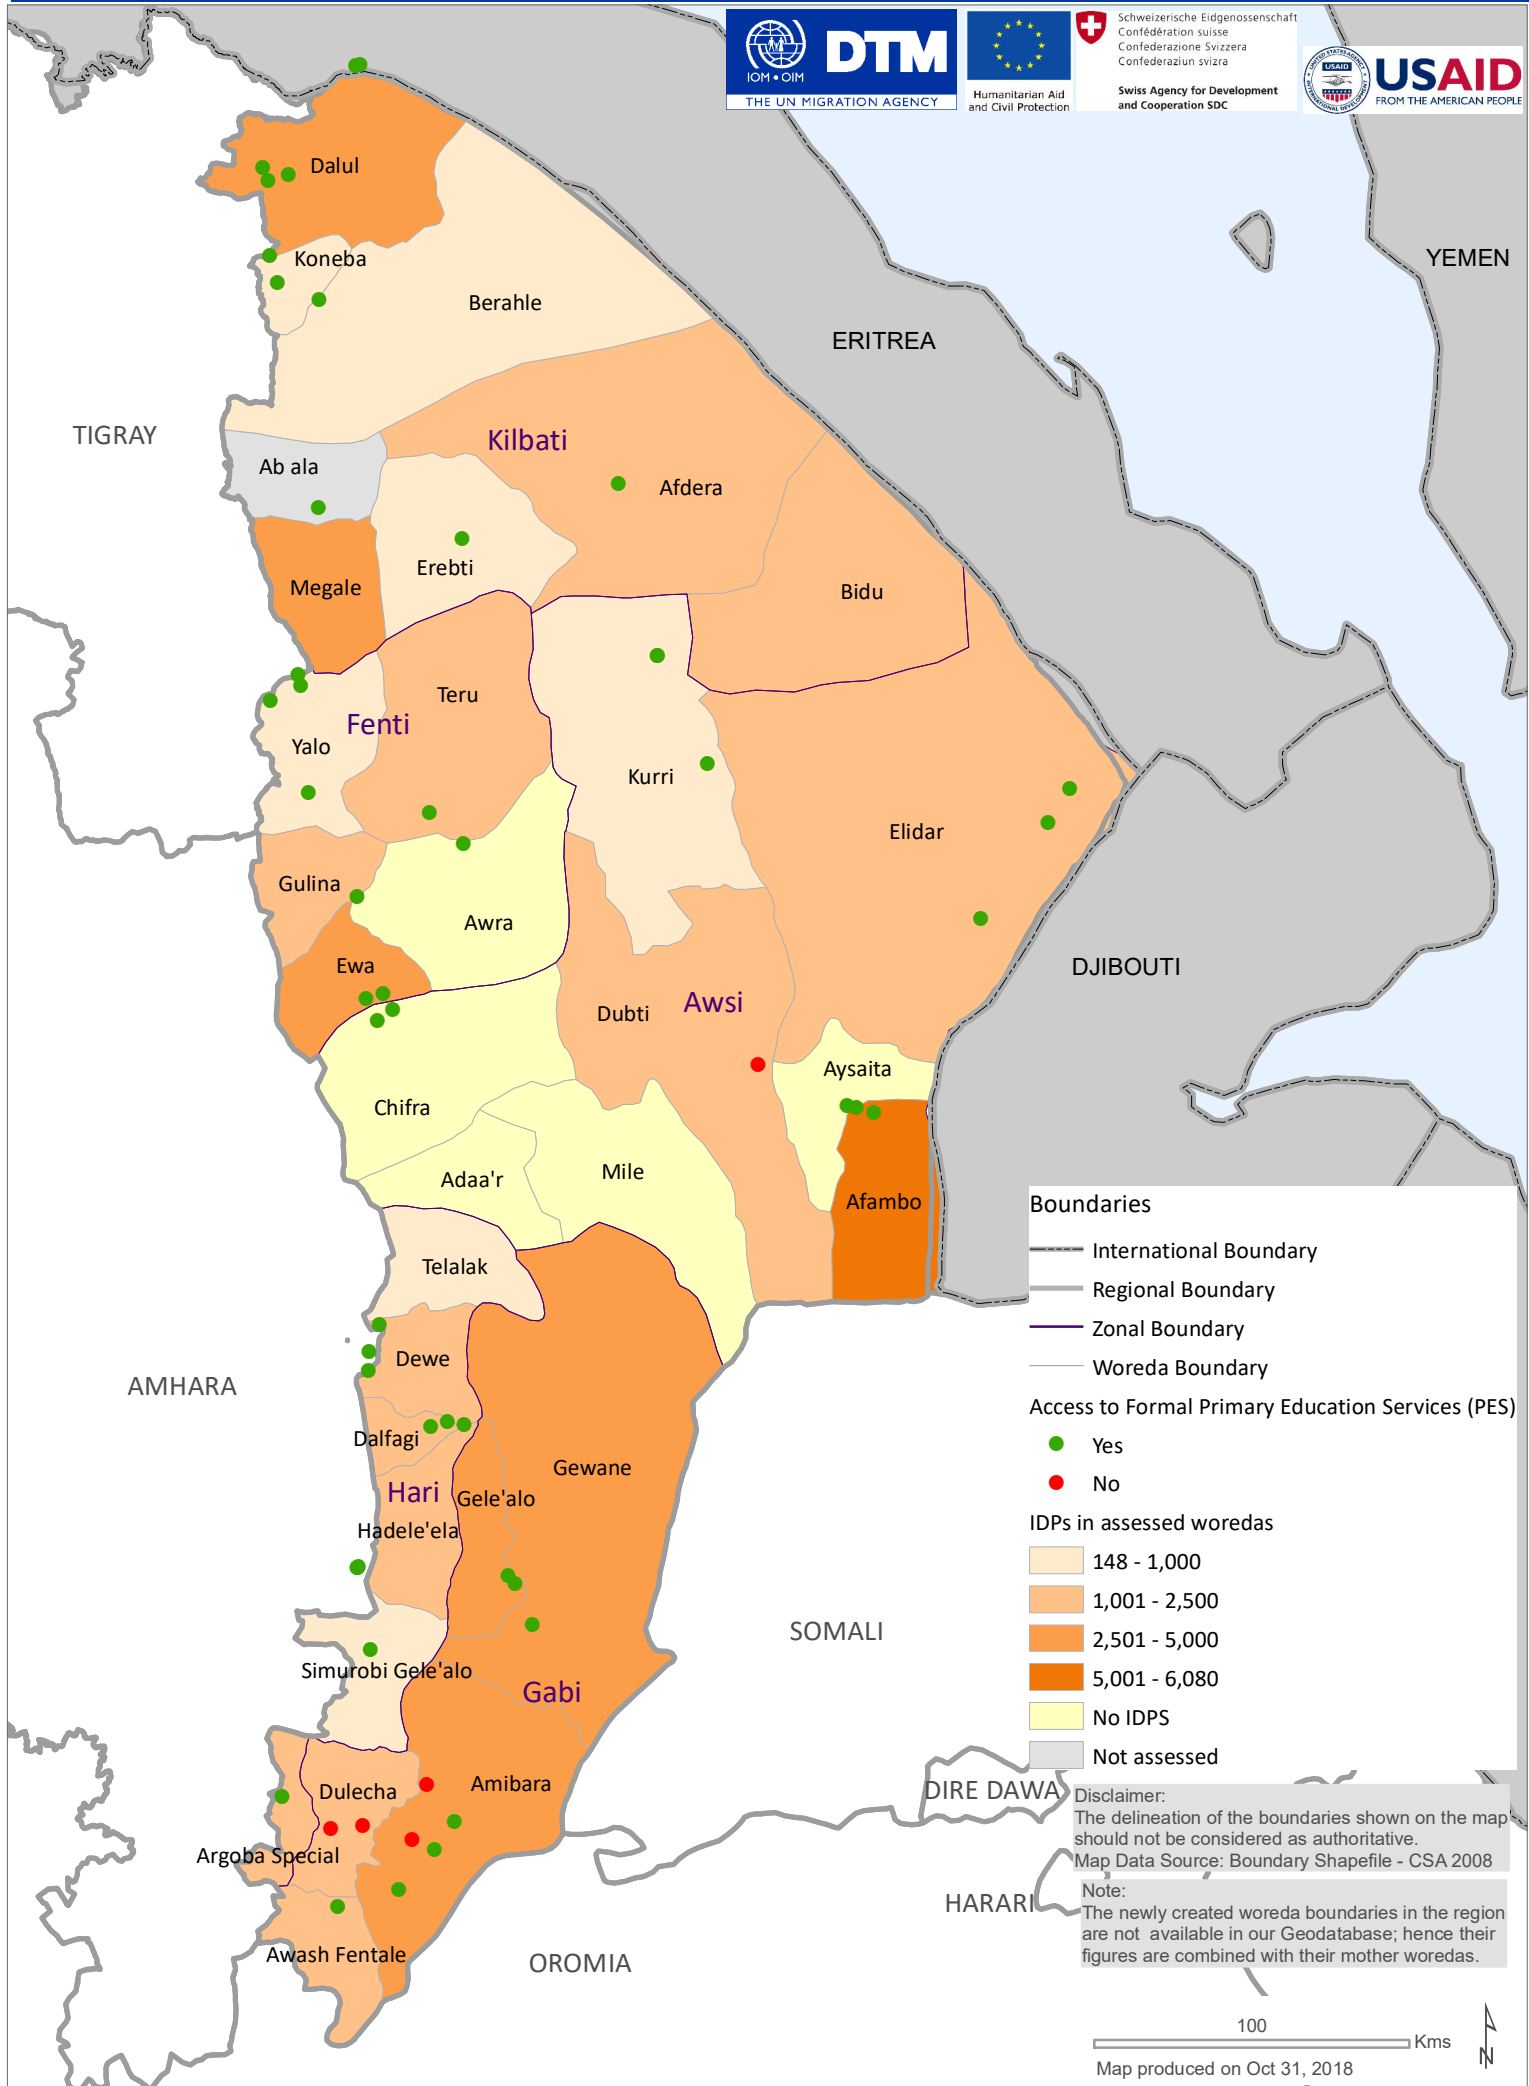

- 148 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 6,080
- No IDPs
- Not assessed

**Disclaimer:**  
The delineation of the boundaries shown on the map should not be considered as authoritative.  
Map Data Source: Boundary Shapefile - CSA 2008

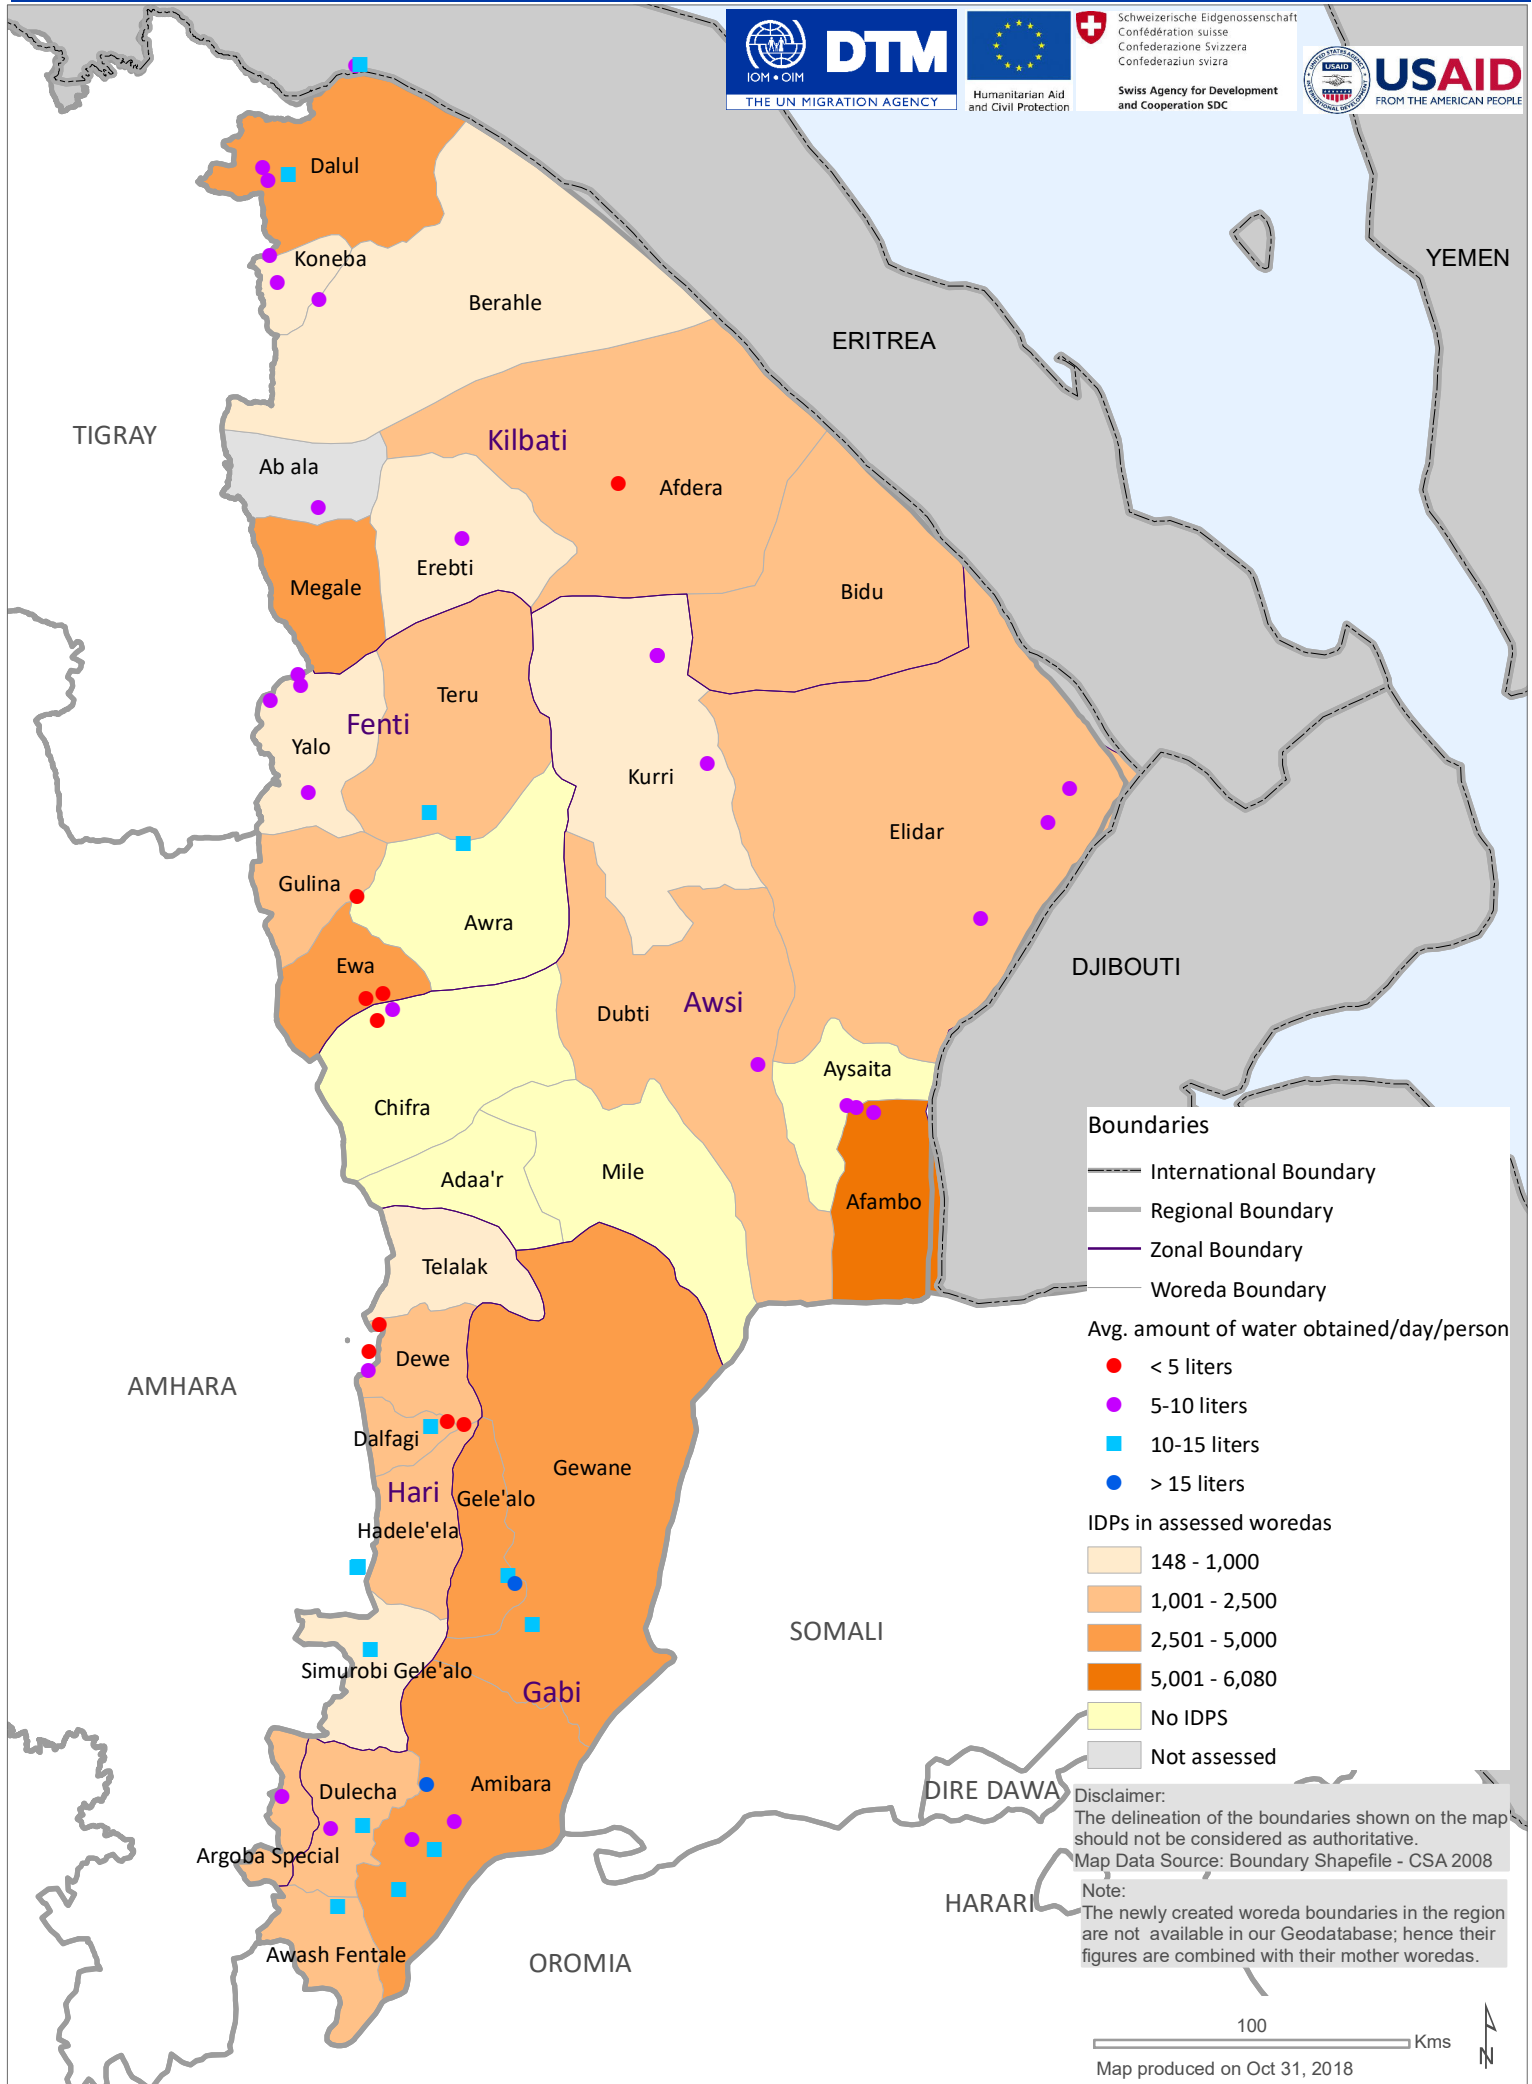

**Note:**  
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

# Annex IX - Afar region sites reporting access to Formal PES and IDPs in assessed woredas

DTM round thirteen (01/09 - 30/09, 2018)

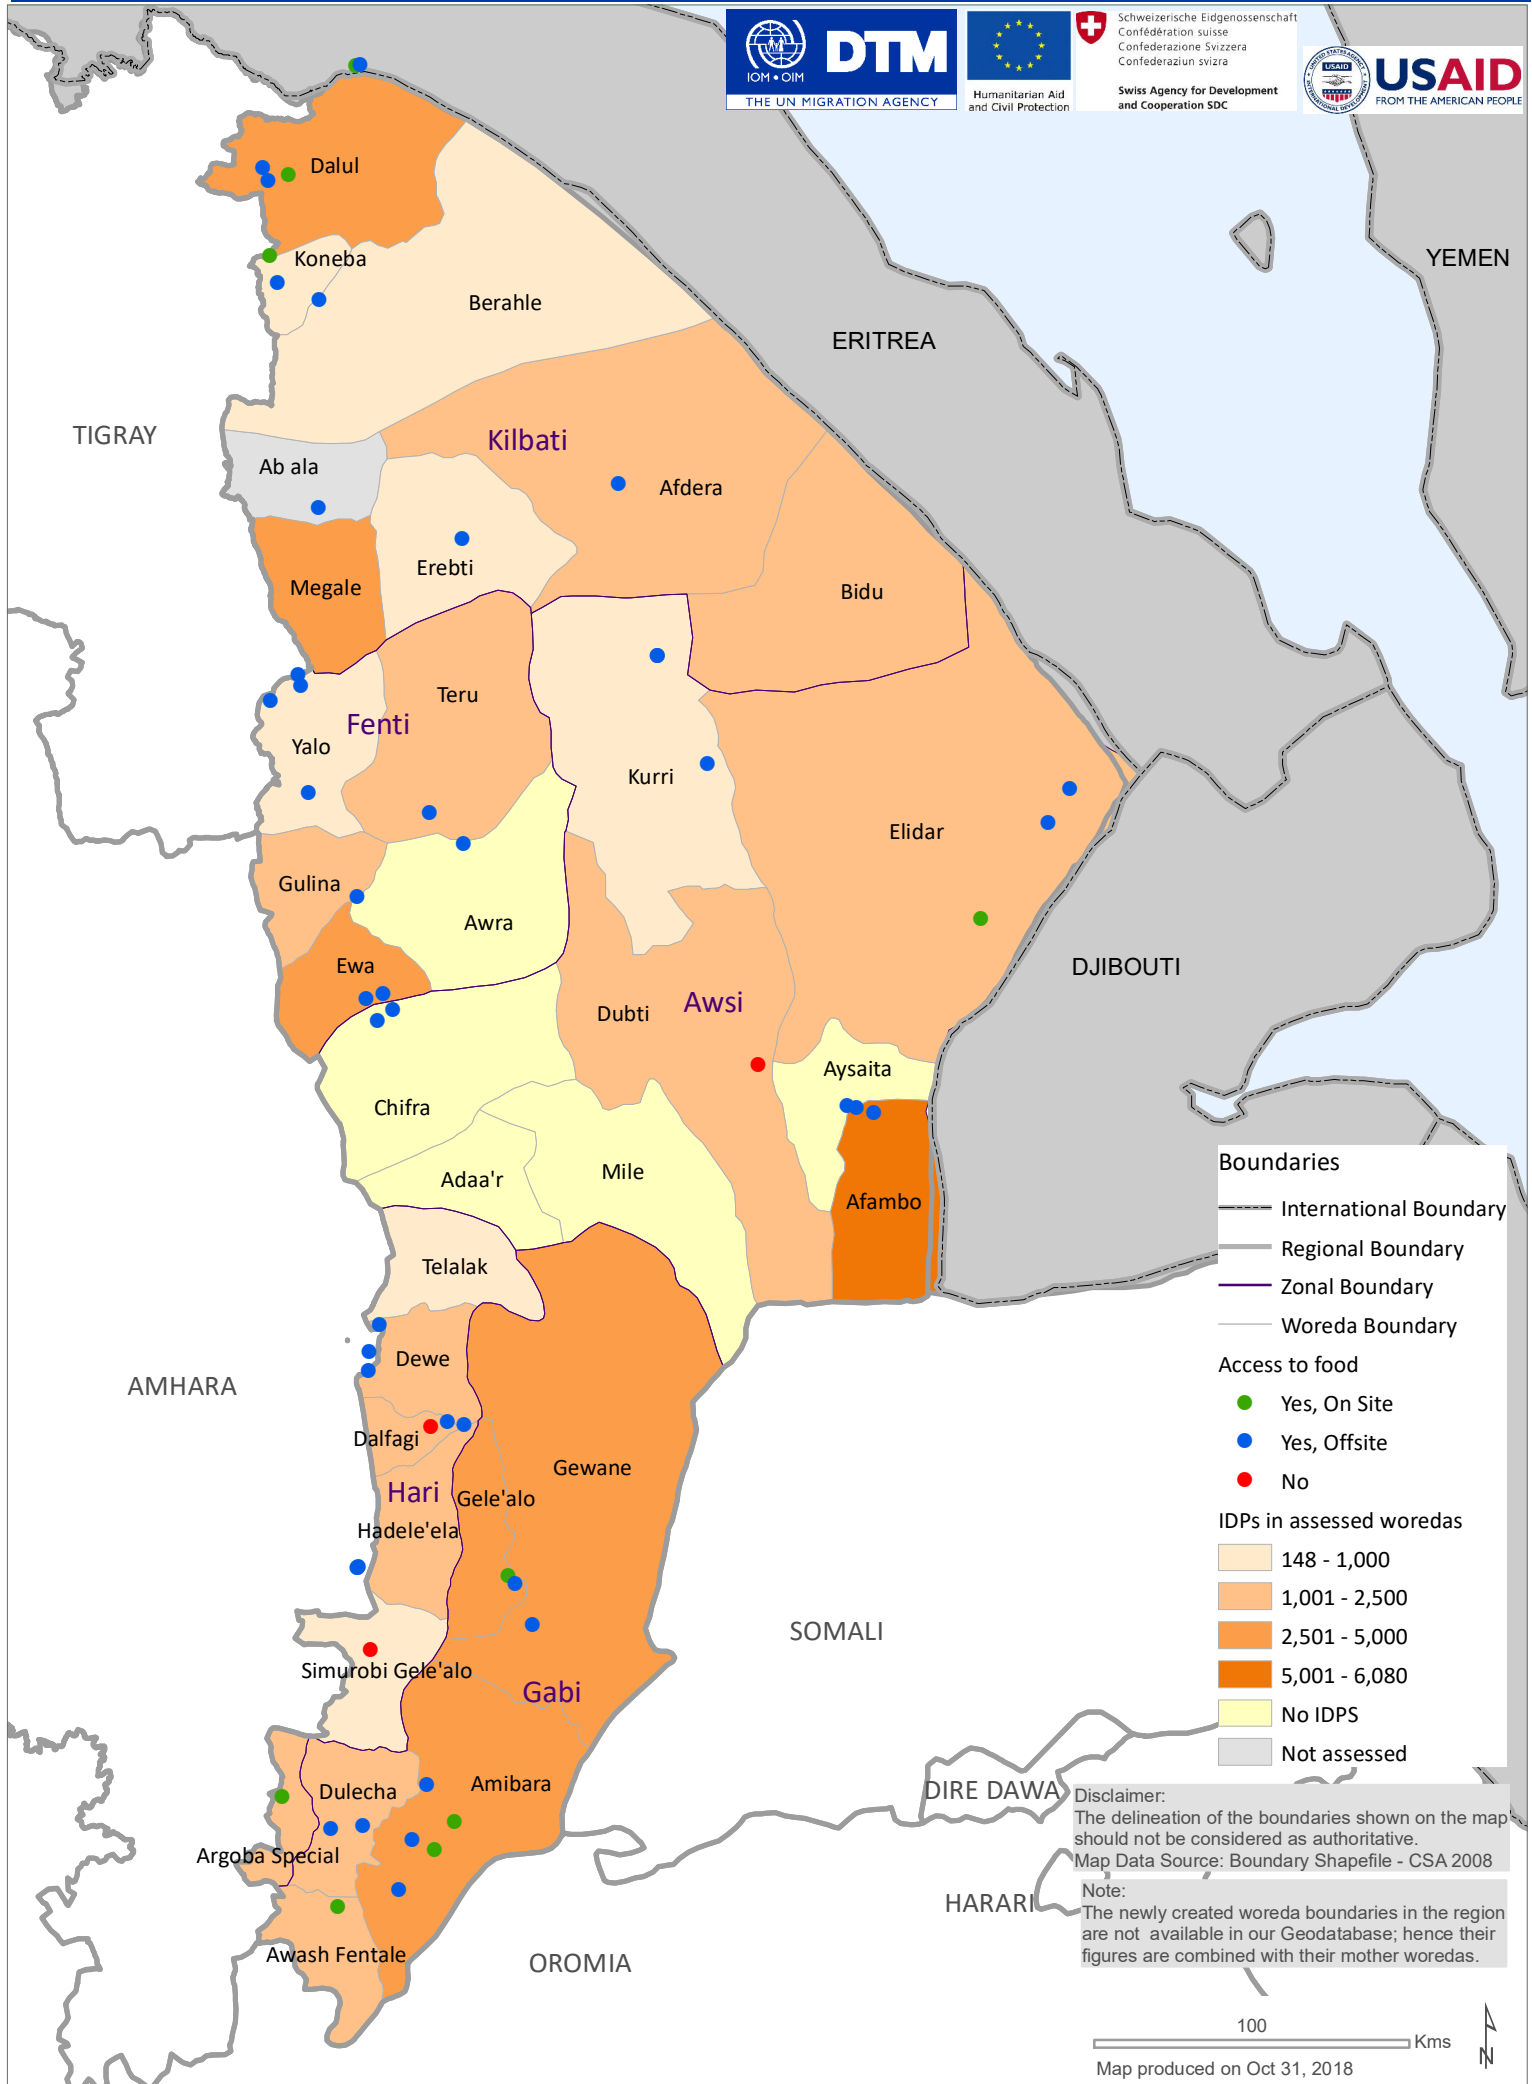

# Annex V - Afar region sites reporting access to water and IDPs in assessed woredas DTM round thirteen (01/09 - 30/09, 2018)

# Annex VI - Afar region sites reporting access to food and IDPs in assessed woredas

DTM round thirteen (01/09 - 30/09, 2018)

**Boundaries**

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

**Access to food**

- Yes, On Site
- Yes, Offsite
- No

**IDPs in assessed woredas**

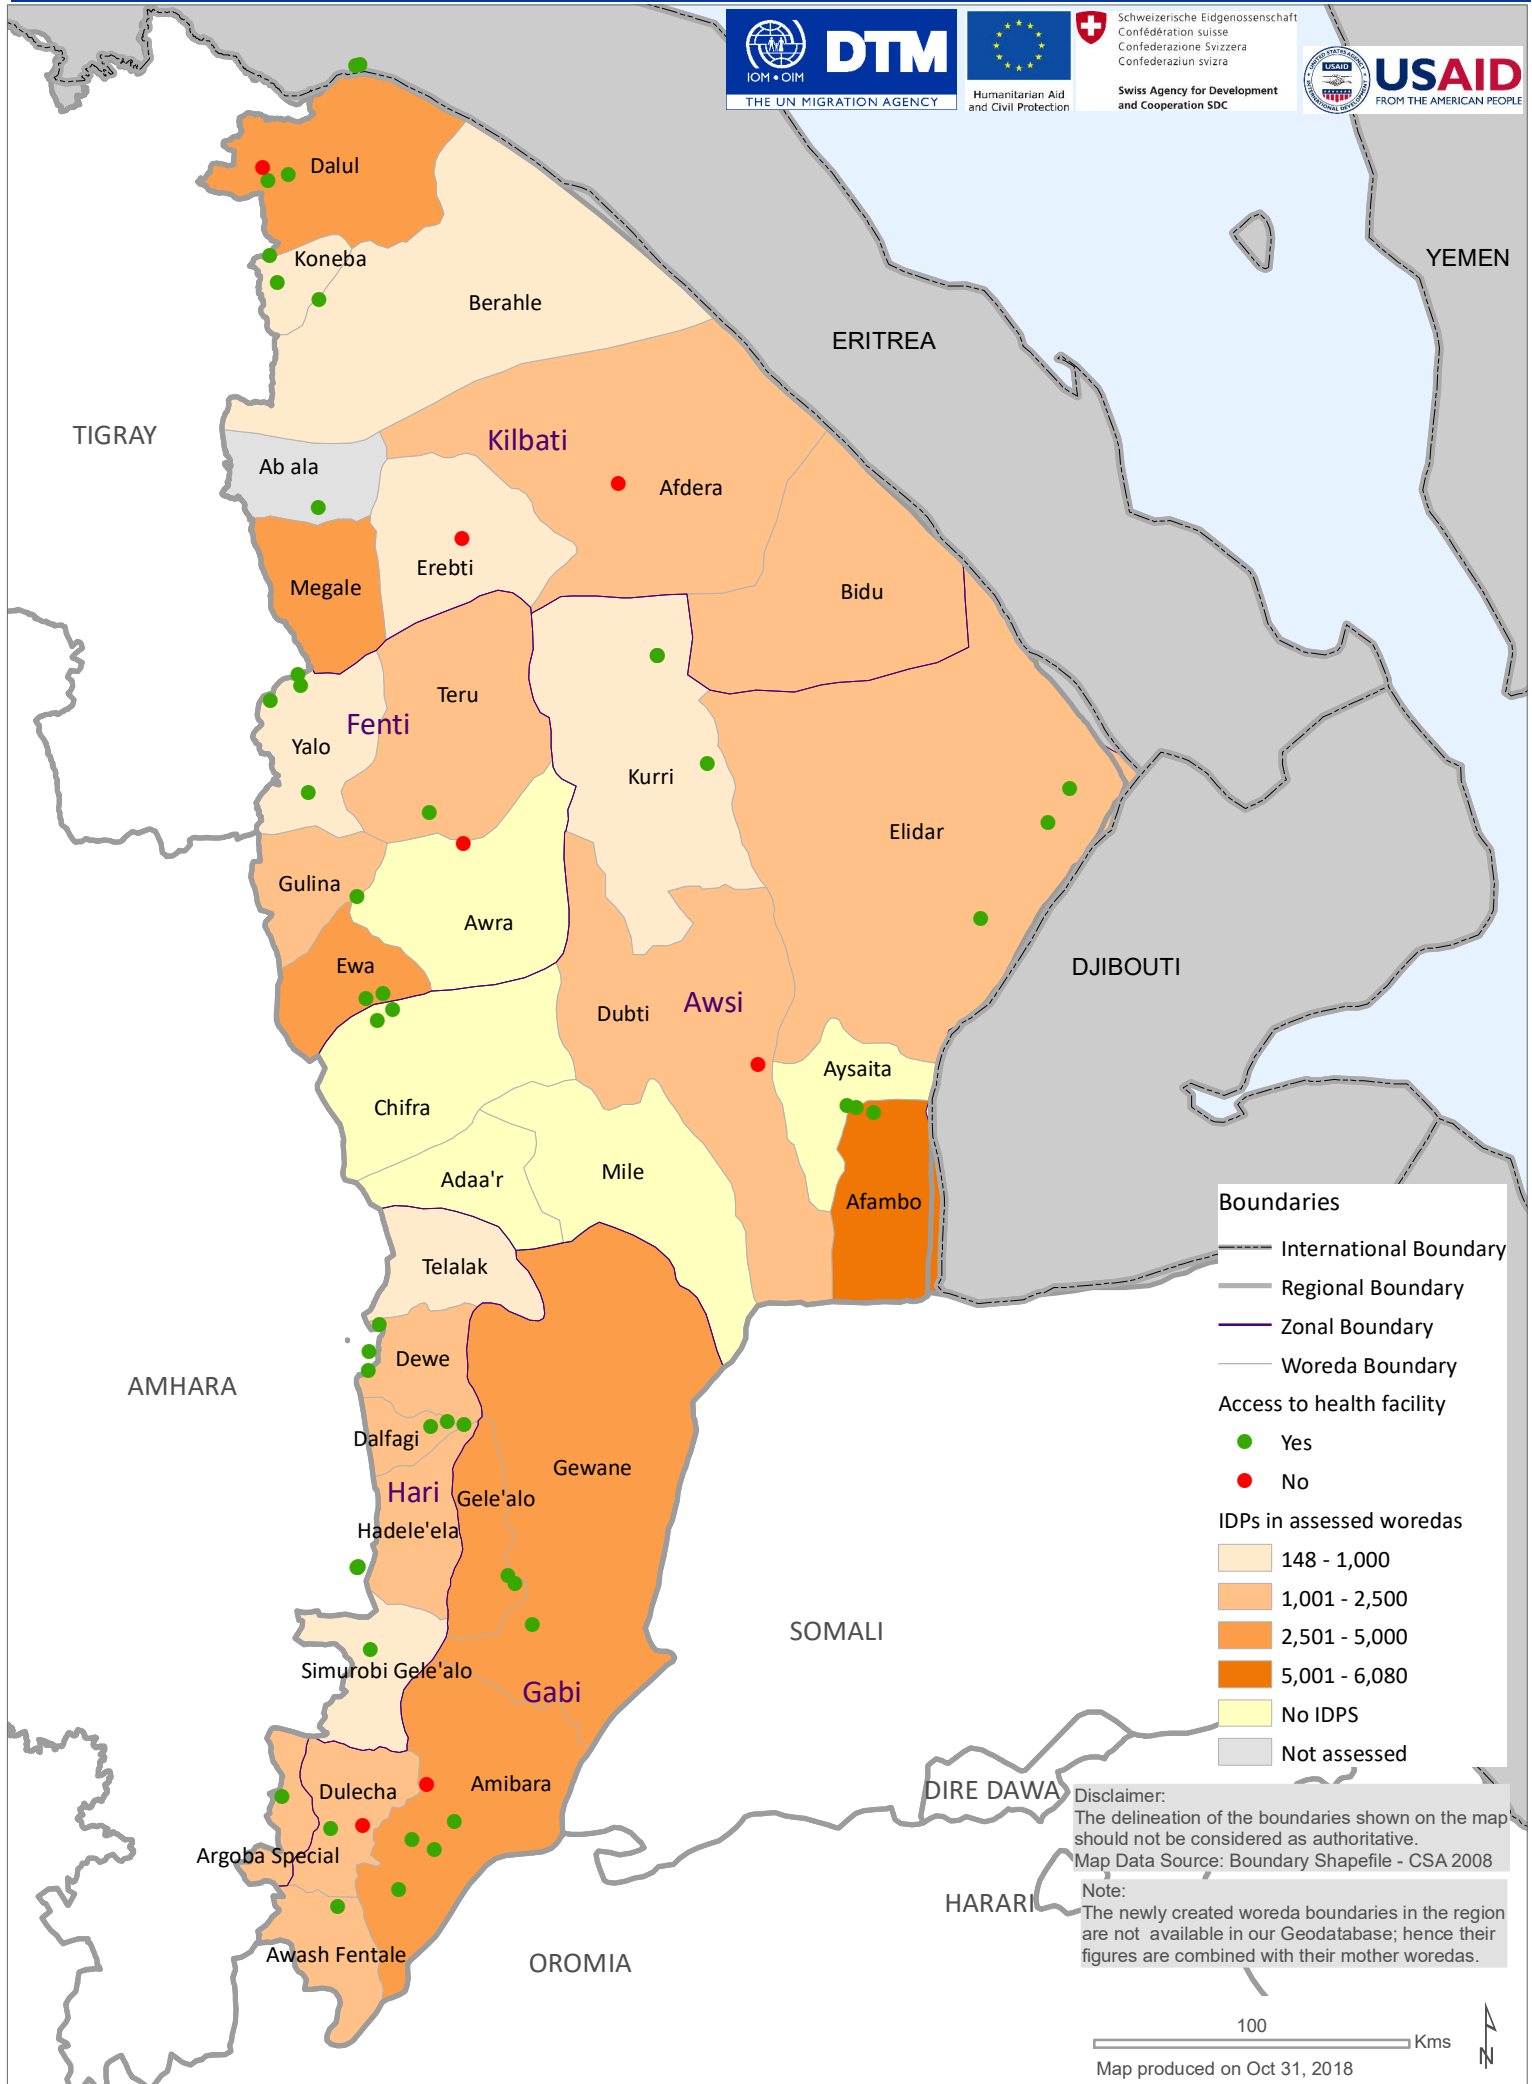

- 148 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 6,080
- No IDPs
- Not assessed

**Disclaimer:**  
The delineation of the boundaries shown on the map should not be considered as authoritative.  
Map Data Source: Boundary Shapefile - CSA 2008

**Note:**  
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

# Annex VII - Afar region sites reporting access to health facility and IDPs in assessed woredas

DTM round thirteen (01/09 - 30/09, 2018)

**Boundaries**

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

**Access to health facility**

- Yes
- No

**IDPs in assessed woredas**

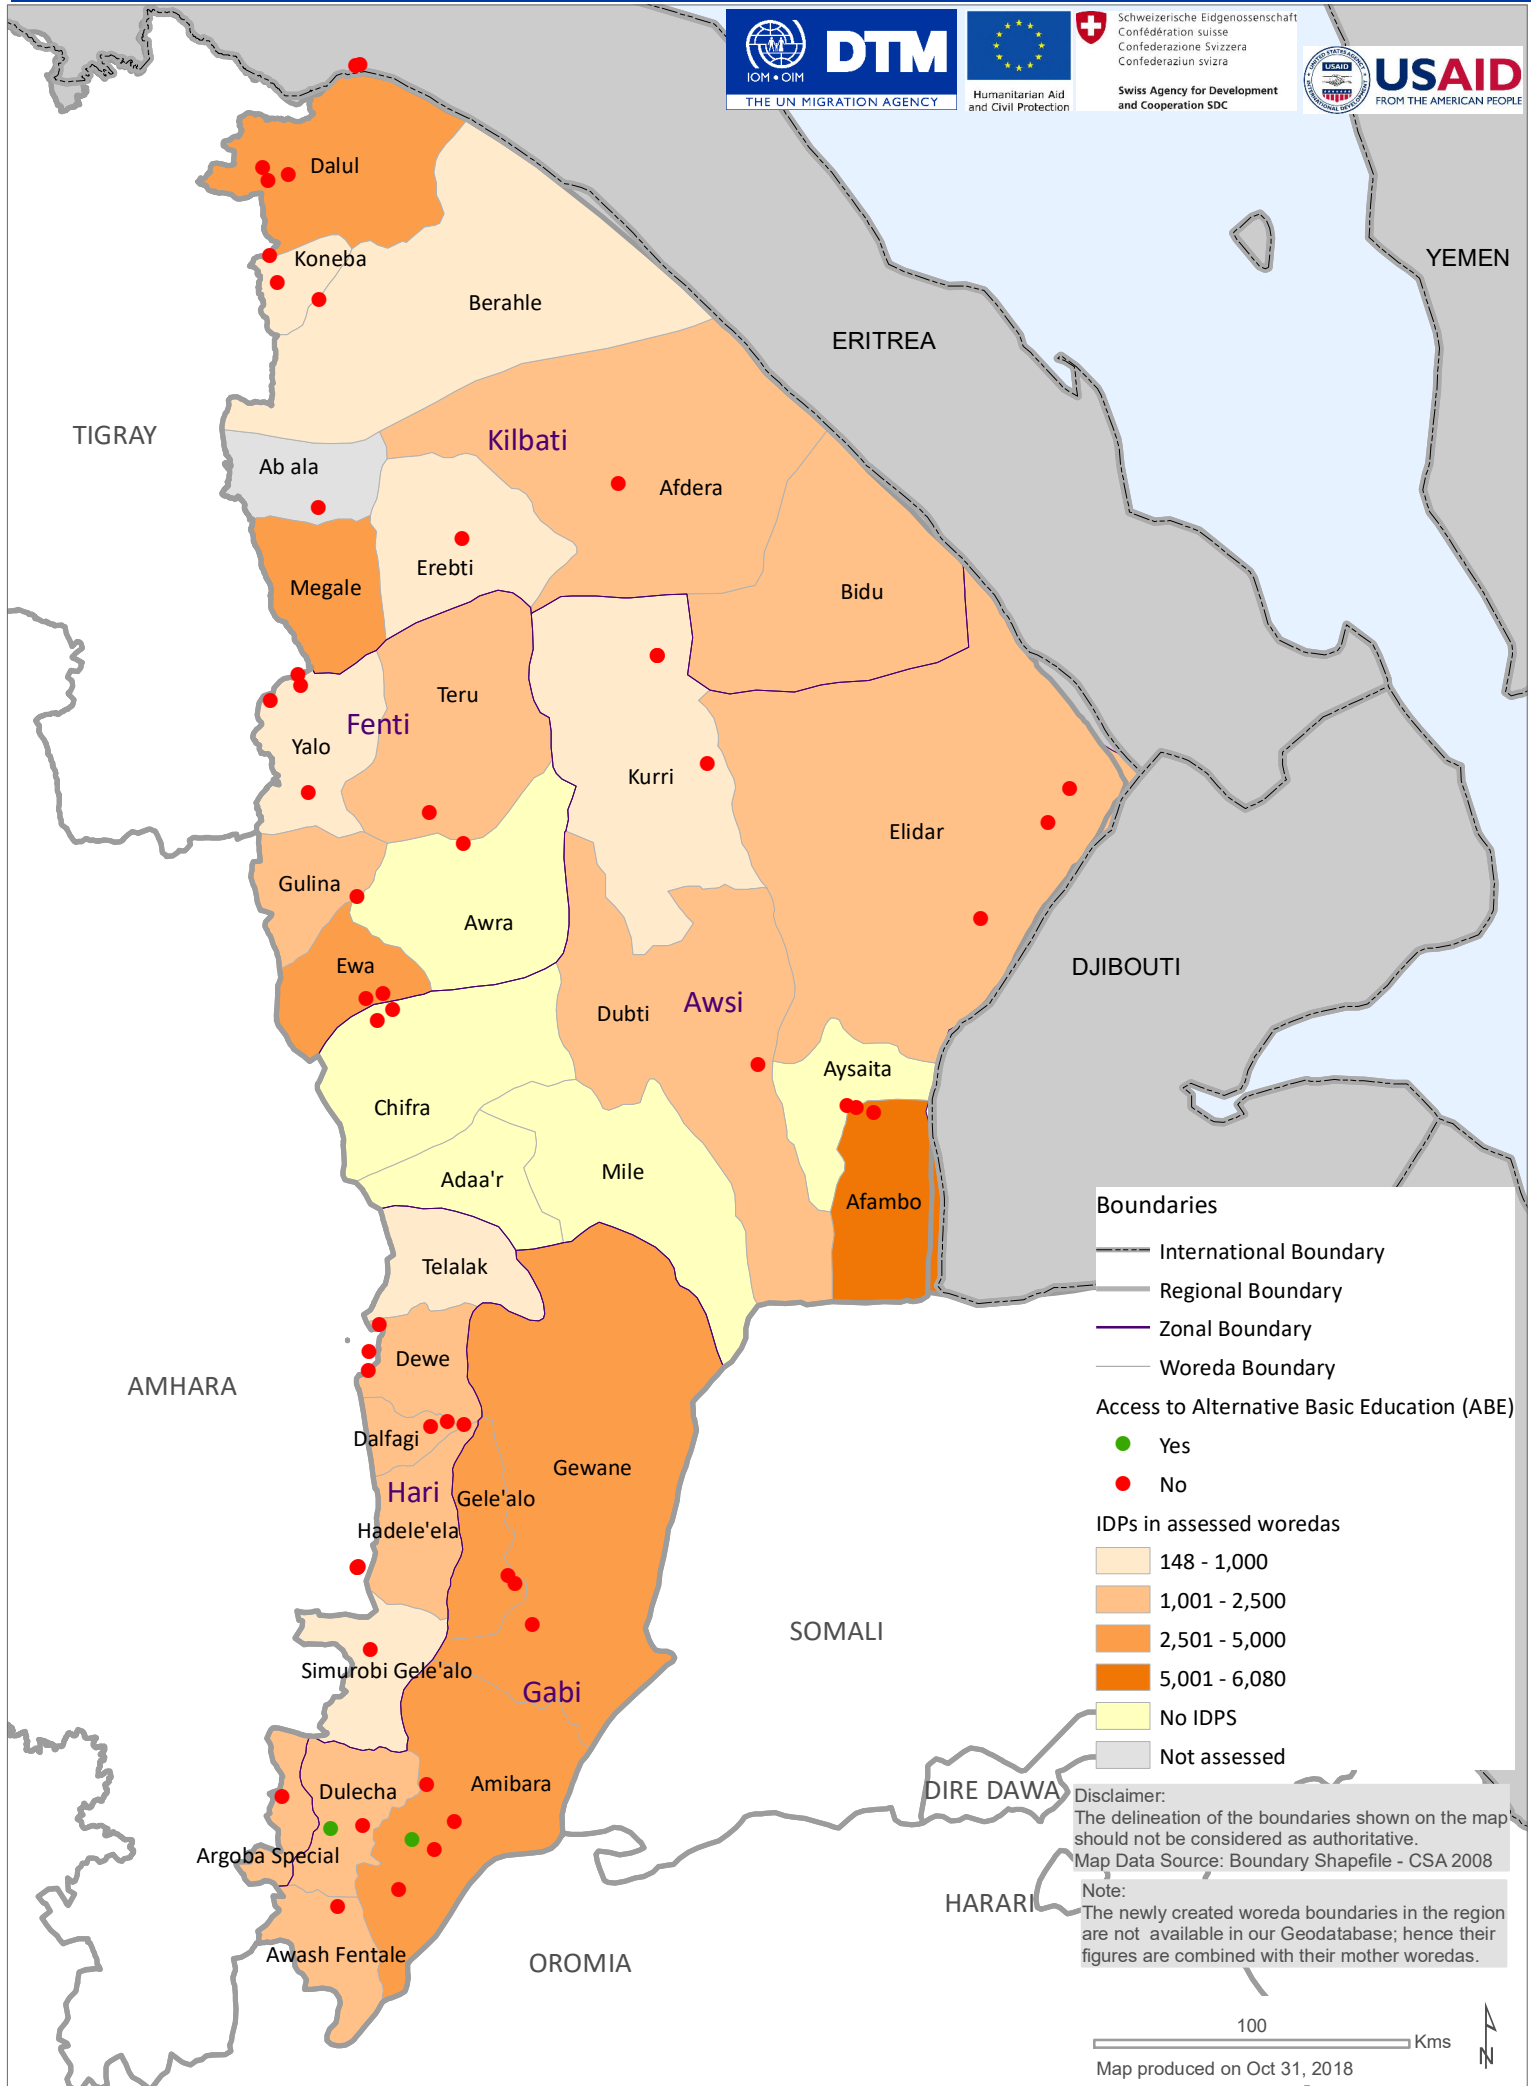

- 148 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 6,080
- No IDPs
- Not assessed

**Disclaimer:**  
The delineation of the boundaries shown on the map should not be considered as authoritative.  
Map Data Source: Boundary Shapefile - CSA 2008

**Note:**  
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

# Annex VIII - Afar region sites reporting access to ABE and IDPs in assessed woredas

DTM round thirteen (01/09 - 30/09, 2018)

**Boundaries**

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

**Access to Alternative Basic Education (ABE)**

- Yes (Green dot)
- No (Red dot)

**IDPs in assessed woredas**

- 148 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 6,080
- No IDPs
- Not assessed

**Disclaimer:**  
The delineation of the boundaries shown on the map should not be considered as authoritative.  
Map Data Source: Boundary Shapefile - CSA 2008

**Note:**  
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.
