0 Returnee HHs

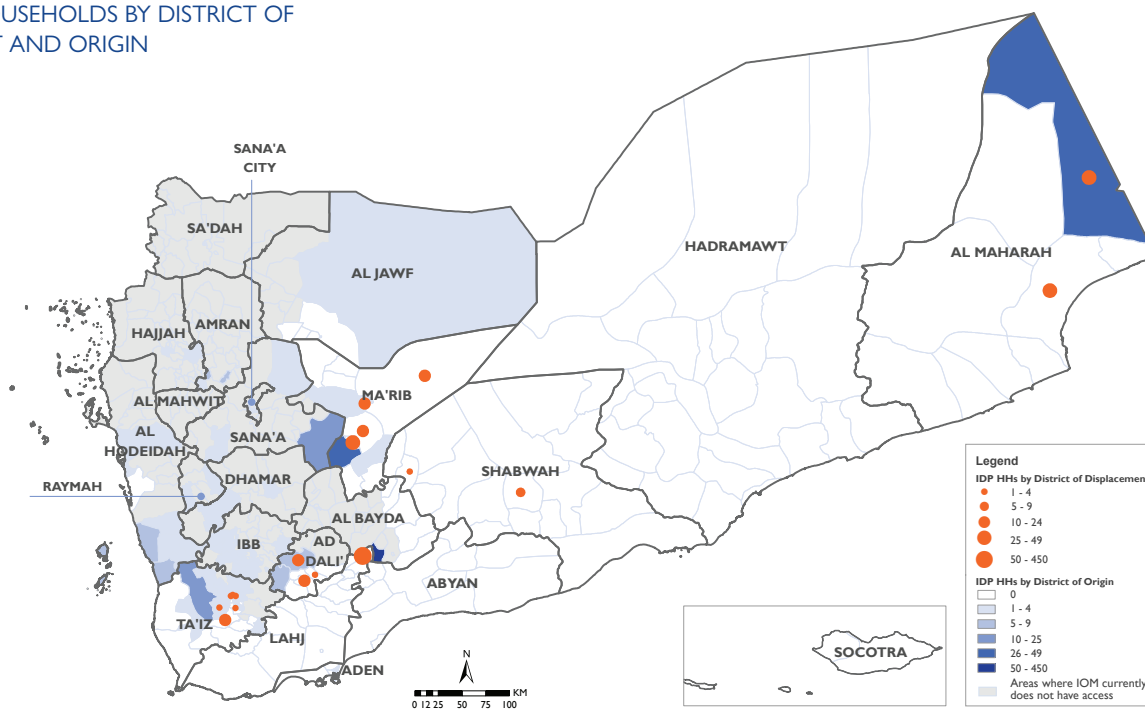

IOM Yemen DTM's Rapid Displacement Tracking (RDT) tool collects data on numbers of households forced to flee on a daily basis from their locations of origin or displacement, allowing for regular reporting of new displacements in terms of numbers, geography and needs. It also tracks Returnees who returned to their location of origin.

During the reporting period, between 11 and 17 July 2021, IOM Yemen DTM tracked 583 households (3,498 individuals) displaced at least once. From 01 January to 17 July 2021, IOM Yemen DTM estimates that 7,560 households (HH) (45,360 Individuals) have experienced displacement at least once.

Some 30 HH were displaced in the previous reporting period, which covered 04 to 10 July 2021. However, they were only identified in the current period and so, this figure has been added to the cumulative displacement total recorded from the beginning of the year.
