Highlights

- Until 1 June, there were **47,851** cumulative arrivals in Italy, compared to 33,907 in the last reporting period (a **41%** increase). Comparing arrivals to Italy until 31 May from 2015 and 2016, there were **47,449** and **47,851** cumulative arrivals respectively, a slight increase of **less than 1%**. In Greece, to date, there have been **158,023** arrivals in contrast to **157,424** up until the last reporting period (an increase of **less than 1%**). Relative to the 31 May last year, there were **40,939** and **158,016** arrivals to Greece for 2015 and 2016 respectively.
- The total number of migrants and refugees stranded in Greece and in the Western Balkans is **57,852**. Since the implementation of the EU-Turkey agreement on the 10th of March, the number of migrants and refugees stranded in Greece increased by **23%** while in the former Yugoslav Republic of Macedonia, Serbia, Croatia and Slovenia it decreased between **72%**, **77%**, **70%** and **15%** respectively. For a more detailed look, please see the country pages of Greece, the Former Yugoslav Republic of Macedonia, Serbia, Croatia and Slovenia.
- As of 31 May, there have been **1,911** individuals relocated. See sections on Relocations and country pages of Greece and Italy for updates on the EU's **Relocations** Plan. Please see the new page on [relocations](#) for more information.
- 25-31 May was the deadliest week in the Mediterranean in 2016 with an estimated **1,083** persons dead or missing in **9** separate incidents. Read more [here](#) about these incidents, and see the missing migrants section.
- As of 27 April, a total of **386** migrants and refugees were readmitted from Greece to Turkey as part of the EU-Turkey Agreement. The majority of migrants and refugees were Pakistani, Afghan, Bangladeshi and Iranian nationals. See Turkey section.
- **Counter-Trafficking:** the next FMS Counter-Trafficking analysis will be published on 2 June. It will be available on [IOM's EU migration flows portal](#).
- Information about "contingency countries" in the Western Balkans (Albania, Kosovo (SCR 1244)*, Montenegro, and Bosnia and Herzegovina), the Northern Route (Finland, Norway and Russia) is on [page 36](#).

2. Policy Timeline 2015—2016

17 September 2015

EU ministers approve disputed quota plan: the Czech Republic, Slovakia, Hungary and Romania are outvoted at the ministerial meeting when member states decide to relocate 66,000 refugees from Greece and Italy to other EU countries.

16 October 2015

EU announces it will give Turkey 3 billion EUR in aid and will fast-track approval of visas to Europe for Turkish citizens in exchange for increased controls on the flow of migration from the Middle East to Europe, and taking back migrants whose asylum applications have not been granted.

25 October 2015

EU Leaders agree on 17-point plan of action on the Western Balkans Migration Route. This includes Point 14: "Reconfirming the principle of refusing entry to third country nationals who do not confirm a wish to apply for international protection (in line with international and EU refugee law and subject to prior non-refoulement and proportionality checks)," which is thought to have inspired the fYR of Macedonia to close its borders to any migrants not of Syrian, Afghan, or Iraqi nationality.

03 December 2015

Pakistan refuses to allow 30 deported Pakistanis to disembark plane from Athens.

10 December 2015

The European Commission begins legal action against Greece, Croatia and Italy for failing to correctly register migrants. It also launches an infringement case against Hungary over its asylum legislation. It says the three failed to implement the Eurodac Regulation, which involves fingerprinting asylum seekers and registering the data within 72 hours.

11 February 2016

NATO sends naval patrols and air surveillance in order to deter smugglers in the Mediterranean Sea, as well as to gather intelligence and monitor migrant flow alongside Greek and Turkish coast guards.

7 March 2016

European leaders reached a tentative agreement with Ankara on the migrant and refugee crisis – the mechanism described as "one in, one out" would be that for every Syrian returned to Turkey from Greece, the EU would then resettle one Syrian from Turkey.

18 March 2016

European Union and Turkey signed an agreement which outlines the plan to end irregular migration flows from Turkey to Europe.

EU Turkey Agreement Overview

On March 18, the European Union and Turkey have agreed on a plan to end irregular migration flows from Turkey to the EU.

The agreement states that:

- From the 20th of March, all persons who do not have a right to international protection in Greece will be returned to Turkey, this action will be based on the Readmission Agreement from 2002 signed between the countries. From the 1st of June the agreement between the EU and Turkey will enter into force and that will be the basis of returns between Greece and Turkey from that point on.
- There will be no mass returns, each individual arriving on Greek shores and applies for asylum will go through an expedited procedure. Those who do not apply for asylum or whose applications were considered unfounded or inadmissible in accordance with the Asylum Procedures Directive will be returned to Turkey.
- In order to create a smooth process, Turkey and Greece as well as the EU institutions and agencies will take all the necessary steps and agree on any necessary bilateral agreements including the presence of Turkish officials on Greek islands and vice versa as of 20 March 2016 in order to ensure the liaison and a better functioning of the return mechanism.
- Member States declare their readiness to provide with a short notice, if needed, border guards, asylum experts, interpreters etc. to Greece.
- The Commission will coordinate all necessary support for Greece, under the EU-Turkey Agreement, and will develop an operational plan.
- The resettlement of Syrians will go under a 1:1 mechanism. Priority will be given to the Syrians who have not previously entered or tried to enter the EU irregularly. The EU will take into account the UN Vulnerability Criteria during the selection process.
- The EU Member States and agencies will accelerate relocation procedures from Greece, that way in the next month a total of 6,000 relocations should be achieved. By mid-May 2016 a minimum of 20,000 relocations should be completed.
- Visa liberalizations for Turkish citizens in the EU are to be implemented by 30 June. Find more information on the process [here](#).
- The European Council reaffirmed its support to Jordan and Lebanon. It calls for a better coordination with the Western Balkan states in tackling the migration crisis.

The European Council calls for measures to deter the smuggling of migrants in the EU. The whole EU-Turkey Agreement factsheet is available [here](#).

The Third Report on Relocation and Resettlement released by the European Commission is available [here](#).

3. Relocations

Based on the Commission's proposals, the Justice and Home Affairs Council adopted in September 2015, two decisions to relocate **160,000** asylum seekers from Italy and Greece, to assist them in dealing with the pressures of the refugee crisis. Under the emergency relocation scheme, persons in need of international protection with a high chance of having their applications successfully processed (EU average recognition rate of over 75%) are relocated from Greece and Italy, where they have arrived, to other Member States where they will have their asylum applications processed. If these applications are successful, the applicants will be granted refugee status with the right to reside in the Member State to which they are relocated. Following the EU-Turkey agreement of 18 March 2016, the Commission has tabled a proposal on the 21 March 2016 to make available further places for resettlement or other forms of legal admission of persons in need of international protection from Turkey by amending Council Decision (EU) 2015/1601 of 22 September and reallocate 54,000 places which were foreseen for relocation for the purpose of resettling Syrians from Turkey to the EU. The EU Council has endorsed this proposal but the opinion of the European Parliament on the Decision is currently pending.

The relocations should take place over two years (September 2015-2017), with the EU budget providing financial support to the Member States participating.

IOM is implementing the pre-departure health assessments, pre-departure orientation and actual transfer of the beneficiaries in coordination with Italy and Greece as well as the Member States to which relocation takes place.

The European Commission has made available an overview of Member States' support to the EU relocation mechanism. To date, **24 out of the 31 participating countries have committed to make places available** under the scheme, namely Belgium (30), Bulgaria (1,302), Croatia (10), Cyprus (30), Czech Republic (50), Estonia (66), Finland (270), France (1,700), Germany (140), Ireland (50), Latvia (491), Liechtenstein (43), Lithuania (100), Luxembourg (150), Malta (131), the Netherlands (200), Poland (100), Portugal (1,642), Romania (715), Slovakia (100), Slovenia (70), Spain (200), Sweden (300) and Switzerland (30) with an overall number of only **7,920 places**. You can find the overview [here](#).

Total	1161	750	1911

3. Bulgaria

Background and latest figures

From the start of 2016 to **26 May**, Bulgarian authorities apprehended a total of **1,812** migrants and refugees entering the country irregularly from the land borders with Turkey. In addition, **4** have been apprehended on the border with Serbia, **1** on the border with Macedonia, **221** on the border with Greece and **1** on the Romanian-Bulgarian border. Regarding apprehensions on exit, **33** were apprehended on the border with Turkey, **2,852** on the Serbian border, **3** on the Macedonian border, **4** on the border with Greece and **27** on the Bulgarian-Romanian border. The most prominent nationalities in descending order were **Iraqis, Syrians, Afghans and Pakistanis**. The vast majority, **79%**, were apprehended on irregular land borders, while only **21%** were apprehended on border checkpoints. In addition, **1,904** migrants and refugees have been apprehended inside country up to 26 May. At the moment, despite the closure of the borders of the fYR of Macedonia and Serbia, there is no significant redirection of the migration flows to Bulgaria and especially, near the border with Greece.

Therefore, numbers from Bulgaria are not of registered arrivals but rather of apprehensions by the Bulgarian authorities of irregular migrants on entry, within the country, and on exit. This makes dating the exact entry of arrivals difficult, as someone apprehended in 2016 might have entered the country in 2015. As such, IOM has decided to account for flows into the country in the following manner: the figure for arrivals from 01 Jan 2016 – 25 Feb 2016 includes only apprehensions on entry. Of these, only apprehensions on entry from the Turkish-Bulgarian border are counted. The figure for arrivals from 25 Feb 2016 – 31 April 2016 includes only apprehensions on entry and in country. The figure for arrivals from 01 April 2016 onwards will include all three locations: entry, in country, and on exit.

Cumulative arrivals (equal to registered apprehensions) by reporting date in Bulgaria

Up to	Cumulative Apprehended on Entry	Cumulative Apprehended Inside	Cumulative Apprehended on Exit**	Total Cumulative
28 Jan 2016	504	Not included	Not included	504
25 Feb 2016	1,006	Not included	Not included	1,006
31 Mar 2016	1,195	379	Not included	1,574
7 Apr 2016	1,456	1,002	669	3,127
14 Apr 2016	1,595	1,102	766	3,463
21 Apr 2016	1,633	1,264	860	3,757
28 Apr 2016	1,709	1,300	975	3,984
12 May 2016	1,827*	1,719	1,112	4,658
26 May 2016	2,039	1,904	1,265	5,208

* These figures include migrants apprehended on entry coming from Greece, Romania, Serbia and Turkey

** Irregular migrants without registration papers from the Bulgarian MOI

The main entry points between Bulgaria and Turkey are border checkpoints **Kapitan Andreevo**, **Lesovo** and **Malko Tarnovo**. Migrants and refugees who are coming from Greece mostly use green areas near **Kulata-Promahon** checkpoint or available routes in **Petrich region**. Most migrants and refugees enter Bulgaria from green border on foot. Those coming from border checkpoints usually enter by hiding in buses or other vehicles. Undetected migrants continue their journey via taxis and private transportation to external borders or to big cities to find a means of onward transportation out of the country. However, **1,904** migrants and refugees were apprehended inside country from 1 January until 26 May, with **185** being apprehended during this reporting period (13 - 26 May).

28-29 May— After the evacuation of Idomeni, 87 arrivals were detected on the Greek-Bulgarian border.

Accommodation Facilities (as of 12 May 2016)

Open Reception Centre for Asylum Seekers (RCAS) – in Zagreb and Kutina

The Centres are solid structures part of the permanent reception system in Croatia. Joint capacity of both Centres is around **700-800**, namely **600-700 in Zagreb and an additional 100 in Kutina**. The latter is meant for vulnerable groups. The Ministry of Interior regulates and operates these facility. Apart from them, The Croatian Red Cross keeps permanent staff to cater for the asylum seekers needs with other NGOs who provide support in activities such as IT courses, Croatian language courses, creative workshops, etc. IOM is present in both facilities, focusing mostly on activities related to community work. Currently (1 June), 29 migrants and refugees are accommodated in RCAS Zagreb.

Closed Reception Centre for Foreigners Ježevo

Detention Centre in Ježevo is a closed facility with permanent solid-built structure. The Centre is run by the Ministry of Interior. Apart from them, health and social welfare personnel are entitled to provide necessary services to migrants, however health care is not provided around the clock but only 2 hours a day on average. External monitoring of the Centre is done by different NGOs. IOM staff visits this centre twice a week. Currently, (01 June) 40 migrants and refugees are accommodated there.

Accommodation Facilities (occupancy/capacity) and Border Crossing Points

5. Greece

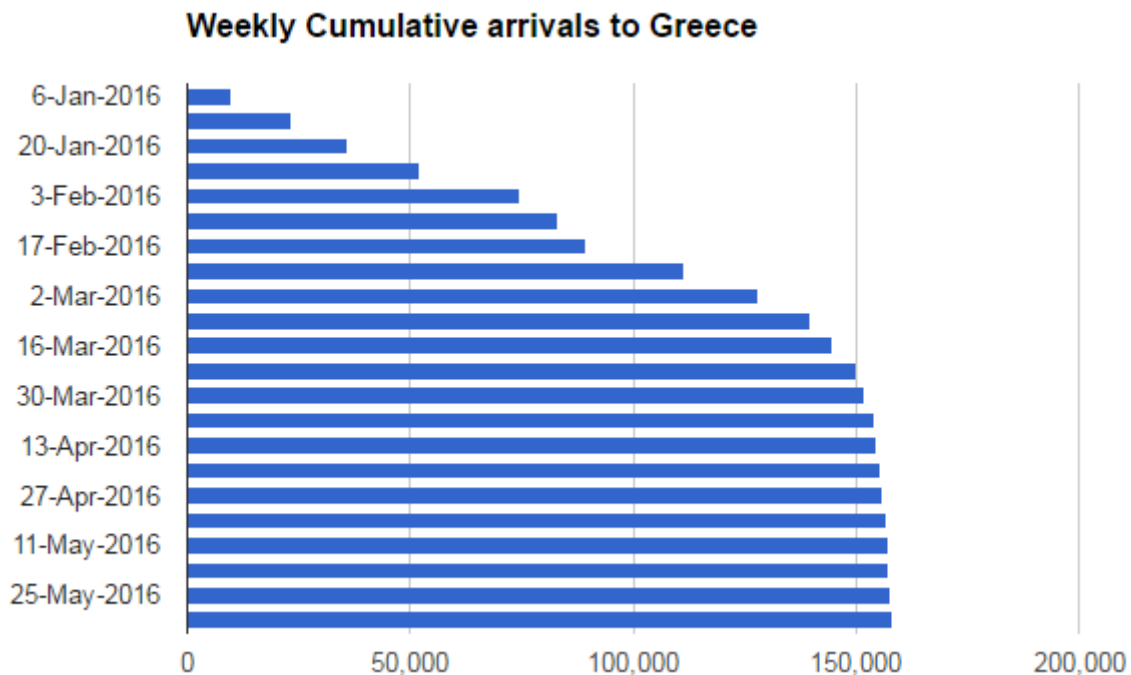

Key Findings and Advanced Notifications

As of **01 June 2016**, the cumulative arrivals to Greece over land and sea for 2016 stands at **158,023**. According to the Hellenic Coast Guard, during the reporting period, there were more than **6** incidents in the Aegean sea.

24 May —The Greek authorities began a large-scale operation to evacuate Idomeni. The migrants and refugees were transferred to official camps in the greater Thessaloniki area. Moreover, four new accommodation centers have been created where many of these migrants and refugees have been taken in this area: Sindos, Softex, Vagiochori and Sinatex. As per IOM Greece, evacuations remained relatively calm and no incidents were noted.

6. Hungary

Key Findings and Advanced Notifications

From 01 January 2016 to 01 June 2016, a total of **13,869** migrants and refugees were registered arriving in Hungary. Due to the barbed-wire fence in place along the Serbian and Croatian borders, there have been reduced numbers of arrivals since 17 October 2015. However, during the months of February, March and April there has been a steady increase in all registered arrivals through the border with Serbia. From 19 to 01 June 2016, **1,755** new arrivals were registered by the authorities. The most common nationalities in descending order are: Afghans, Pakistanis, and Iranians.

Cumulative arrivals to Hungary in 2016

Known entry points

The border in Hungary has been officially closed since September 2015 with the completion of the fence. The migrants have been able to cross the border only through the official crossing transit points of Tompa and Roszke on the border with Serbia. However, a **third passage** on this border is under construction where refugees can apply for asylum, in the village of Asothalom. The average number of daily arrivals has been increasing steadily since January 2016, hitting a maximum of **213** for the month of May 2016.

Apart from occasional arrivals through Romania, there are no indicators that the route could have changed following the official closure of the Western Balkans route.

Known entry points: Serbian border-**Röszke and Tompa**.

Accommodation Facilities

As of 01 June, the total number of migrants and asylum seekers is 2,345, a slight increase of **6%** compared to 17 May (previous report).

BICSKE RECEPTION FACILITY

The Bicske facility is run and managed by the Hungarian Office of Immigration and Nationality. Different NGOs together with social workers are providing services to accommodated migrants and refugees. The facility is an open reception Centre for accommodating men, women and families. According to IOM staff, **831** migrants and refugees are currently accommodated in the Bicske facility. Prior to becoming a reception facility, the premises in Bicske were used as integration facility for migrants and refugees who were granted the status in Hungary.

VAMOSSZABDI RECEPTION CENTRE

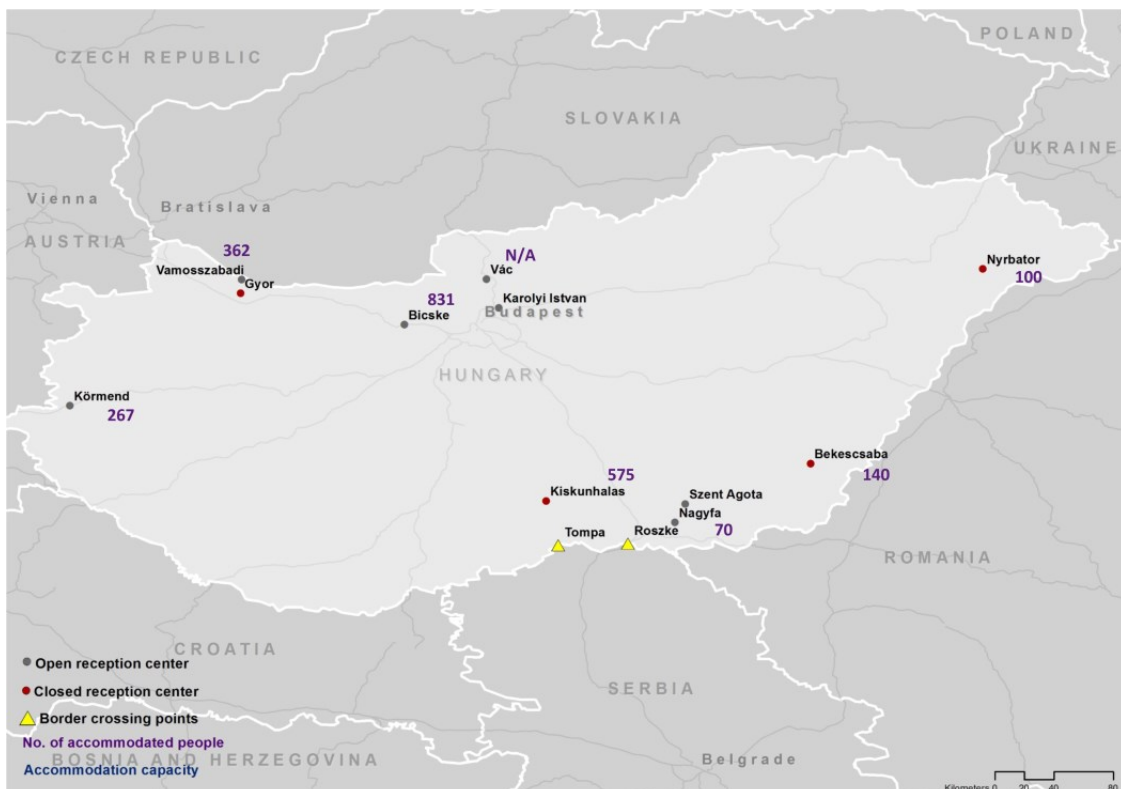

The Centre is run and managed by the Hungarian Office of Immigration and Nationalities. Vamosszabdi is an open centre in which several NGOs are present mostly focusing on community building activities organized in cooperation with present social workers. The facility accommodates families, together with single female and male migrants and refugees. According to IOM staff the facility hosts **362** persons.

OTHER CENTRES

Apart from above listed reception Centres, there are also four closed Reception Centres located in Nyrbator, Kiskunhalas, Gyor, Nagyfa and Vác that are run by the Hungarian police. A new open reception centre was established at the end of April in Kormend, near the border with Austria.

NUMBER OF ACCOMMODATED MIGRANTS (as of 1 June, 2016)

Total	616	2,347

Accommodation Facilities (occupancy/capacity) and Border Crossing Points

7. Italy

Key Findings and Advanced Notifications

From 1 January 2016 to 31 May 2016, an estimated **47,851** migrants and refugees were registered arriving in Italy. At the end of each month, IOM data is adjusted according to the official figures provided by Italy’s Ministry of Interior. From 19 to 31 May 2016, IOM staff at the entry points estimated that **13,944** migrants and refugees arrived, which is an increase (168%) from the arrivals of the previous period of **5,201**. Until 1 June, there were **47,851** in Italy, compared to 33,907 cumulative in the last reporting period (a **41%** increase). Comparing arrivals to Italy until 31 May from 2015 and 2016, there were **47,449** and **47,851** cumulative arrivals respectively, a slight increase of less than 1%.

*Latest available data

Demographic Breakdown of Arrivals to Italy (as of 30 April 2016)*

*Latest available data

Relocations: To date, **1,911 individuals** have been relocated – **750 from Italy** (180 to Finland, 181 to France, 39 to Sweden, 40 to Spain, 20 to Germany, 29 to Belgium, 142 to Portugal, 50 to the Netherlands, 15 to Malta, 6 to Romania, 2 to Latvia, 34 to Switzerland, 6 to Cyprus and 6 to Slovenia). The European Commission has made available an overview of Member States’ support to the EU relocation mechanism. Find the complete overview [here](#).

Number of Migrants and Refugees Relocated from Italy

Known entry and exit points

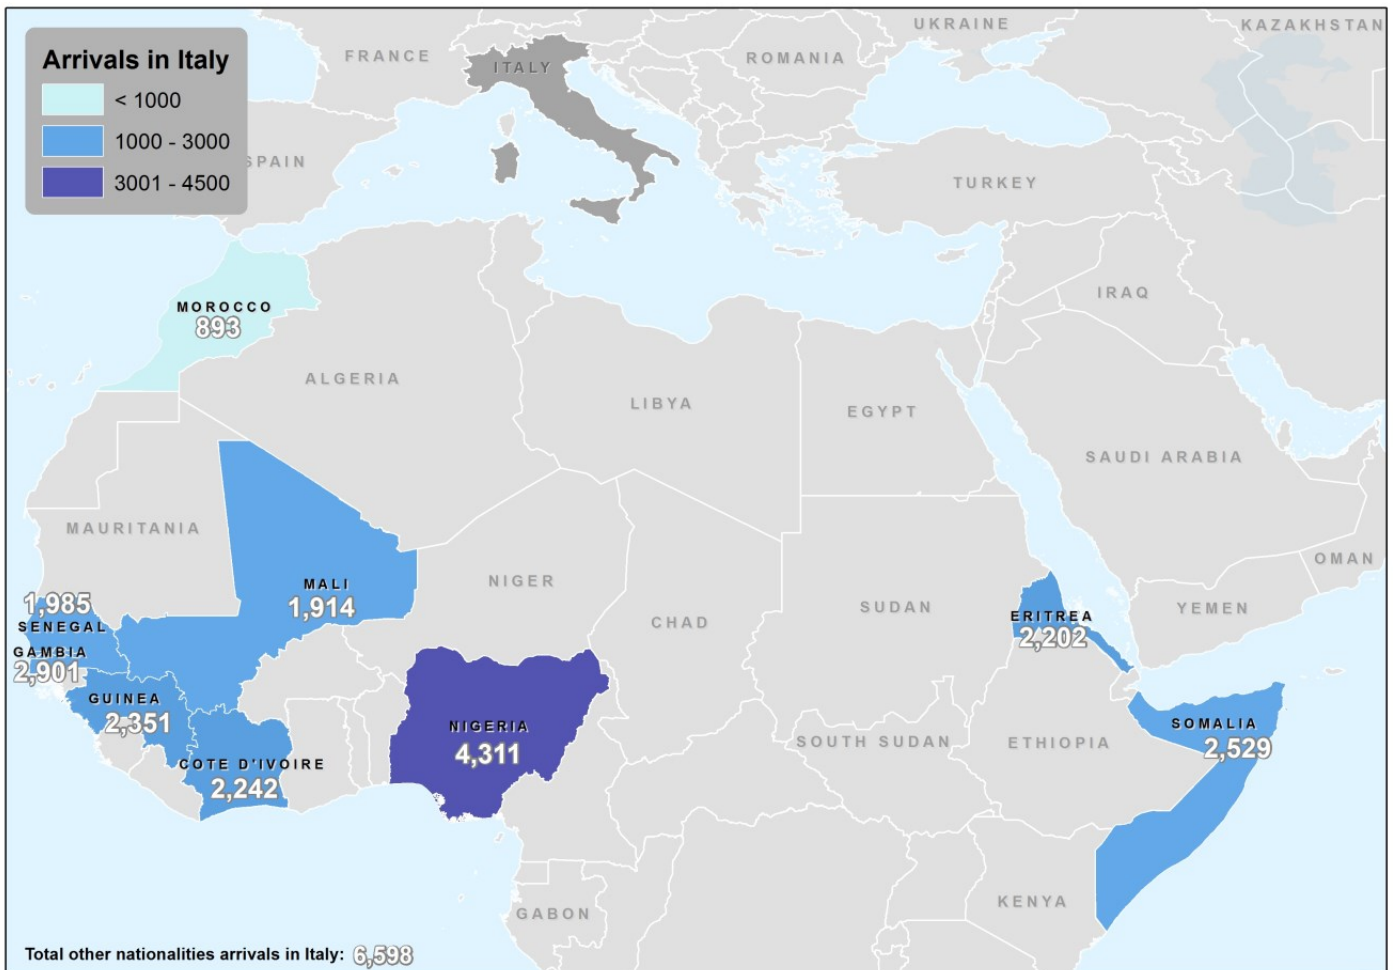

Known entry points: In the Channel of Sicily migrants are usually rescued in international waters and brought to the ports of Lampedusa, Sicily (Catania, Augusta, Pozzallo, Porto Empedocle, Trapani, Messina, Palermo) Calabria (Crotone, Reggio Calabria, Vibo, and others) or Apulia (mainly Taranto). Sometimes migrants are also brought to Sardinia (Cagliari), or Campania (Salerno).

Known exit points: Exit points are irregular and therefore little is known about them. IOM Italy estimates that most Syrians and Eritreans and many Sudanese tend to move on to other European countries within 24-48 hours after reaching Italy, while most Sub-Saharan Africans remain in Italy.

Known entry points in Italy

Cumulative arrivals by nationality of origin 2016 (from 1 Jan to 30 April 2016)

8. Serbia

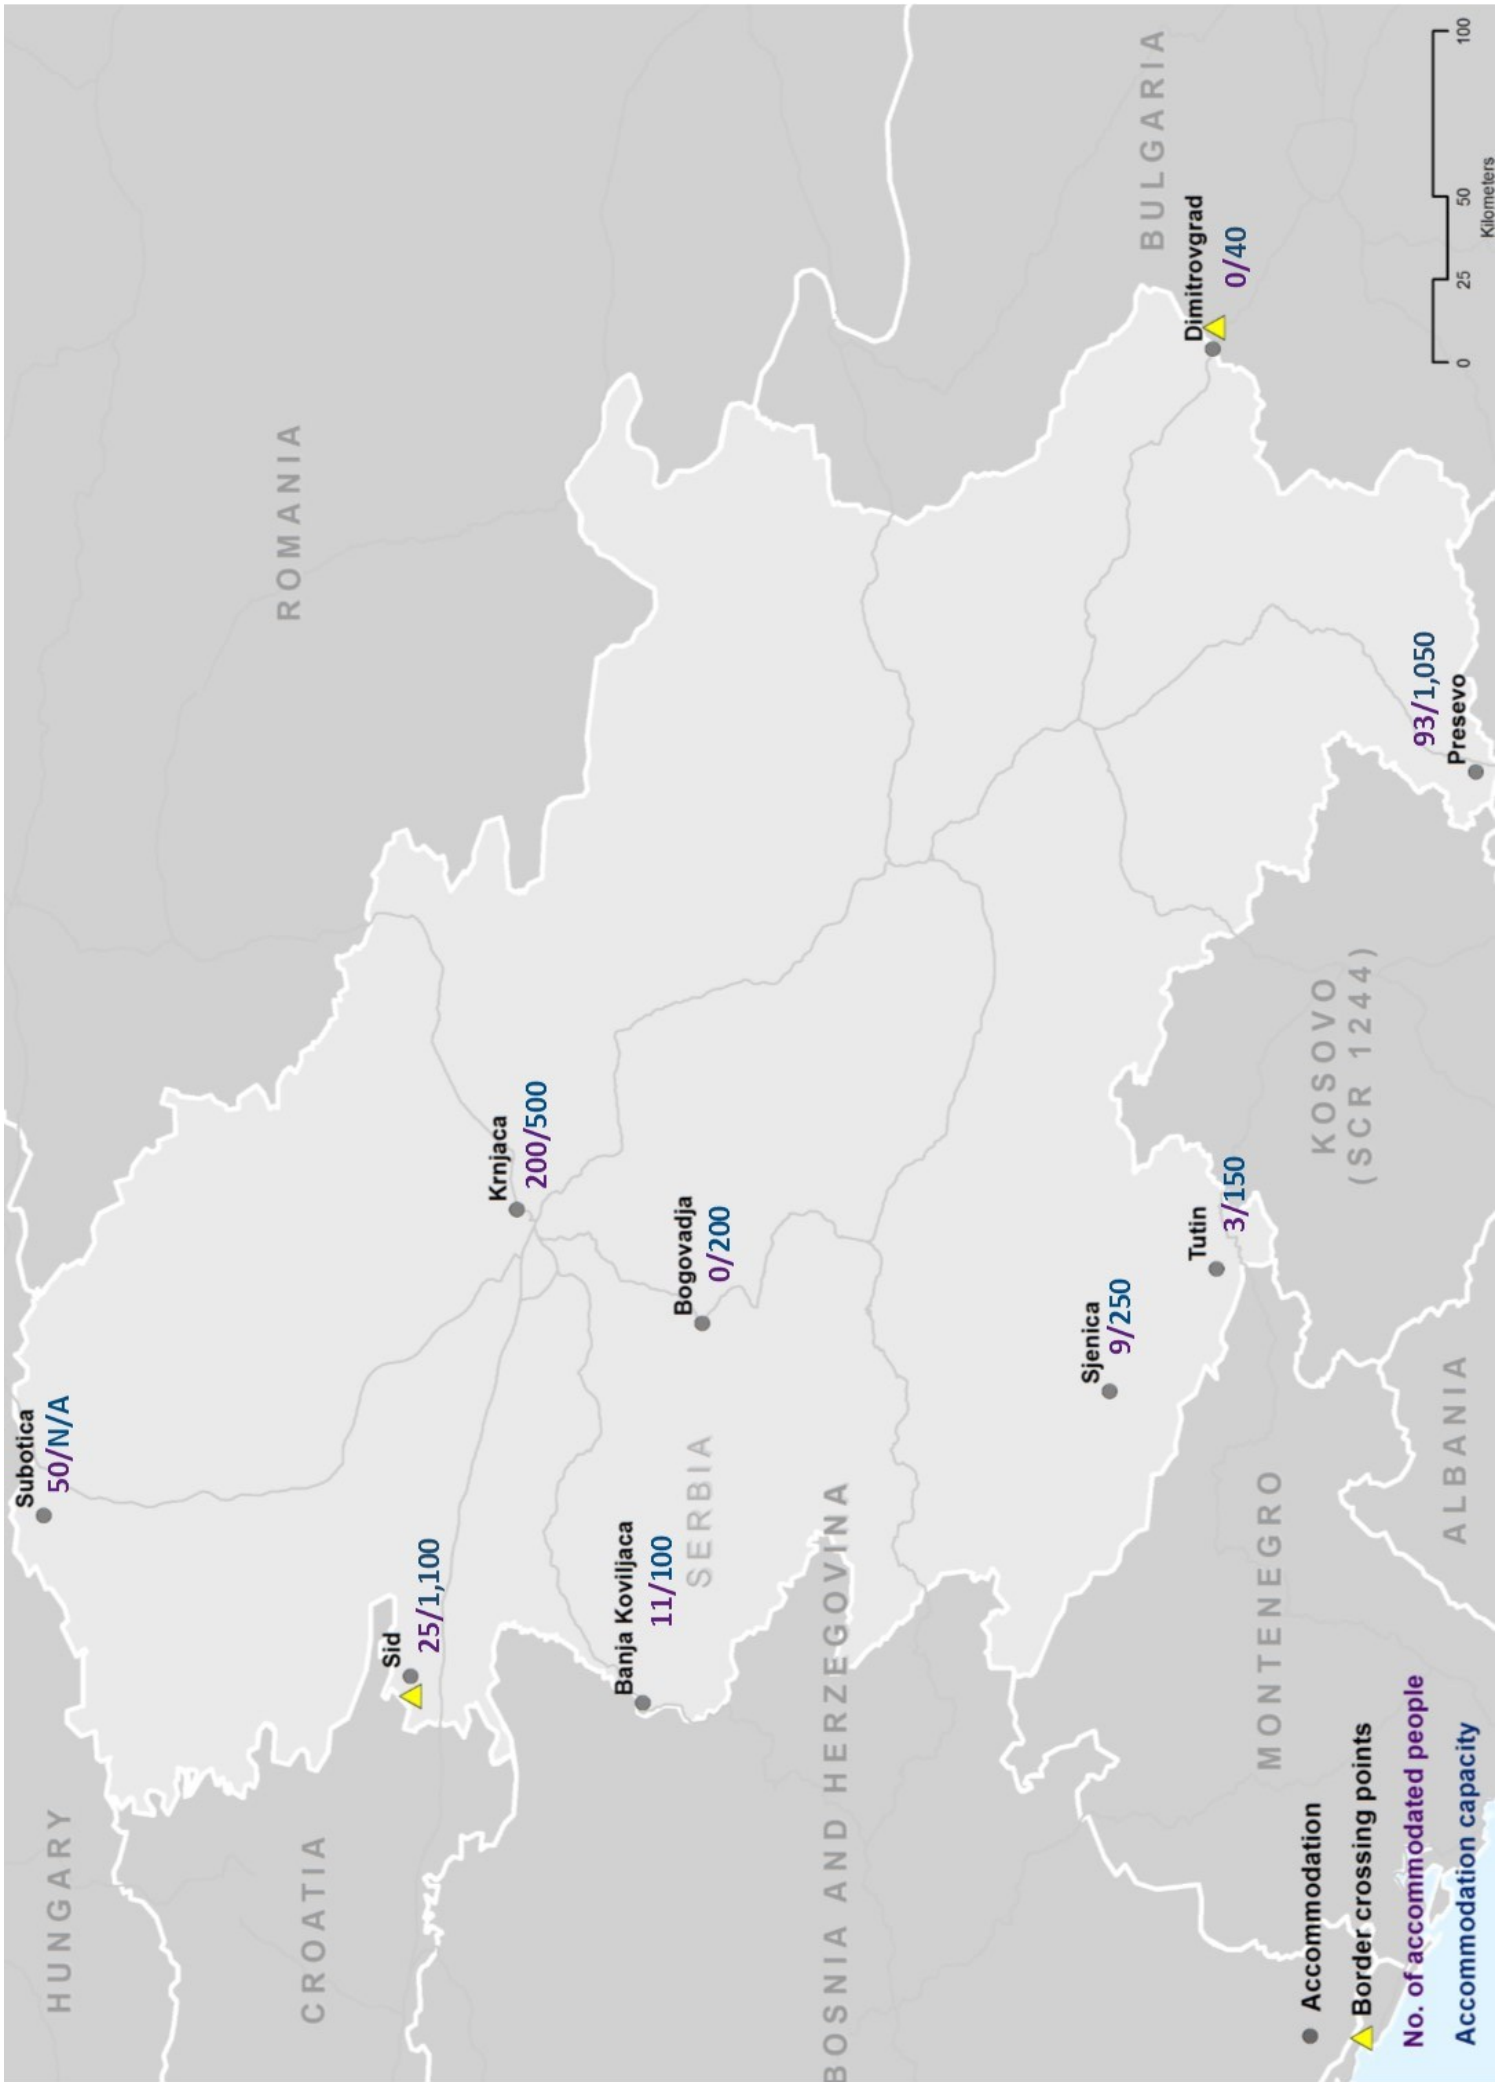

Key Findings and Advanced Notifications

1 June - Over the period from 19 May to 1 June, 2016 **263 migrants and refugees arrived in Presevo area—Serbia**. The total number of migrants that have entered the country since the start of the year is **93,373**.

Accommodation Facilities (as of June 1, 2016)

9. Slovenia

Key Findings and Advanced Notifications

01 June—Since the start of 2016, a total of **99,187** migrants and refugees have been registered entering Slovenia. From 19 May—1 June 2016, there were **no registered arrivals**.

Cumulative arrivals to Slovenia in 2016

Accommodation Facilities

There are five accommodation facilities in Slovenia. Three main Centres are Asylum Home in Ljubljana (which consists of three premises on different locations in Ljubljana), Centre for Foreigners –Postojna and Aliens Centre Department Vrhnika. The total capacity of the Centres is **1,730**, currently, accommodating **349** migrants and refugees. Migrants and refugees who started the procedure for international protection are accommodated in the premises of the Asylum Centre in Ljubljana, while the Centre for Foreigners-Postojna is the facility for migrants and refugees in return procedure. According to the report published by the Slovenian Ministry of Interior, **10** migrants and refugees are accommodated in the Youth Crisis Centre, and additional **13** are internally displaced.

Temporary Transit Camps

Until the beginning of March and the closure of the Western Balkan route, three more camps were operational in Slovenia, located around main entry and exit points. The camp in **Dobova**, the **main entry point**, served for accommodating migrants and refugees who were arriving from Croatia. Two other camps were located next to **main exit points** toward Austria-**Jesenice** and **Sentilj**.

Accommodation Facilities (with occupancy/capacity) and Border Crossing Points

10. Turkey

Background and latest figures

In Turkey the systems for thorough data collection have not yet been established, with the only available information being provided by the Turkish Coast Guard. As of 30 May 2016, the Turkish Coast Guard had apprehended **25,655** irregular migrants and had registered **173** fatalities for 2016. The breakdown by month of the apprehensions can be found below. These figures only include those apprehended and rescued by the Coast Guard; actual numbers of migrants and refugees departing Turkey by sea are in fact much higher than this when compared to arrivals on the Greek islands.

Cumulative rescues and apprehensions by reporting date in Turkey

Mediterranean Developments-Rescues/Apprehensions by Turkish Coast Guard Statistics for 2016*				
Months	Number of Cases	Number of irregular migrants	Number of deaths	Number of organizers
January	135	5,506	103	16
February	182	8,747	38	25

TRANSIT CENTRE VINOJUG

Accommodation facility located close to the Greek border in Gevgelija region, has a full capacity of approximately 1,100-1,200. Currently it accommodates **138** Syrian, Iraqi and Afghani nationals.

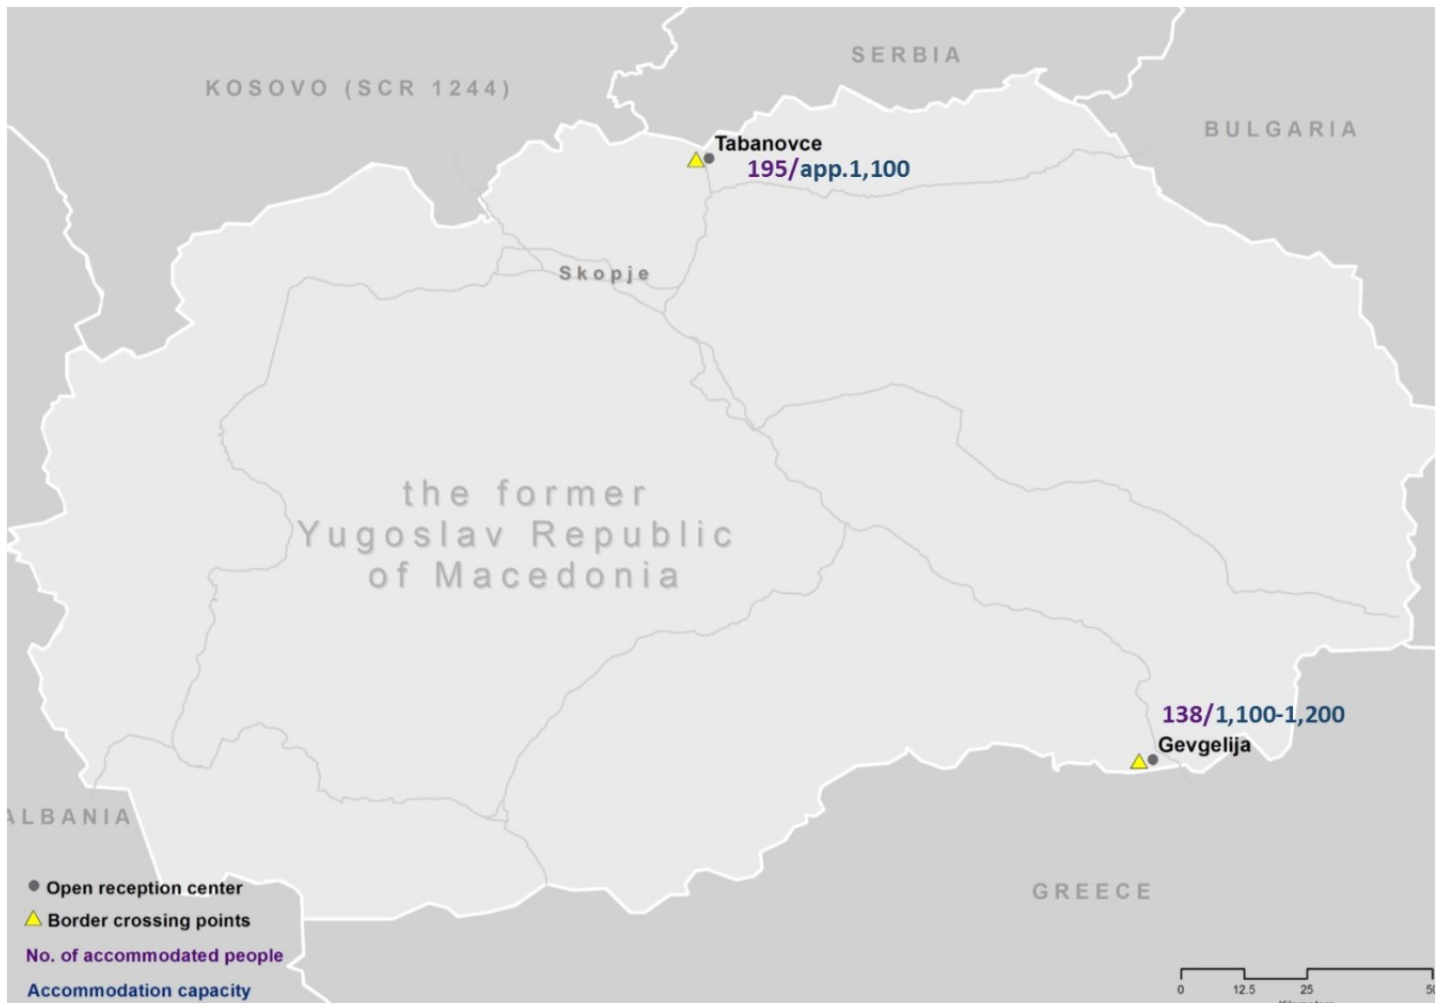

Until the beginning of March, prior to changes in the border regimes along the Western Balkans route, the “Vinojug”, Gevgelija Centre was **the main entry point** for migrants who were coming from Greece. In this transit Centre migrants and refugees who expressed intention to seek asylum in the country were registered and processed. After this procedure migrants and refugees spend up to several hours in the Centre before taking the train or other transportation to the northern border with Serbia.

TABANOVCE TRANSIT CENTRE

Accommodation facility located close to the Serbia border in Tabanovce region, has a full capacity of approximately 1,100. Currently it accommodates app. **195** migrants and refugees. The main nationalities are Afghans, Iraqis and Syrians; there are also a few Iranians, Pakistanis and Lebanese.

Until the beginning of March, Tabanovce Transit Centre, was the main exit point for migrants and refugees who were heading to Serbia. Migrants and refugees were staying in the camp for a short period of time before continuing their journey toward Serbia.

The total number of accommodated migrants and refugees in the former Yugoslav Republic Macedonia as of 01 June is **333**, representing a 17% decrease since the last reporting period.

12. The Central Mediterranean Route

Niger

In acknowledgement of these dangers, IOM has been monitoring migrant flows in two key monitoring points since **February of 2016 in Séguédine and Arlit**. The former, Séguédine, represents a crucial point for migration to and from Libya and involves crossing extended, isolated stretches of desert in the before mentioned adverse climactic and safety conditions. Arlit stands as a key migration hub for those heading to Algeria and for those seeking economic opportunities in the mining industry along the border with Algeria.

From the beginning of IOM's flow monitoring activities in the nation to 30 May, there have been a total of **109,784** outgoing (a **45%** increase since the last reporting period) and **37,013** (a **43%** increase) incoming migrants registered at flow monitoring points. As is evident, not only is the large majority of migration outgoing but, the outgoing flows have been increasing significantly in the last four weeks—especially through Séguédine towards Libya.

In the latest weekly statistical report available [here](#), data collected at the Séguédine monitoring point shows a slight increase (**1.5%**) in migrants and refugees outgoing to Libya. These outgoing flows have been sustained well above the average of **4,413** since mid-April. Flows to and from Algeria have remained relatively stable at an equilibrium of incoming and outgoing flows through Arlit, although flows were affected by heavy rains in the As-samaka region that made the roads impassable for several days. Reports from IOM Niger indicate that the conditions have now improved. Surveys conducted at Séguédine showed that the main reason for migration flows to Niger (**99%**) is due to **conflict and insecurity** while the majority of outgoing flows can be attributed to **economic reasons (95%) or improved access to services (5%)**. Furthermore, **85%** of migrants stated **Libya** as the **final destination**, while the remaining **15%** stated **Europe**. Find IOM Niger's latest compilation report [here](#).

Libya

Background and latest figures

In Libya the systems for thorough data collection have not yet been established, with available information being provided by the Libyan Coast Guard, Libyan Red Crescent, and one Non-Governmental Organisation (NGO) – the Psychosocial Support Team (PSS). Cumulative data is not available, however during this reporting period (18 – 31 May), these sources reported that **3,653** irregular migrants were apprehended and **6** fatalities were registered. The breakdown by day of the apprehensions can be found below. These figures only include those apprehended and rescued by the Coast guard; actual number of migrants and refugees departing Libya by sea are in fact much higher than this.

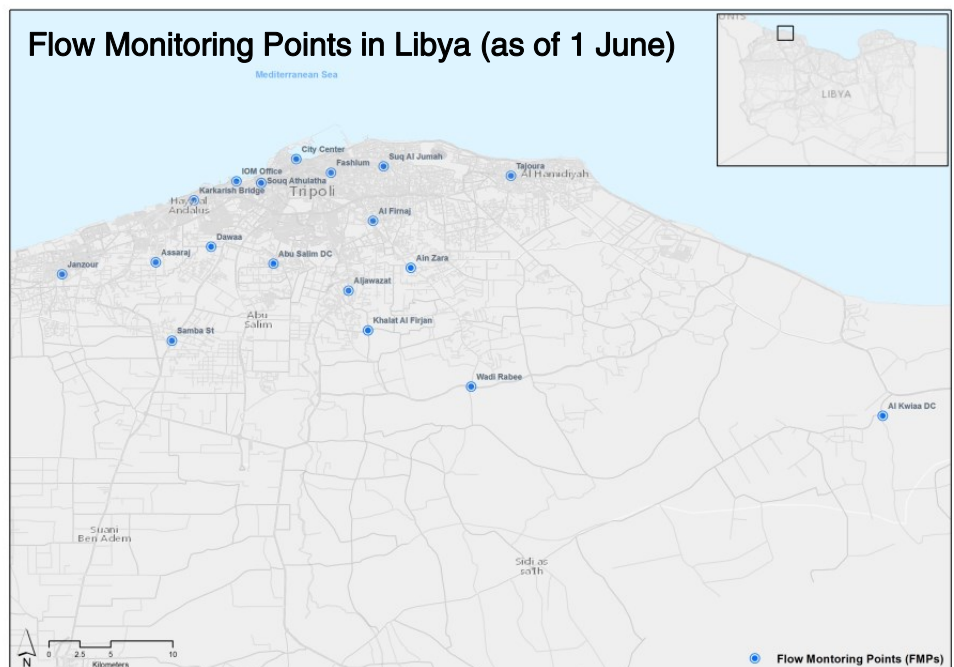

Rescues and apprehension by date in Libya

Mediterranean Developments-Rescues/Apprehensions by Libyan Coast Guard		
Date	Number of irregular migrants	Number of deaths
22-May-16	953	0
23-May-16	450	0
24-May-16	680	0
26-May-16	1,250	4
27-May-16	120	2
28-May-16	200	0
Total	3,653	6

Known exit points

Known exit points by sea: Zawiya and Sabratha

30 May 2016 — According to Frontex, approximately **13,800** migrants were rescued in the Central Mediterranean last week in nearly 90 search and rescue operations. Most of the migrants were rescued from rubber dinghies off the Libyan coast, although some of them were on board wooden boats and fishing vessels. These boats were in poor condition and filled well over their capacity, which led to three fatal incidents where wooden boats capsized. So far, more than 50 bodies have been recovered and hundreds more people are feared drowned, based on unconfirmed statements by the surviving migrants.

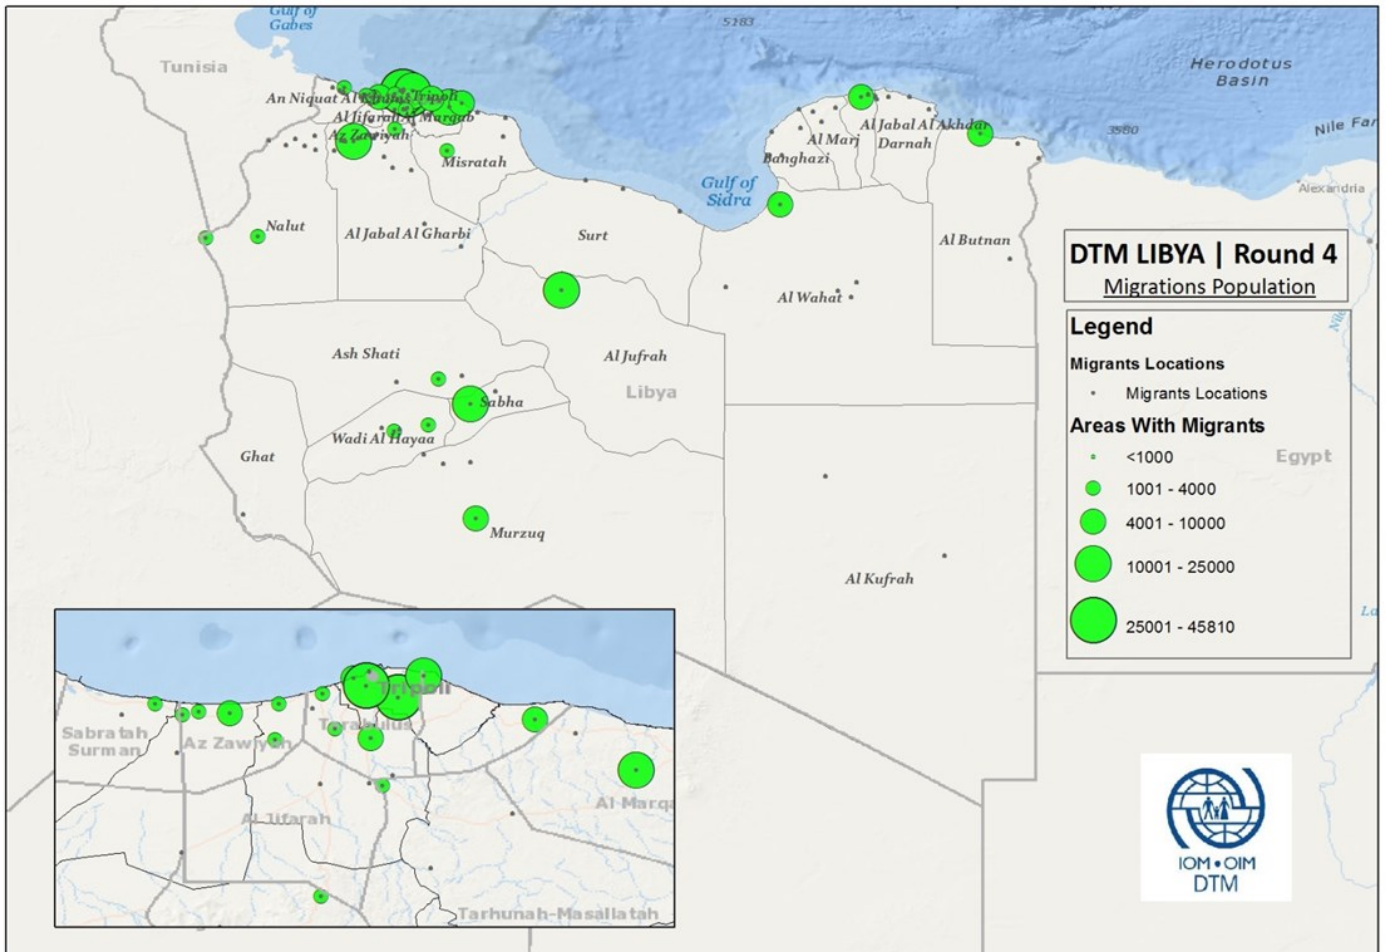

Libya

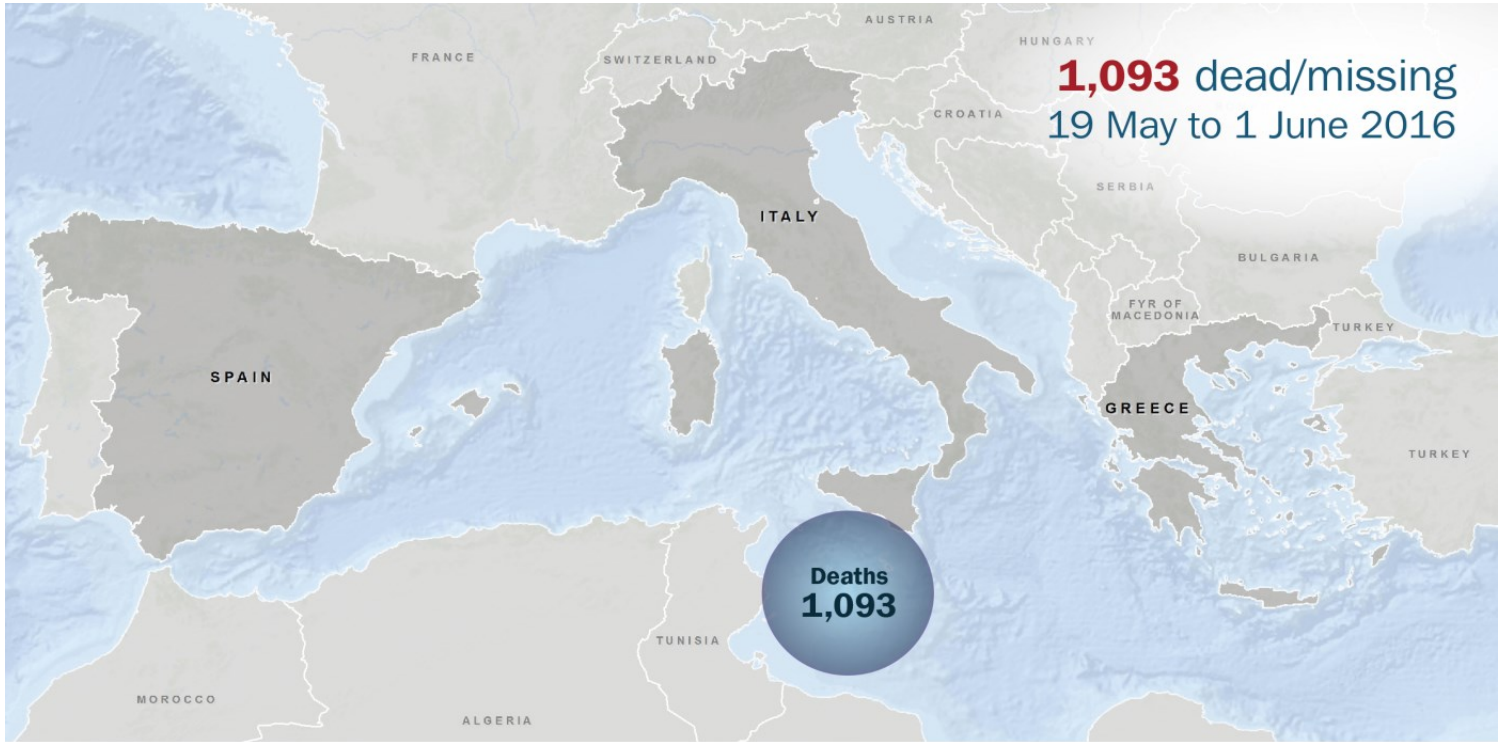

Libya DTM Round 4

The fourth roll out of DTM identified **264,014** migrants in **316** locations, concentrated in 17 Southern and coastal areas of the country. IOM Libya estimates that **3%** of migrants are hosted in detention centers (down from 4% during the previous DTM roll out). The majority of migrants are living in private locations in proximity to farms and other market places. **31** areas reported migrants crossing during an observation period from mid-April to mid-May, making them flow/transit points for migration. These locations are mainly in coastal areas and surroundings such as Dirj, Msallata, Ain Zara, Sabha, Garaboli, Brak, Alzintan, as well as in Al Qatron in Southern Libya. Please find the associated map from IOM Libya below.

13. Missing Migrants: Fatalities and Missing Persons

Mediterranean fatalities by month 2014 - 2016

Child fatalities at sea, Eastern Mediterranean route to Greece

Names and boundaries on map do not imply official endorsement or acceptance by IOM.

14. Contingency Countries

Albania

Latest figures

Between 1 December 2015—31 May 2016, 365 migrants and refugees were apprehended by the Albanian authorities. Apprehended irregular migrants are given the possibility of applying for asylum in Albania. The alternative options for apprehended migrants are to leave the territory, or to return voluntarily to their country of nationality. The majority of irregular crossing were detected in Kakavia/ Kakavijë border crossing point with Greece. All irregular crossings in the reporting period were returned to Greece by the Albanian police or were asked to voluntarily return to Greece. The Albanian Border Police immediately notify IOM when an irregular migrant or group of migrants is detected.

Known entry and exit points:

Known entry points with Greece by land: Kapshtica, Tre Urat Sopik, Kakavia or Kakavijë, Rrips, Qafë Botë

Known entry points with Greece by sea: Port of Sarandë

Known entry points with the FYR of Macedonia: Gorica, Tushemisht, Qafa Thane, Billate

Known entry points with Kosovo (SCR 1244): Shishtavec, Orgjost, Morina, Qafë Prush, Qafa e Morines

Known exit points with Montenegro: Bashkim, Han i Hotit

Known exit points with Italy by sea: Stun Gjin, Porto Palermo, Port of Sarandë

Kosovo (SCR 1244)

Latest figures

During the current reporting period, 14 irregular migrants were apprehended by the Kosovo Border Police. All of them were accommodated at the Asylum Center in Magure—Lipjan, where all requested asylum.

Accommodation facilities

There are two open reception centers in the country in the Magure—Lipjan area and Pristina. Apart from that, two camps are operational in Mitrovica (“Belvedere”) and Gjakova (“Amiko”)

Known potential entry and exit points:

Known potential entry points with Albania: Vermice-Prizren

With FYROM – Hani i Elezit

Known potential entry point with Montenegro: Kulla-Peje

With Serbia – Merdare, Leposaviq, Zubin Potok

Montenegro

Background

Montenegro has been largely unaffected by Mediterranean migration flows due to various reasons, including its geographical position. Nevertheless, Montenegro remains an important “contingency” country which might see an increase in flows if the route changes.

Latest figures

Data is collected from the Asylum Directorate, Border Police, and Asylum Centre. At the end of each working day, the Asylum Directorate provides information on how many new migrants/refugees intended to seek asylum (entered Montenegro), and the Border Police share information regarding how many persons have sought asylum at the border crossings and how many migrants have been apprehended entering irregularly or within the country irregularly.

Bosnia and Herzegovina

Background

The modest figures include both registered arrivals and apprehensions by the BiH Border Police of irregular migrants on entry and exit. Despite the low figures, BiH remains an important “contingency” country which might see an increase in flows if the route changes.

Apprehended irregular migrants are given the possibility of applying for asylum in BiH. The alternative options for apprehended migrants are to leave the territory or to return voluntarily to their country of nationality. The BiH Border Police supply numbers of registered and detected arrivals and exits to the country on a monthly basis.

On **May 29**, BiH border police prevented the smuggling of 5 Sri Lanka nationals from Serbia.

Known entry and exit points

15. The Northern Route

Norway

During 2015, the flows of migrants arriving in Norway have significantly increased in comparison with the previous years, in particular during the course of the summer. According to local IOM staff, as of 6 April 2016, there are no officially reported number of stranded migrants. Upon their arrival, migrants are applying for asylum and are then placed in asylum reception centres.

For more information on the Northern Route (including Russia) see previous Flows Compilation Reports which are available [here](#).

Finland

According to the Finish Border Guards, in the first 2 months of 2016 there was a total of **1,063** arrivals through the eastern border. A majority of arrivals come now through ships/ferries from Sweden as well as some cases through the land border with Sweden and by air.

16. Early Warning Information Sharing Network (EWIS)

Over the course of 2015 the Western Balkans route witnessed a sharp increase in numbers of mixed migration flows, most of which were transiting through Greece, the former Yugoslav Republic of Macedonia, Serbia, Hungary, and Croatia. These flows encompass refugees, as well as a wide range of vulnerable migrants, undocumented persons, unaccompanied and separated children, with the majority facing serious protection concerns. With up to 10,000 migrants crossing the border between Greece and the FYR of Macedonia, and between the FYR of Macedonia and Serbia on a daily basis during July and August 2015, it became critical to ensure the real-time provision of information on these flows, in order to ensure that relevant governmental agencies and humanitarian actors within these countries had adequate responses in place to address the basic needs of migrants. For more information about the project see the previous Flows Compilation Report available [here](#).

17. About this report: DTM in the Mediterranean and beyond

IOM's **Displacement Tracking Matrix (DTM)** is a suite of tools and methodologies designed to track and analyse human mobility in different displacement contexts, in a continuous manner.

In order to gather and disseminate information about the migrant populations moving through the Mediterranean, up the Western Balkan Route and through the Northern Route into Europe, in September 2015 DTM established a **Flow Monitoring System**. The Flow Monitoring System includes this weekly flows compilation, which provides an overview of migration flows in countries of first arrival and other countries along the route in Europe, and analysis of trends across the affected region. The data on registered arrivals is collated by IOM through consultations with ministries of interior, coast guards, police forces, and other relevant national authorities.

The system also includes **flow monitoring surveys** to capture additional and more in-depth data on the people on the move, including age, sex, areas of origin, levels of education, key transit points on their route, motives, and intentions. This data has been captured by IOM field staff in Greece, the former Yugoslav Republic of Macedonia, Serbia, Hungary, Croatia and Slovenia since October 2015. The analysis of collected data is available on the IOM portal for Mediterranean. The latest report of the "Analysis: Flow Monitoring Surveys in the Mediterranean and Beyond" (as of May 18) is available [here](#).
