

# Flow Monitoring Points | Migrant Arrivals and Yemeni Returns from Saudi Arabia in March 2020

The International Organization for Migration (IOM) Displacement Tracking Matrix (DTM) monitors key migrant arrival and Yemeni return locations on Yemen's northern border with the Kingdom of Saudi Arabia (KSA) and southern coastal border. Enumerators placed at Flow Monitoring Points (FMPs) record arrivals of migrants and Yemeni nationals' returns in order to identify different patterns and types of migration, including quantitative estimates to help define the population of irregular migrants entering the country. Access constraints limit the ability to collect data at some migrant arrival points. IOM estimates that 7,223 migrants entered Yemen in addition to 4,809 Yemeni returns from KSA during March 2020 bringing the number of migrants who have arrived in Yemen in 2020 to 27,948 and the number of Yemeni returnees from KSA to 10,965.

## MARCH 2020 MIGRANT ARRIVALS: 7,223

## MARCH 2020 YEMENI RETURNS FROM SAUDI ARABIA: 4,809
