48% of migrants observed exiting Ethiopia left from drought-affected areas (268,000)

53% of Ethiopians deported from Saudi Arabia intended to return to drought-affected areas (91,000)

KENYA²

Mobility assessments in Garissa, Turkana, Marsabit and Isiolo Counties

74% of locations affected by drought

407,300 Individuals arriving in search of assistance

1.1 M Pastoralist dropouts

6,100 Stranded migrant households

61% of migrants observed entering Kenya went to drought-affected areas (25,700)

DJIBOUTI³

6,086 IDPs displaced by drought
(618 locations)

672 Stranded migrants affected by drought
(7 locations)

45% of migrants observed entering Djibouti came from drought-affected areas in Ethiopia (65,300)

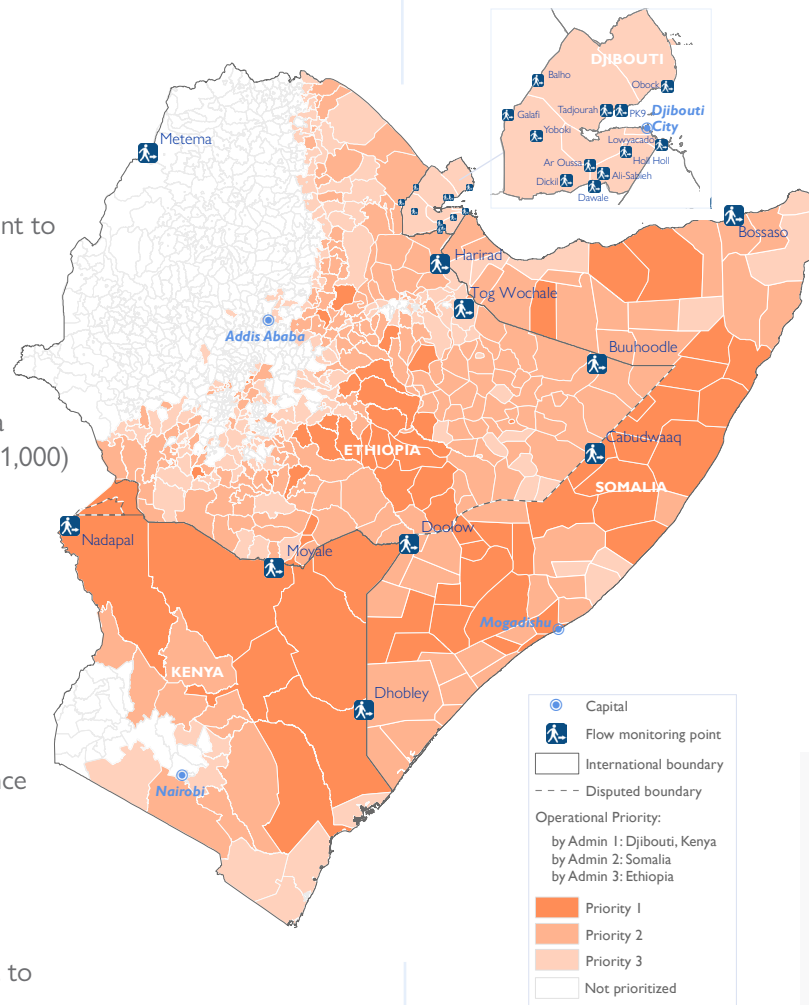

SOMALIA⁴

3 M IDPs in drought-affected areas

1.5 M People displaced by drought since 2021

¹ IDPs: IOM DTM Round 31 Aug–Sep 2022. Migrants to and from drought-affected areas: IOM DTM Ethiopia flow monitoring database. Figures on deportees are for the period of 2021–2022 and are drawn from the IOM database on returns from Saudi Arabia.
² Human mobility: IOM DTM Report on Human Mobility in Garissa County (Sept 2022), Turkana (Nov 2022), Isiolo (Dec 2022) and Marsabit (Dec 2022). Migrant figures: IOM flow monitoring database 2022.
³ IDPs: IOM DTM mobility tracking round 1 assessment (Sept 2022). Stranded migrants: IOM DTM flow monitoring report (Dec 2022). Migrants entering Djibouti: IOM DTM flow monitoring database 2022. Djibouti does not form part of OCHA prioritization levels. However, IOM will implement response activities for communities affected by erratic rainfall.
⁴ IDPs: IDP working group and Somalia National Bureau of Statistics. Drought displacement: Protection & Return Monitoring Network Jan 2021 to Dec 2022.
