

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0001	Public	Select up to 3	Current modality of accessing food	optional

Question Text

How do households in the community mostly access food?

Response Options

buy it at the market; exchange it with other items; given for free by relatives and friends; given for free by local groups/individuals; given for free by external groups/individuals; given for free by authorities; fishing/hunting/farming/picking; we are still consuming food we had from before the movement; there is no access to food; Other (specify); do not know/no answer

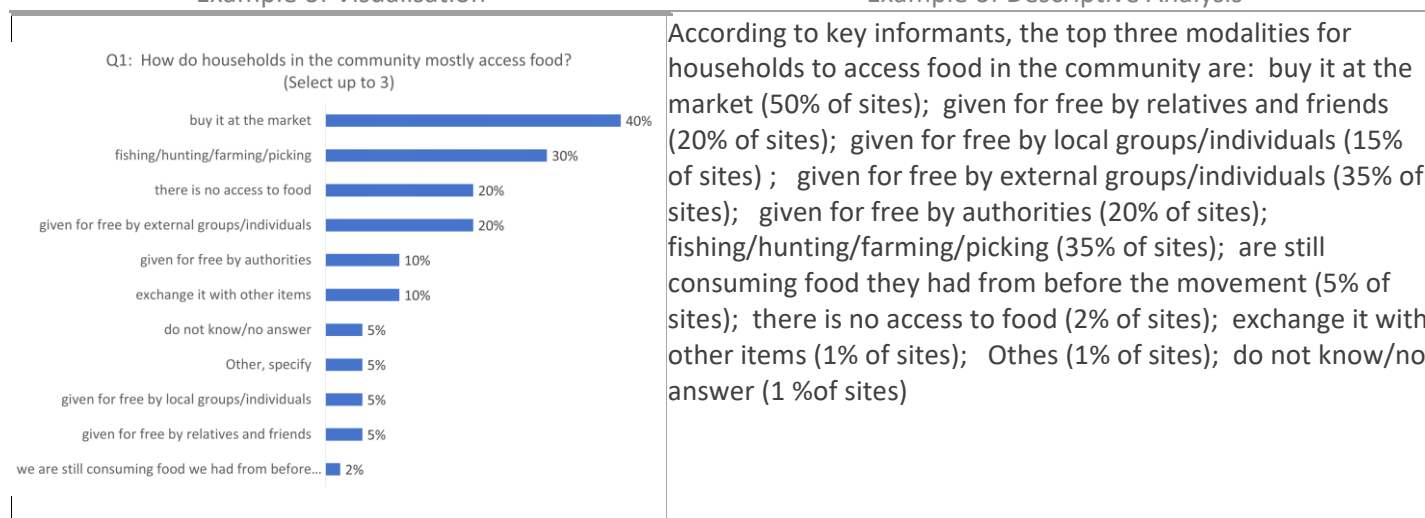

Preconditions for Data Collection

Recommended Source of information

	Residents Committee Member/Site Management
--	--

Example of Visualisation

Example of Descriptive Analysis

Example of Use that can be done by Data Users (eg, CWG, Cluster)

mapping of location/areas where pop is able/not able to access markets for food (by Food Security cluster or CASH WG)

Dataset of Interest for:

	CASH WG	CCCM			Food Security		
Livelihood		Nutrition					

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0002	Public	Select one	Current availability of food at sites	optional

Question Text

For how long will current food stocks be sufficient in this community?

Response Options

More than 1 month; 3 to 4 weeks; 1 to 2 weeks; there are no food stocks; do not know/no answer

Preconditions for Data Collection	Recommended Source of information
agree on how to fo urgent notification to the food security cluster (How many days stock is too little? How to share data?)	Residents Committee Member/Site Management

Example of Visualisation	Example of Descriptive Analysis												
<p>Q2: For how much time are current food stocks sufficient in this community? Number of sites</p> <table border="1"> <thead> <tr> <th>Food Stock Duration</th> <th>Number of Sites</th> </tr> </thead> <tbody> <tr> <td>there are no food stocks</td> <td>20</td> </tr> <tr> <td>1 to 2 weeks</td> <td>10</td> </tr> <tr> <td>3 to 4 weeks</td> <td>5</td> </tr> <tr> <td>More than 1 month</td> <td>20</td> </tr> <tr> <td>do not know/no answer</td> <td>5</td> </tr> </tbody> </table>	Food Stock Duration	Number of Sites	there are no food stocks	20	1 to 2 weeks	10	3 to 4 weeks	5	More than 1 month	20	do not know/no answer	5	<p>According to key informants, there are no food stocks in xx% of assessed sites, while in xx% of sites current food stocks are sufficient for 1 to 2 weeks (from assessment date) and in xx% of sites they are sufficient for 3 to 4 weeks. In xx% of assessed sites, current stock are sufficient for more than one month, and in xx% of assessed sites, KI could not answer.</p>
Food Stock Duration	Number of Sites												
there are no food stocks	20												
1 to 2 weeks	10												
3 to 4 weeks	5												
More than 1 month	20												
do not know/no answer	5												

Example of Use that can be done by Data Users (eg, CWG, Cluster)

Question Text

How long does it take to walk from the location to the market?

Response Options

less than 1 hour; 1-2 hours; more than 2 hours; do not know/no answer

Preconditions for Data Collection

Discuss with Inter Cluster Coordination Group or CASH WG if they need this info. This is only able to provide an indication of feasibility for multi purpose Cash modality. This is not a CASH feasibility assessment

Recommended Source of information

Site Management

Example of Visualisation

Example of Descriptive Analysis

According to key informants: people living in xx sites are more than 2 hours away from the market. The estimated population living in these sites is xyz; people living in xx sites are less than 1 hour away from the market. The estimated population living in these sites is yyz; people living in zx sites are between 1 and 2 hours away from the market. The estimated population of these sites is yz.

Example of Use that can be done by Data Users (eg, CWG, Cluster)

May contribute to an initial understanding of market availability and access as part of an overall understanding of cash feasibility, and may indicate need for / inform subsequent market assessments.

Dataset of Interest for:

	CASH WG	CCCM	Child Protection	Education	Food Security	GBV

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0030	Public	Select One	transport to the market	Recommended by Cluster/WG/AoR

Question Text

How do most people get from the location to the market?

Response Options

Walking; public transportation (bus, van, taxi); private car/bikes; no access to market; do not know/no answer

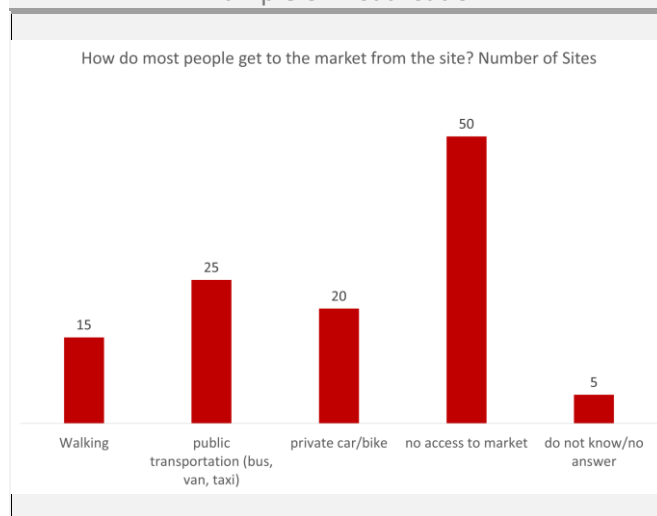

Preconditions for Data Collection

Discuss with Inter Cluster Coordination Group or CASH WG if they need this info. This is only able to provide an indication of feasibility for multi purpose Cash modality. This is not a CASH feasibility assessment

Recommended Source of information

Site Management

Example of Visualisation

Example of Descriptive Analysis

According to key informants, population get to the market walking in xx of the xx sites with access to the market; while in yy sites population uses public transport and in yz they use private cars /bikes. In xyz sites there is no access to the market.

Example of Use that can be done by Data Users (eg, CWG, Cluster)

May contribute to an initial understanding of market availability and access as part of an overall understanding of cash feasibility, and may indicate need for / inform subsequent market assessments.

Dataset of Interest for:

Example of Descriptive Analysis

--	--

Example of Use that can be done by Data Users (eg, CWG, Cluster)

Number of HH is used for estimation of needs for any response designed at the HH level

Dataset of Interest for:

		CCCM	Child Protection	Education	Food Security	GBV	Health
Livelihood	Mental Health/PSS	Nutrition	Protection	Shelter & NFIs	WASH		

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0062	Public	Replace [5] with the average HH composition used by Food Security,	Most common size of a Household (HH) in the site	Recommended by Cluster/WG/AoR

Question Text

What is the most common size of a household [of population group] in the location?

Response Options

smaller than [5]; [5]; larger than [5]; do not know/no answer

Preconditions for Data Collection

Clarify with clusters if this is only needed for IDPs or for other groups

Recommended Source of information

Shelter actor/Site Management

Example of Visualisation

Example of Descriptive Analysis

According to KI, in xx assessed sites, the majority of HH are smaller than 5, the national average per HH. In xx sites, the majority of HH is larger than 5, while in yy sites it is smaller.

Example of Use that can be done by Data Users (eg, CWG, Cluster)

Size of HH is used for estimation of needs for any response designed at the HH level

Dataset of Interest for:

		CCCM			Food Security		Health
				Shelter & NFIs	WASH		

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0107	Public	Select One	Type of settlement	Recommended by Cluster/WG/AoR

Question Text

Type of settlement for majority of the [population group]

Response Options

Dispersed population - Renting arrangement; Dispersed population - Hosting arrangement; Dispersed population - self-settlement; Grouped population - Collective accommodation; Grouped population - Planned Settlement; Grouped population - Spontaneous settlement

Preconditions for Data Collection

Adapt global categories to local ("correspondence settlement types local to global" in: <https://displacement.iom.int/dtm-partners-toolkit/settlement-and-shelter-types>), with Shelter & CCCM cluster. Fill table to enable global use of your data

Recommended Source of information

Site Management

Example of Visualisation

Example of Descriptive Analysis

According to key informants, xx% of assessed locations, population is leaving in Dispersed population-Renting arrangement, yy% in Dispersed population-Hosting arrangements; zz% in Dispersed population-self-settlement; zzyx% in Grouped population-Collective accommodation; yyy% in Grouped population-Planned Settlement; and yz% in Grouped population-Unplanned settlement.

Example of Use that can be done by Data Users (eg, CWG, Cluster)
